"TO MY PEOPLE,

The world-wide struggle for the triumph of liberty is entering upon its last and most difficult phase. The enemy is striving by desperate assault and subtle intrigue to perpetuate the wrongs already committed and to stem the tide of free civilisation We have yet to complete the great task to which we have dedicated ourselves, and I would call upon you to devote a special day to prayer that we may have the clear-sightedness and strength necessary to the victory of our cause This victory will be gained only if we steadfastly remember the responsibility resting upon us and in a spirit of reverent obedience ask the blessing of Almighty God upon our endeavours Let us seek to be enlightened in our understanding and fortified in courage in facing the sacrifices we may yet have to make I therefore appoint January 6th, the first Sunday in the New Year, to be set aside as a special day of prayer and thanks giving in all the churches throughout my Dominions"

No 910 C—The following Royal Warrant is published for general information —

GEORGE R I

GEORGE THE FIFTH, by the Grace of God, of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, King, Defender of the Faith, Emperor of India, to all to whom these Presents shall come, Greeting !

WHEREAS Her late Majesty Queen Victoria, being desirous of distinguishing by some mark of Her Royal Favour the many heroic acts performed by Mariners and others who endanger their own lives in saving or endeavouring to save the lives of others from shipwrecks and other perils of the sea and the many heroic acts performed on land by those who endanger their own lives in saving or endeavouring to save the lives of others from accidents, in mines, on railways and at fires or other perils within Her Dominions, other than perils of the sea, did by Warrants under the Royal Sign Manual bearing date respectively the 7th March, 1866 the 12th April 1867, and the 30th April, 1877, for Herself, Her Heirs and Successors, institute and create as a mark of Royal Approbation of such heroic acts new Decorations styled respectively 'The Albert Medal of the First Class ' and "The Albert Medal of the Second Class which Decorations Her Majesty was desirous should be highly prized and eagerly sought after

And whereas the said Warrants were subsequently amended and all the Warrants relating to these Decorations were consolidated by a Warrant under the Sign Manual bearing date the 5th June 1905

And whereas it is Our Pleasure to amend the style of the said Decorations

We are graciously pleased to make, ordain and establish the following Rules and Ordinances for the government of the Decorations —

I It is ordained that the Decoration in each case shall be styled "The Albert Medal", but when it is awarded for acts of such extreme and heroic daring as to merit a special degree of recognition, it shall be styled "The Albert Medal in Gold '

II It is ordained that the Albert Medal shall consist of a bronze oval-shaped Badge or Decoration, having in the centre a Monogram composed of the letters V and A erect upon an enamelled background, surrounded by a Garter inscribed in raised letters ' For Gallantry in Saving Life at Sea,' or "For Gallantry in Saving Life on Land " as the case may be, and surmounted by a representation of the Crown of His Royal Highness the lamented Prince Consort, but where the Medal conferred is 'The Albert Medal in Gold," it shall consist of a gold oval-shaped Badge or Decoration having in the centre a Monogram composed of the letters V and A erect in gold upon an enamelled background, surrounded by a Garter in bronze inscribed in raised letters of gold, For Gallantry in Saving Life at Sea," or ' For Gallantry in Saving Life on Land," as the case may be, and surmounted by a representation in gold of the Crown of His Royal Highness the lamented Prince Consort When the Medal is given for gallantry in saving life at sea the letters V and A shall be interlaced with an anchor erect in bronze or gold, as the case may be

The Medal shall be suspended from a riband of an inch and three-eighths in width, having two white longitudinal stripes, in the case of the "Albert Medal in Gold' the riband shall have four white longitudinal stripes

The colour of the enamel and riband shall be dark blue when the Medal is conferred for gallantry in saving life at sea, and crimson when it is conferred for gallantry in saving life on land

III It is ordained that the Medal shall only be awarded to those of Our faithful subjects who, in saving or endeavouring to save the lives of others from perils of the sea or from perils on land, have endangered their own lives and that such award shall be made only on a recommendation to Us by Our Principal Secretary of State for the Home Department

Provided always that where the Medal is conferred for gallantry in saving life at sea the preliminary steps and enquiry shall, if the award be to anyone belonging to the Royal Navy or the Royal Marines, be with the Lords Commissioners of the Admiralty, and in other cases with the President of the Board of Trade

IV It is ordained that the names of those persons upon whom We may be pleased to confer the Medal shall be published in the *London Gazette* Where the Medal is conferred for gallantry in saving life on land a Register of such names shall be kept in the Office of Our Principal Secretary of State for the Home Department Where the Medal is conferred for gallantry in saving life at sea a Register of the names of such of these persons as belong to the Royal Navy or the Royal Marines shall be kept in the Office of the Lords Commissioners of the Admiralty, and a Register of the names of such of these persons as do not belong to the Royal Navy or the Royal Marines shall be kept in the Office of the Board of Trade

V It is ordained that the Medal shall be worn suspended from the left breast

VI It is ordained that any act of gallantry which is worthy of recognition by the award of the Albert Medal, but is performed by one upon whom the Decoration has already been conferred, may on a recommendation to Us by Our Principal Secretary of State for the Home Department, be recorded by a bar attached to the riband by which the Medal is suspended and for every such additional act an additional bar may be added

VII In order to make such additional provision as shall effectually preserve pure these most honourable Decorations, it is ordained that if any person on whom any of such Decorations is conferred be guilty of any crime or disgraceful conduct which in Our judgment disqualifies him for the same his name shall, by an especial Warrant under Our Royal Sign Manual, be forthwith erased from the Register of those upon whom the said Decoration shall have been conferred and his Medal shall be forfeited And every person to whom the said Medal is given shall before receiving the same enter into an engagement to return the same if his name shall be so erased as aforesaid under this Regulation It is hereby further declared that We, Our Heirs and Successors, shall be the sole judges of the circumstances demanding such expulsion Moreover, We shall at all times have power to order

that any person who may at any time have been expelled shall be restored to the enjoyment of the Decoration

VIII The Warrant of the 5th June, 1905, is hereby revoked

Given at Our Court at *Saint James's*, this twenty-eighth day of *August* One thousand nine hundred and seventeen in the Eighth year of Our Reign

RESOLUTION

No 2228—In Military Department Notification No 718, dated the 17th July 1903 the approval of the Government of India was accorded to the adoption of the system detailed below for the promulgation of Government and other orders to the Army in India —

(1) The system of publishing orders to the Army in G G Os, G Os C C or India Army Circulars to be discontinued

(2) All orders or notifications to the Army to appear either in the *Gazette of India* or in orders published by the Adjutant General's Department styled India Army Orders"

(3) All such commissions appointments, promotions, retirements rewards legal notifications, despatches connected with field operations or other notifications to be published in the *Gazette of India* which it is usual or expedient to publish therein

(4) Changes in organisation etc and rewards of a minor description such as the grant of meritorious service medals to be notified only in India Army Orders as a rule

(5) India Army Orders to commence with the notification of all Royal Warrants and Regulations or orders promulgated under the authority of the Secretary of State for India or the Governor General in Council and to be prefaced accordingly Such notifications to be followed by orders which had hitherto appeared only in G O C C

(6) A quarterly appendix to the India Army Orders to be published in the place of India Army Circulars, to contain only corrections to the India Army Regulations and to be printed separately so as to facilitate the correction of books of regulations

2 The Government of India have had under consideration a proposal to modify the system under which the decisions of Government and the orders of His Excellency the Commander-in-Chief are communicated through the medium of Army Department letters and India Army Orders, respectively Under the existing system, Army Department letters are generally addressed to the administrative Branch of Army Headquarters to which the subject-matter pertains, or to the General Officer Commanding Division or Independent Brigade, or Controller of Military Accounts concerned They seldom reach the smaller formations and staffs without great delay and duplication of work and many never reach units at all India Army Orders frequently contain much matter which is not proper to them

3 In modification of the orders contained in the notification quoted in paragraph 1 above, the Government of India have decided that the procedure detailed below shall be adopted, with effect from the 1st January 1918, for

the promulgation of decisions of Government and orders of His Excellency the Commander-in-Chief to the Army in India —

(a) *Army Department letters* conveying the sanction of the Government of India to proposals emanating from Army Headquarters or elsewhere will in future be restricted to cases of individual or of special application, and will not convey decisions which will form precedents for the Army as a whole They will also deal with confidential matters, even of general importance, which cannot properly be published in India Army Orders

(b) Decisions not within the powers of His Excellency the Commander-in-Chief in India and which convey the orders of the Right Hon'ble the Secretary of State for India or the Governor General in Council on matters affecting the Army as a whole will in future be issued simultaneously to all authorities in a form analogous to the British Army Council Instructions The form of communication will be designated 'Army Instructions (India)"

(c) The Army Instructions (India) will be printed over the signature of the Secretary to the Government of India, Army Department, and will appear on separate sheets numbered consecutively They will be issued regularly once a week to all authorities civil and military from the Government Press the distribution list corresponding approximately to that of India Army Orders

A bound copy of these instructions will be issued monthly with an index

(d) India Army Orders will in future be restricted to the promulgation of orders in which His Excellency the Commander in-Chief in India is the deciding authority and to the republication of such War Office Army Orders as are deemed applicable to the Army in India

ORDER —Ordered that a copy of this Resolution be published under a notification in Part I of the *Gazette of India* ordered also that it should be communicated to the several Departments of the Government of India, the Financial Adviser, Military Finance, all local Governments and Administrations Heads of Branches of Army Headquarters, the Director Royal Indian Marine and all Controllers of Military Accounts

DECLARATION

No 52Com —The 8th January 1918 —Whereas certain land was acquired by the Government of Bengal under the provisions of Act I of 1894 and Act XVIII of 1885 for a public purpose viz, for such portion of the Damudarpur siding of the East Indian Railway as lies between chainage 37 00 and chainage 56 60, such land being edged with pink on the plan L A M A No 320 and whereas coal mines are situate under the said land and whereas the Bengal Coal Company Limited, have given notice to the Government of Bengal in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the Poniati seam and whereas the mines have been inspected by the officer appointed by the Government of Bengal for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Government of Bengal that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Bengal Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding or underlying the land acquired for the branch or other lines with which the siding is connected, or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working

Now therefore the Governor of Bengal is pleased to declare under section 5, sub-section (2) clause (*b*) of the abovementioned Act XVIII of 1885 that the working shall be carried on by the said Bengal Coal Company Limited in the manner and subject to the restrictions below specified viz —

1 Galleries not exceeding 12 feet in width by 12 feet in height shall be driven at distances apart not less than 62 feet, centre to centre leaving pillars not less than 50 feet square to be left unworked for the support of the acquired land

2 Manholes not exceeding 6 feet in height by 5 feet in width by 4 feet in depth may be made where required by any rules made under the Indian Mines Act, 1901

3 Any inrush of water quicksand or soft material shall be reported to the Chief Inspector of Mines in India without delay

4 These restrictions apply to the Poniati seam only and to the area edged with pink on the plan and Messrs The Bengal Coal Company, Limited shall give notice under section IV of the Land Acquisition (Mines) Act 1885 of their intention to work any other seam under such area or to work coal under any other area of the acquired land, and that in all the above cases, except to comply with the above conditions no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plan marked L A M A No 320 signed by the Chief Inspector of Mines

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned

KING'S POLICE MEDAL

NOTIFICATION

(POLICE)

Delhi the 1st January 1918

No 1-C—His Majesty the KING EMPEROR OF INDIA, has been pleased to confer the King's Police Medal on the following officers and men of the Indian Police establishments —

* * * * * *

Bengal

Name of officer and rank	Statement of services for which in particular the decoration has been conferred
13 Nalini Nath Mazumdar Inspector, Calcutta Police	This officer was transferred to the Calcutta Police in 1910 where he has worked ever since His work has always been carried out in a praiseworthy manner and he has never spared himself in following hazardous cases to a successful conclusion
14 Sashi Bhusan Bhattacharji, Inspector of Police, Bengal	He is one of the most courageous officers in the department and has done most meritorious work in highly important and dangerous cases

Bengal—*concld*

	Name of officer and rank	Statement of services for which in particular the decoration has been conferred
15	Rajendra Nath Basu, Inspector of Police, Bengal	He is a most painstaking and reliable officer and has performed his duties in several dangerous and important cases courageously and efficiently
16	Narendra Nath Mukharji, Sub-Inspector of Police, Bengal	He has done exceptionally valuable detective work and has shown great devotion to duty and absolute fearlessness
17	Jamir Khan constable Bengal Police	This constable displayed conspicuous gallantry and presence of mind in arresting dangerous criminals in the following circumstances — In April 1915 he accompanied the sub-inspector of his police-station on the occasion of the search for certain absconders When the men were encountered, they attacked the police with deadly weapons and one of them attempted to spear the sub-inspector The constable then intervened, and while warding off the blow with his *lathi* was struck in the abdomen He did not flinch from his duty and eventually, after a prolonged struggle succeeded in arresting his assailant, though he was again wounded by the latter's son The accused were sent up and convicted under sections 324 and 353, Indian Penal Code
18	Robert Martin Wright Superintendent of Police Bengal	Mr Wright displayed great gallantry in pursuing at night and arresting single-handed a dangerous armed dacoit
19	Amrita Lal Singh head constable, Calcutta Police	This officer followed up a dangerous armed criminal and at the risk of his life pluckily arrested him with the help of three constables whom he had picked up on the way
20	Azam Khan, head constable Bengal Police	While on ordinary round duty at night this officer observed a man running along a road and challenged him The man replied by firing a pistol at him The head constable dodged the shot and felled the assailant with a *lathi* blow on the neck and arrested him He proved to be a dangerous criminal escaping from the police
21	Ram Sakal Gossain, head constable, Bengal Police	This officer displayed conspicuous bravery and incurred great personal risk in following, unarmed and on foot, a gang of twelve armed dacoits who twice turned and fired on him He did not cease from the pursuit until darkness came on Some of the men were subsequently identified by him and convicted
22	Jogendra Chandra Gupta Sub-Inspector of Police, Intelligence Branch, Criminal Investigation Department, Bengal	This officer displayed great gallantry and presence of mind in pursuing and arresting a dangerous criminal armed with a loaded revolver

POLITICAL

Delhi, the 2nd January 1918

No 14—In pursuance of section 2 of the Defence of India (Criminal Law Amendment) Act, 1915, IV of 1915 as subsequently amended, the Governor General in Council is pleased to direct that the following amendment shall be made in the Defence of India (Consolidation) Rules, 1915, namely —

After Rule 12-A the following rule shall be inserted, namely —

Power to order removal of suspects from specified areas

"12-B (*1*) Where the Governor-General in Council has by notification in the *Gazette of India* declared any area to be an area which it is necessary to safeguard in the public interest and where, in the opinion of the Local Government, any person has acted, is acting, or is about to act in a manner prejudicial to the safety of such area or any works or buildings therein or to the effective control of any such works, the Local Government may by order in writing direct that such person shall not enter, reside or remain in such area

(*2*) An order made under sub rule (*1*) shall be served on the person in respect of whom it is made in the manner provided in the Code of Criminal Procedure 1898, for service of a summons and upon such service such person shall be deemed to have had due notice thereof

(*3*) Any officer of Government authorised in this behalf by general or special order of the Local Government may arrest, without warrant, any person against whom a reasonable suspicion exists that he has acted, is acting, or is about to act in the manner aforesaid and may, in exercise of the power conferred by this sub rule, use any and every means necessary to enforce the same

(*4*) Any officer making an arrest under this rule shall forthwith report the fact to the Local Government and may,

(*i*) if such person is prepared to give security, release him on his executing a bond that he will not, pending receipt of the orders of the Local Government, enter, reside or remain in any area notified under sub-rule (*1*), or

(*ii*) if the person arrested has not been released on a bond by order in writing commit him, pending receipt of the orders of the Local Government to such custody as the Local Government may by general or special order specify in this behalf for a period not exceeding fifteen days

(*5*) When security has been taken under this rule the bond shall be deemed to be a bond taken under the provisions of the Code of Criminal Procedure, 1898 by the District Magistrate of the District within which the area concerned is situated, and the provisions of section 514 of the said Code shall apply accordingly

(*6*) Whoever being a person in respect of whom an order has been made under sub-rule (*1*) knowingly disobeys any direction in such order shall be deemed to have contravened these rules"

Explanation —In this rule the expression 'District Magistrate" shall be deemed, in the case of the Presidency Towns and Rangoon to refer to the Chief Presidency Magistrate

GENERAL DEPARTMENT.

NOTIFICATIONS

No 58Edn—The 9th January 1918—Mr W B Finnigan, Personal Assistant to the Director of Public Instruction, Bengal, is allowed leave under article 260 of the Civil Service Regulations for one month and seven days, with effect from the 10th January 1918

No 60Edn—The 9th January 1918—Rai Sahib Surendra Nath Sinha, an Assistant in the office of the Director of Public Instruction, Bengal, is appointed to act as Personal Assistant to the Director of Public Instruction, Bengal, during the absence, on leave, of Mr W B Finnigan, or until further orders

No 82Edn—The 11th January 1918—In the year 1908 His Majesty's Secretary of State for India sanctioned as a provisional measure the institution of a certain number of scholarships, tenable by Indians, in Europe or America The purpose of these scholarships was to provide for Indians that higher technical education which might qualify them to assist in promoting existing indigenous industries and developing new industries wherever this might be possible Technical education for this purpose was defined as (*a*) the study of the scientific methods and principles underlying the practice of any handicraft, industry or profession, and (*b*) the application of these methods and principles to the handicraft, industry or profession in question Law medicine civil engineering forestry and veterinary science being already provided for, were not included among the subjects to be studied by the holders of the technical scholarships and agriculture was excluded from the scope of the scheme

2 The Government of India have decided to award, during the year 1918 one scholarship to each province, provided that the Local Government or Administration concerned has a suitable candidate to nominate, and that its recommendation is submitted in accordance with the principles which are stated in paragraph 5 below, and that the industry to be studied is either already developed or in the process of development

3 It may, however, happen that, owing to the dearth of eligible candidates in certain provinces, two or more scholarships may on occasion be available for allotment to other provinces If therefore a Local Government is in a position to recommend confidently more than one candidate, such recommendation may be submitted to the Government of India In such cases the candidates need not necessarily be selected for the same industry

4 As regards the year 1918 it has been decided, after consultation with representatives of the mercantile and industrial communities that one candidate will, if possible, be recommended for a scholarship in connection with either leather tanning or iron smelting and the working of bye-product coke ovens If a second scholarship is allotted to Bengal, a second candidate may be recommended in one or the other subject The selection will depend largely on the character of the applications received

5 The principles in accordance with which recommendations for scholarships will be submitted to the Government of India are as follow —

(*a*) In making selections Government will bear in mind the fact that it will be necessary for the students to have a competent knowledge of English, or of the language of any other country to which they may be sent

(*b*) Government will also be guided by consideration of the capacity and intelligence of applicants, and of the practical interest shown by them in the industry selected, as also the assurance which they may afford that they will continue to devote themselves to the industries selected on their return in India These being matters which cannot be decided by competition, it is to be understood that the scholarships are not to be regarded as prizes, for which every one has a right to claim an equal opportunity of competing

(c) As a general rule a scholar, before being nominated, should have received the best technical education available in the province in the particular industry which he proposes to study. The standard of this education differs in different industries, and each may be considered on its own merits. Even if the standard of technical education in a particular industry is low, the scholar may be nominated, if he has availed himself of the best facilities obtainable, and shown an interest in the industry selected.

(d) No age-limit is fixed for scholars, but an age-limit may, at the discretion of Government, be fixed for any particular scholarship for which they invite applications.

(e) No scholar shall be selected without passing a searching examination as to physical fitness to undertake the manual work which will be an essential part of his career.

(f) Before a scholar leaves India to take up his scholarship his parent or guardian should be required to show that he had sent to the Educational Adviser for Indian students at the India Office, London, a sum of £15 for initial expenses.

6. The following are the conditions and terms on which the scholarships are tenable:—

(a) The value of the scholarships has been fixed at £150 a year exclusive of fees payable to the institutions where the scholars will study, and travelling expenses, but in special cases Government will consider proposals for increasing the amount of the scholarships.

(b) In ordinary circumstances the period for which a scholarship is tenable will be two years, but in special cases it may be increased to a third year, or, on the other hand, it may be reduced below even two years.

(c) The scholarships are tenable in foreign countries as well as in Great Britain, and are payable from the date on which a scholar reports his arrival in the country which he may have selected for the purpose of study.

(d) The scholarships are tenable by persons born either in British India or in a Native State, and domiciled in British India, of parents habitually resident in India and not established there for temporary purposes only.

(e) The scholars while in England or elsewhere, will be under the supervision and control of the Educational Adviser of Indian Students in London. The conditions under which they will hold the scholarships are given in the "Rules for Government of India Technical Scholars in the United Kingdom" a copy of which is attached to this notification.

7. It is essential, not only in the interests of the scholars themselves but also in order to avoid unnecessary extensions of scholarships, that the beginning of the period of the scholars' residence in England should coincide with the opening of the academical session of the institution which they propose to enter. It has accordingly been arranged, in consultation with the Secretary of State, that scholars shall report themselves in England not later than the middle of September. It has also been ascertained that it is of no advantage to them to reach England earlier than this, and that consequently they should not ordinarily leave India before the middle of August.

8. The special attention of candidates is invited to the fact that scholars must depend upon their own exertions when they return to India, and that the Government cannot, and does not undertake to provide them with employment.

9. All applications for scholarships to be awarded during the year 1918 must reach the Director of Public Instruction on or before the 15th February 1918.

10. Applicants for scholarships must state their birthplace, age and father's name and occupation and file certificates as to (1) moral character and antecedents, (2) educational qualifications (3) knowledge of the language of the country in which the scholarship is to be held, and (4) physical fitness. Candidates must name the country to which they propose to

proceed and the course of studies which they propose to take up while in receipt of scholarship They should also state whether they have had any actual experience of the industry for which the scholarship is offered.

RULES FOR GOVERNMENT OF INDIA (TECHNICAL) SCHOLARS IN THE UNITED KINGDOM

1 All Government scholars are required to avail themselves of the information and advice which the Educational Adviser for Indian Students and the Local Advisers at University centres are in a position to give them, and to apply to their Local Adviser for instructions as regards their studies and in any circumstances of difficulty The Local Advisers at Oxford, Cambridge, Manchester, Edinburgh and Glasgow have charge of Government scholars studying at those Universities Scholars studying elsewhere will be under the charge of the Local Adviser in London The Adviser is the proper person to bring before the Educational Adviser for Indian Students any matter requiring the sanction of the Secretary of State in Council

2 Every scholar should, on reaching England, at once report himself to the Local Adviser in London at 21 Cromwell Road, S W Accommodation for new arrivals is provided in that house After seeing the Local Adviser in London, and consulting with him in regard to his course of study he should also call on the Educational Adviser for Indian Students at the India Office

3 Every scholar must obey all instructions which he may receive either through the Educational Adviser for Indian Students or through his Local Adviser, and must consult his Local Adviser regularly in regard to his work No course of study will be sanctioned which does not provide for an adequate practical training Any course which has received the sanction of the Secretary of State will not be changed without similar sanction

4 Every scholar must from time to time, whenever the Local Adviser in London or other Local Adviser requires it, submit a certificate from the proper College or University Authority, or from any other Authority under whom he is working, showing that his conduct and progress have been satisfactory

5 Every scholar must give a written undertaking that he will devote himself exclusively, during the tenure of his scholarship, to the study of the subject for which his scholarship was granted, and that he will return to India on its termination, and there continue to devote himself to the industry which he has studied Any scholar who neglects his studies, or tries to work for any other profession concurrently, will render himself liable to forfeiture of his scholarship

6 Every scholar will be required to keep a concise diary, to be submitted at the end of each term to his Local Adviser, and to be forwarded through the Local Adviser at the end of each academic year to the Secretary of State for transmission to India

7 Scholars will be expected to continue their studies during vacations with the exception of three weeks in each year Vacation study should, as far as possible, take form of practical work.

8 Plans for vacation work, accompanied by a complete estimate of any extra expenses for fees or travelling involved, should be sent in to the Local Adviser six weeks before the end of any academic term Scholars are not entitled to any subsistence allowance in addition to the scholarship allowance during time spent on vacation work, but a scholar who receives permission to visit the Continent may, if the Secretary of State for India in Council considers that the circumstances render it desirable be granted a subsistence allowance calculated at such rate as the Secretary of State may decide

9 Subject to a due compliance with the above conditions, the scholar's allowance will be paid quarterly in advance by the India Office to the Local Adviser under whose charge he is It will begin from the date of the scholar's reporting his arrival in England and the Local Adviser will disburse it to the scholar in such instalments as convenience may indicate Three months after the date of reporting arrival, the amount to the ensuing official Quarter Day* will be paid to the Local Adviser, and subsequent payments will be made in advance on or after each official Quarter Day The allowance will, except in special cases, be at the rate of 150*l* a year

*Note —The official Quarter Days are the 1st of January, the 1st of April, the 1st of July and the 1st of October

10 Every scholar is required to lodge with the Educational Adviser for Indian Students at the India Office, London, before his arrival in England the sum of 15*l* for initial expenses He will have no claim to payment of any instalment of his scholarship until this deposit has been made

11 Charges for University and College fees premiums for practical training and the necessary expenses of scholars by second class or by third class, if no second be available, will, if sanctioned, be defrayed by the Secretary of State Applications for payment of all these charges should be made through the Local Adviser But charges for private tuition, unless specially sanctioned for books instruments, hotel bills and medical attendance must be paid by the scholar himself

12 No claim can be admitted for the payment of any expenditure unless the scholar has obtained *previous* sanction from the Secretary of State

13 The scholarship is granted in the first instance for two years, unless the Secretary of State in the exercise of his discretion sees reason to terminate it sooner Every scholar will forfeit his scholarship who not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient fails to comply with the rules here set forth It may be terminated at any time if a scholar fails in health or conduct It may also be extended for a third year or longer if the Secretary of State decides that such an extension is required to complete the scholar's training

14 On the expiration of the scholarship a scholar is provided by the India Office with a free second-class passage to India, and he should apply for it without delay through his Local Adviser He is not entitled to make his own passage arrangements and to claim an allowance in lieu from the India Office If a scholarship be forfeited or if it be resigned before completion of its term or if the holder of it, on completion of its term declines to return to India when instructed to do so the scholar will lose his claim to a free passage back to India

GOVERNMENT OF INDIA

INDIAN MUNITIONS BOARD

Delhi, the 5th January 1918

PRESS COMMUNIQUÉ

At the request of the Ministry of Munitions and in order to decrease the exports of tin plates from the United Kingdom the various Oil Companies operating in India agreed, in January 1917, to endeavour to substitute as far as possible sales of oil in bulk for sales in tins With this end in view and as a temporary war measure, the price of oil in tins was increased in January 1917 by ten annas per 2-tin unit, the price of oil not in tins remaining the same as before The prolongation of the war has rendered necessary further measures in the direction already taken, and in view of the increased cost of the production of tins and the fact that the price of old tins is approaching if it has not already exceeded, the price of new tins, the price of oil in tins will now be advanced by a further increase of eight annas per 2-tin unit The price of oil not in tins will remain the same as before Thus the price of the 2-tin unit (8 gallons) of Victoria oil in tins *ex* Budge-Budge will be Rs 4-10, but the price of Victoria oil not in tins will remain as at present, namely, Rs 2 11 for 8 gallons Steps have already been taken during the course of the past year by the railways in India to facilitate the distribution of oil in bulk and by the Oil Companies to increase sales in bulk Further measures are in progress to increase the facilities available to the public for obtaining oil in their own receptacles at bulk oil rates

GOVERNMENT OF INDIA

INDIAN MUNITIONS BOARD

Calcutta the 10th January 1918

NOTIFICATION

WHEREAS the Governor-General in Council is of the opinion that the following articles can be utilised in connection with the prosecution of the present war, namely—

ROLLED STEEL BEAMS (all beams 12 feet and over in length)

Now therefore, in pursuance of Rule 11A of the Defence of India (Consolidation) Rules, 1915, I, being an officer of Government authorised by the Governor-General in Council in this behalf by an order in writing, hereby require all persons within the districts of the 24-Parganas Calcutta Hooghly and Howrah, who, in the course of business, whether on their own behalf or on behalf of others hold or have control over any such rolled steel beams including beams which have not yet been fixed in buildings under construction, to send to the Controller Bengal Circle, Indian Munitions Board 1, Kyd Street, Calcutta, the following particulars of all such rolled steel beams, namely —

(*a*) the quantity held of each dimension,
(*b*) the place or places at which held
(*c*) the price (if known) at which the owner or person entitled to sell such rolled steel beams is willing to sell the same by agreement

and I further require that every person shall refrain from disposing of the said steel beams from the date of this order until the said particulars have been furnished as prescribed above, and for a further period thereafter not

exceeding 14 days after the expiry of which period the whole or any part of the said steel beams may be disposed of as if this notification had not been issued, unless, before the expiry of such period, a notice of requisition under Rule 11AA of the Defence of India (Consolidation) Rules, 1915, has been issued in respect of the whole or part of the said steel beams by me

Provided also that notwithstanding this order, permits for the disposal of such steel beams will be granted by me upon application when this is in my opinion necessary for the maintenance of an essential industry

J C K PETERSON,
Controller of Munitions, Bengal Circle

GOVERNMENT OF INDIA

INDIAN MUNITIONS BOARD

Calcutta, the 10th January 1918

COMMUNIQUE —By the Controller of Munitions, Bengal Circle

Large demands have been received from the oversea forces for rolled steel beams The Controller of Munitions, Bengal Circle has therefore called for returns of stocks of these held within the districts of the 24-Parganas, Calcutta, Hooghly and Howrah under Rule 11 A of the Defence of India (Consolidation) Rules, 1915, and has also ordered that no beams are to be disposed of until such returns have been made by the persons holding stocks and for 14 days after these have been submitted

Permits for sale or disposal will be granted by the Controller on application to him at his office at No 1, Kyd Street Calcutta, personally or by letter where the beams are required for an essential industry Early submission of returns will enable the Controller to decide such applications without delay

It is not intended unless war demands make this absolutely necessary to hinder work on a building actually under construction, but beams will not be released for new construction unless these sizes and sections are not required by the oversea forces

THE KING'S MOST EXCELLENT MAJESTY

LORD PRESIDENT	MR SECRETARY LONG
LORD STEWARD	SIR FREDERICK PONSONBY

WHEREAS by the Merchant Shipping Act, 1894, it is enacted as follows —

Where the Legislature of any British Possession provides for the survey of, and grant of Certificates for, Passenger Steamers and the Board of Trade report to Her Majesty the Queen that they are satisfied that the Certificates are to the like effect, and are granted after a like survey, and in such manner as to be equally efficient with the Certificates granted for the same purpose in the United Kingdom under this Act, Her Majesty in Council may—

(1) declare that the Certificates granted in the said British Possession shall be of the same force as if granted under this Act and

(2) declare that all or any of the provisions of this Part of this Act which relate to Passenger Steamers' Certificates shall, either without modification or with such modifications as to Her Majesty may seem necessary, apply to the Certificates granted in the said British Possession, and

(3) impose such conditions and make such regulations with respect to the Certificates, and to the use, delivery, and cancellation thereof, as to Her Majesty may seem fit and impose fines not exceeding £50 for the breach of those conditions and regulations

AND WHEREAS by Orders in Council dated respectively the 26th day of June 1884 and the 17th day of October, 1884, Her late Majesty was pleased to direct that, subject to the modifications contained in such Orders Certificates granted by the Governments of Bombay and Bengal respectively should be of the same force as if they had been granted for the same purpose in the United Kingdom under the Acts relating to Merchant Shipping

AND WHEREAS it is made to appear expedient to His Majesty that during the present War the modifications contained in the above-recited Orders in Council, dated respectively the 26th day of June, 1884, and the 17th day of October, 1884, should be suspended

AND WHEREAS the provisions of section 1 of the Rules Publication Act, 1893, have been complied with

NOW, THEREFORE, His Majesty, in virtue of the powers vested in Him by the above-recited provision, and by and with the advice of His Privy Council, is pleased to direct that during the continuance of the present War

1 The Certificates granted by the Governments of Bombay and Bengal respectively for Passenger Steamers shall be of the same force as if they had been granted for the same purpose in the United Kingdom under the provisions of the Acts relating to Merchant Shipping

2 That all the provisions of the said Acts which relate to Certificates granted for Passengers Steamers under those Acts shall apply to the Certificates referred to in this Order without modifications and that during the continuance of the present War the modifications in the above-recited Orders in Council dated the 26th day of June, 1884 and 17th day of October 1884, be and the same are hereby, suspended

Orders by the Governor of Bengal in Council.

MUNICIPAL AND LOCAL.

NOTIFICATIONS

Burdwan

No 74M—The 10th January 1918—The following draft of rules which, in exercise of the power conferred by section 290 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council proposes to make and subject to which the Commissioners of the Burdwan Municipality may allow communication-pipes to be laid down from the service pipes of the Commissioners for the purpose of leading water to premises for domestic purposes only are published for the information of persons likely to be affected thereby

II The draft rules will be taken into consideration on the 15th February 1918, and any objection or suggestion which may be received by the undersigned through the District Magistrate before that date will be duly considered

Draft Rules

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow any owner or occupier of a holding paying a water-rate imposed under the provisions of Part VII of the Bengal Municipal Act 1884, on the annual value of such holding, when such annual value is not less than Rs 100, to lay down communication-pipes from the service-pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions —

1 The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes, or requiring any addition or alteration to an existing water-supply, must apply for the same on a printed form to be supplied, free of cost, at the Municipal Office

2 A fee of Rs 125 must be paid to the Commissioners by such owner or occupier for each connection to a municipal main supply-pipe before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules

3 Each holding must have a separate connection to the municipal main supply-pipe, and extension from the communication-pipe of one holding to another holding shall not be permitted

Provided that no holding shall have more than one separate connection, but if in any case the Commissioners at a meeting are satisfied that an adequate supply to any holding cannot be given through a single connection, they may sanction a second connection thereto

4 The owner or occupier of the holding in respect of which the connection is required must pay the entire cost of the connection, including the supply and fixing of the fittings referred to in rule 7, and must also pay the cost of such alterations in, or repairs to, roads, drains, sewers, gas or water-mains or pipes, and the cost of such other works as may be necessitated by, or result from, the work of making such connection

5 The owner or occupier of the holding to which a connection has been given must, at any time, on receipt of notice to do so from the Commissioners, pay the entire cost of any repairs or alterations to the connection or any part thereof that the Commissioners may consider necessary to put it into a satisfactory condition, or which may be necessitated by any change in the Municipal water-works or system of distribution, or by the defective condition of the connection or any part thereof, or by any other cause whatever

6 (1) The works required under rules 4 and 5 may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the works are required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners

(2) No work shall be carried out under sub rule (1), except under the supervision of a Municipal Officer

7 A holding connection shall comprise the following parts or fittings —

(a) a brass or gun-metal ferrule inserted in the main supply-pipe

(b) a galvanised iron communication-pipe from the ferrule to the meter,

(c) a stop-cock and its surface-box,

(d) a meter,

(e) service-pipes from the stop-cock to the taps, and

(f) taps

8 (1) All the fittings referred to in rule 7 shall be exact duplicates of standard samples kept in the office of the Commissioners, and approved by them in meeting

(2) All fittings shall be inspected and tested and stamped by an officer of the Municipality before being fixed

(3) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard patterns, he must present such fitting for the approval of the Chairman, and any fitting so presented may, if considered satisfactory by the Chairman, be stamped, and samples thereof may be purchased and placed among the standard fittings

9 The holding connection, when fitted in position, must be capable of standing a pressure of 100 feet, and no water shall be supplied until it has stood such a test applied by the Commissioners

10 The size of the ferrule and the diameter of the communication-pipe referred to in clauses (a) and (b) of rule 7 and the number of taps shall be fixed in accordance with the annual valuation of the holdings as follows —

Annual valuation of holding, not exceeding —	Number of taps	Size of ferrule.	Diameter of communication pipe	Size of bib cock
Rs		Inch	Inch	Inch
150	2	1/8	1/2	1/2
450	2	1/4	1/2	1/2
1,500	3	1/4	3/4	1/2
3,000	3	3/8	3/4	1/2
6,000	4	3/8	1	1/2
Above 6,000	4	1/2	1	3/4

11 (1) On every communication pipe a brass or gun-metal stop-cock having the same waterway as such pipe shall be placed as near as practicable to the point where that pipe enters the holding to be supplied

(2) The stop-cock shall be built in a brick chamber provided with a cast-iron surface cover-box so designed that it can be locked, and the key of this box shall remain under the control of the Chairman

(3) The stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby

12 (1) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined

(2) The meter must be fixed in a brick chamber covered over with a cast-iron surface box of approved pattern

13 Neither the stop-cock nor the meter must be placed in any private premises

14 The Commissioners shall depute an authorised person to read every meter not less than once a quarter, and shall give notice to the occupier at least twenty-four hours before the reading is recorded If he fails to attend, the inspection shall be made in his absence

15 (1) Every owner or occupier of any holding in respect of which a connection has been made under these rules shall be entitled to a supply of—

(a) 3,000 gallons of water per quarter for each rupee, and

(b) a further proportionate number of gallons per quarter for every additional fraction of rupee,

paid by him quarterly as water-rate in respect of such holding

(2) For all water in excess of the amount allowed under sub-rule (1), such owner or occupier shall be charged quarterly six annas for each 1,000 gallons or any fraction of it

16 The Commissioners may cut off the connection between any water-works of the municipality and any holding to which water is supplied from such works, or may turn off such supply, in any of the following cases, namely —

(a) if the holding is unoccupied,

(b) if the occupier refuses to admit any officer duly empowered in that behalf into the holding for the purpose of making any examination or inspection authorised under the provisions of Part VII of the Bengal Municipal Act, or under any by-law or rule framed under this Act, or prevents such officer from making such examination or inspection,

(c) if the owner or occupier of the holding touches or interferes with his meter in any way, or wilfully or negligently injures or damages it,

(d) if the owner or occupier of the holding wilfully or negligently permits waste of water in such volume as will, in the opinion of the Chairman, endanger the water-supply in the neighbourhood

(e) if the owner or occupier of the holding shall refuse or neglect to pay any of the fees or charges imposed in accordance with these rules for a space of fourteen days after he has been served with a notice of demand for the same,

(f) if the owner or occupier of the holding constructs or fixes any cisterns, tanks, reservoirs, taps, pipes, pumps or any other works in connection with the water-supply not authorised by these rules,

(g) if the pipes, taps, ball-cocks, cisterns, or any other parts of the connection are, in the opinion of the Commissioners, in a leaking condition or a state of disrepair, after notice to repair such defect has been served

Provided that such disconnection or turning off of water-supply shall not relieve any person from any liabilities which he may have incurred under these rules

In the circumstances contemplated in clause (d) an officer authorised by the Commissioners in this behalf by a general order shall have the power to turn off the supply for a period not exceeding eight hours on his previously recording his reason in writing

17 No tap shall be of larger size than the pipe to which it is attached and shall be of brass and of the pattern known as "Screw-down" Every tap shall be at least 3 feet above the surface of the ground beneath

18 No cistern, tank or reservoir of any description which is intended to be supplied with water from the Municipal water-works shall be permitted to any holding except with the sanction of the Commissioners in meeting, and such sanction shall distinctly specify the dimensions and capacity of the cistern tank or reservoir allowed The inlet to every such cistern tank and reservoir must be controlled by an efficient ball-cock so that the discharge thereinto is completely stopped when the cistern, tank or reservoir is full Any taps fed from such cistern, tank or reservoir must be included in the number of taps allowed under rule 10

19 No connection shall be permitted to any holding unless and until the owner and occupier makes effective provision to the satisfaction of the Commissioners for draining all waste water away

DECLARATION

No 470Com—The 21st January 1918—Whereas certain land was acquired by the Government of Bengal, under the provisions of Act I of 1894 and Act XVIII of 1885 for a public purpose, viz, for the construction of new Sodepur sidings as lie between mile 201 276 and mile 2 2·074 of the Sanctoria Branch of the Bengal-Nagpur Railway, such land being edged with pink on plan L A M A No 3f1, and whereas coal mines are situate under the said land, and whereas the Bengal Coal Company, Limited, have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the seam known as the Disher garh seam, and whereas the mines have been inspected by the officer appointed by the Government of Bengal for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Government of Bengal that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Bengal Coal Company, Limited have agreed not to work and get minerals underlying the land acquired for their siding or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working

Now therefore the Governor in Council is pleased to declare, under section 5, sub-section (2) clause (b) of the abovementioned Act XVIII of 1885 that the working shall be carried on by the said Bengal Coal Company, Limited in the manner and subject to the restrictions below specified viz —

(a) (1) To the rise of No 10 shaft level, galleries, not exceeding 16 feet in width by 12 feet in height may be driven at distances apart of not less than 76 feet, centre to centre, forming pillars not less than 60 feet square to be left unworked for the support of the acquired land

(2) To the dip of No 10 shaft level, galleries, not exceeding 16 feet in width by 12 feet in height, may be driven at distances apart of not less than 86 feet centre to centre, forming pillars not less than 70 feet square to be left unworked for the support of the acquired land

Provided—

(1) that the main shaft levels may be driven, not exceeding 20 feet in width, being supported by a row of vertical double permanent way rails, being of a section not less than 75 lbs to the yard, or cast-iron columns of equal strength, set down the centre of the level at distances apart of not less than 15 feet, centre to centre with lids not less than 4 feet in length made of rails of similar section,

(2) that, at distances apart of not less than 500 feet, centre to centre, main feeder levels may be driven, not exceeding 20 feet in width, being supported in the same way as detailed in proviso (1),

(3) that galleries may be driven, not exceeding 12 feet in height by 12 feet in width, in the approximate direction and position as shown by the double red lines on the plan the barrier A B being left as a solid barrier of coal

(b) Manholes not exceeding 5 feet in height by 3 feet in width by 4 feet in depth may be made where required by any rule made under the Indian Mines Act, 1901

(c) Any inrush of water, quicksand or soft material shall be reported to the Chief Inspector of Mines without delay

(d) These restrictions apply to the Dishergarh seam only and to the areas edged with pink, and the Bengal Coal Company,

Limited, shall give notice under section 4 of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under such area or to work coal under any other area of acquired land, and that in all the above cases except to comply with the above conditions no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plan marked L A M A No 311, signed by the Chief Inspector of Mines

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned

No 694-D—The following Royal Proclamation is published for general information —

BY THE KING

A PROCLAMATION

RELATING TO TRADING WITH CERTAIN PERSONS OF ENEMY NATIONALITY INTERNED IN NEUTRAL COUNTRIES

GEORGE R I

WHEREAS it is expedient that transactions between British subjects and persons of enemy nationality who have been removed from Our Dominions and are interned in neutral countries should be restricted in manner hereinafter provided

NOW, THEREFORE, We by and with the advice of our Privy Council think fit to declare, and it is hereby declared as follows —

1 The Proclamations for the time being in force relating to Trading with the Enemy shall, as from the date of this Proclamation apply to any persons of enemy nationality who have been removed from any part of Our Dominions for the purpose of being interned in and are interned in any neutral country, in the same manner as they apply to persons resident or carrying on business in an enemy country

2 Nothing in this Proclamation shall be taken to prohibit anything which may be specially permitted by Our licence or by a licence given on Our behalf by the Lords Commissioners of Our Treasury or the Board of Trade

3 This Proclamation may be cited as the Trading with the Enemy (Enemy subjects interned in Neutral Countries) Proclamation, 1917

Rules

1 Every manufacturer wishing to be admitted to the concession shall make an application through the Collector of Customs to the Government of Bengal stating the process of manufacture in which he intends to use the salt If he wishes the concession to extend to more than one factory or works, a separate application is required for each such factory or works

2 If the application is sanctioned, the manufacturer shall forthwith execute and lodge with the Collector of Customs a memorandum in the Form appended to these rules He shall also pay to the Collector of Customs a fee of Rs 100 a year to cover the cost of requisite inspections and other departmental expenses involved

Provided that if a manufacturer is admitted to a concession both in regard to imported salt and also in regard to manufactured salt, not more than a single fee shall be charged for each factory or works

3 (1) The manufacturer shall in the first instance provide himself with salt for use in the process mentioned in his application to Government under rule 1 by purchase in the market, and shall at the close of each quarter submit to the Collector of Customs an application for a refund of duty on the salt used in the said process during the quarter

(2) The application shall contain the following particulars —

(i) the balance of salt in store at the beginning of the quarter,
(ii) the quantity of salt purchased during the quarter,
(iii) the quantity of salt used during the quarter and on which a refund of duty is applied for,
(iv) the balance of salt in store at the close of the quarter, and
(v) the quantity weight and such other details as may be required of products manufactured during the quarter

(3) The application shall also contain a declaration that the salt on which a refund of duty is applied for has been used *bonâ fide* in the process of manufacture and has not been used for any other purpose

4 (1) The manufacturer shall provide and set apart for the storage of salt purchased for use in the process of manufacture, a store-room securely constructed and with a strong door capable of being locked to the satisfaction of the Collector of Customs

(2) Separate storage must be provided for salt manufactured in British India and for imported salt

5 (1) The store-room shall not be opened except during day light and by or in the presence of the store keeper at the factory, and then only—

(a) for the receipt of salt into store
(b) for the preparation by grinding and for the issue of salt required for purposes connected with the said process of manufacture, and
(c) for check by weighment or otherwise of the stock of salt by the officer deputed on behalf of Government for the purpose

(2) The storekeeper who shall be approved by the Collector of Customs shall retain the key of the store-room in his own possession

6 All spent lye or other useless refuse containing salt shall be effectually destroyed on or near the factory or works in such manner as the Collector of Customs may direct

7 The factory or works may be entered upon and examined at any time by any officer authorized by the Collector of Customs, and due facilities for the same and for the inspection of the manufacturer's salt register as well as for checking the stock of salt received, expended and in hand, shall be afforded by the manufacturer and all other persons employed by him

8 (1) The register referred to in rule 7 shall be written up daily and signed by the manufacturer or his manager, and shall be in the Form hereto annexed

(2) Separate registers shall be maintained for salt manufactured in British India and for imported salt

9 The manufacturer shall furnish the Collector of Customs with a monthly statement to be posted by the 10th of each following month, showing the opening balance of salt at the beginning of the month, the quantity purchased during the month, the quantity expended during the month, the balance at the close of the month and the quantity of products manufactured during the month The manufacturer's books showing the products manufactured shall be open for inspection at any time to the Collector of Customs or to any officer deputed by him

10 On any breach of these rules by the manufacturer, or if it shall appear to the Collector of Customs that the concession is being in any manner abused, the Government may forthwith cancel the concession, and the manufacturer shall on demand refund all duty the remission of which shall have been wrongfully claimed and sanctioned

No 458P J—The 1st February 1918—In exercise of the power conferred by sub-section (*1*) of section 3 of the Defence of India (Criminal Law Amendment) Act, 1915 (IV of 1915), the Governor in Council directs that all persons accused of any offence punishable under section 395 and section 412 of the Indian Penal Code (Act XLV of 1860), committed in the districts of Jessore and Khulna between the 19th December 1917 and the 9th January 1918, or of criminal conspiracy to commit, or of abetting, or of attempting to commit or abet any such offence the trial of whom in respect thereof has not commenced before the Court of Sessions prior to the date of this notification, shall be tried by Commissioners appointed under the said Act IV of 1915

No 459P J—The 1st February 1918—In exercise of the powers conferred by sub-sections (*1*) and (*2*) of section 4 of the Defence of India (Criminal Law Amendment) Act, 1915 (IV of 1915), the Governor in Council is pleased to appoint the following persons to be Commissioners for the trial under the said Act of all persons who are charged with offences specified in this Government Notification No. 458P J, dated the 1st February 1918 namely —

1 Mr P E Cammiade, I C S, District and Sessions Judge Jessore
2 Khan Bahadur Maulvi Abdus Salam, retired Presidency Magistrate
3 Rai Amrita Lal Raha Bahadur, Pleader, Khulna

2 The Governor in Council is also pleased, in exercise of the power conferred by rule 2(*a*) of the rules made under section 10 of the same Act (published under Notification No 1198P D, dated the 2nd June 1915, as amended by Notification No 10873P, dated 11th September 1915) to nominate the said Mr P E Cammiade, I C S., to be the President of the bench of Commissioners hereby appointed

No 502P J—The 4th February 1918—Whereas the Governor in Council has reason to believe that the members of a gang ordinarily residing in villages Kukurjan, Sukhani, Brahmatal, Binnaguri, Dhontala in police-station Rajganj, Nawapara, Dalua and Latibgach in police-station Tetuliya, and Satmera in police-station Pachagar, in the district of Jalpaiguri, and Bairatisal and Begunbari in police station Siliguri, in the district of Darjeeling, and commonly known as Satanon Das's gang, are addicted to the systematic commission of nonbailable offences

Jalpaiguri Darjeeling

Now therefore, the Governor in Council, in exercise of the power conferred by section 3 of the Criminal Tribes Act, 1911 (III of 1911), hereby declares the said gang to be a criminal tribe for the purposes of that Act

No 503P J—The 4th February 1918—In exercise of the power conferred by section 10 of the Criminal Tribes Act, 1911 (III of 1911), the Governor in Council hereby directs that every registered member of Satanon Das's gang, which has been declared by Notification No 502P J, dated the 4th February 1918 to be a criminal tribe, shall, in the prescribed manner, report himself at fixed intervals, and notify his place of residence and any change or intended change of residence and any absence or intended absence from his residence

NOTIFICATIONS

Delhi, the 30th January 1918

No 1165-D—In pursuance of section 2 of the Defence of India (Criminal Law Amendment) Act 1915, the Governor-General in Council is pleased to direct that the following amendment shall be made in the Defence of India (Consolidation) Rules 1915, as subsequently amended, namely —

After Rule 11-H of the said Rules the following rule shall be inserted, namely —

Maintenance of supply of commodities of general use for the purpose of securing the public safety

11-J Where in the opinion of the Governor General in Council it is necessary for the purpose of securing the public safety to control the supply of any commodity of general use, he may by notification in the *Gazette of India* make a declaration to that effect, which may extend either to the whole of British India or to such part thereof as may be specified in the notification

(*2*) In any area in which a declaration under sub-rule (*1*) is in force, the Governor-General in Council or the Local Government may exercise all or any of the following powers in regard to the commodity to which the declaration relates namely—may

(*a*) by general or special order in writing require any trader to make a return in such form and within such time and to such authority as may be specified in the order, as to the stocks of such commodity held by him or consigned to him or under order on his account, as to any contracts for the supply to or by him of such commodity or for or in connection with the production or manufacture of such commodity, and as to any other dealing

by him therein, and as to the persons with whom and the prices at which any such contracts or other dealings were made or had, or at which such commodity had been bought or sold by him, as to the cost of production of such commodity, so far as the same may be known to him, and the profits usually made or expected by him on the sale thereof, and as to any other matters specified in the order with respect to which in the opinion of the authority making the order it is desirable to obtain information for the purpose of controlling the price of such commodity,

(*b*) by notification in the *Gazette of India* or the Local Official Gazette as the case may be prescribe the conditions under which (including the maximum price at which) such commodity may be sold, and such conditions may be general for the whole area or may vary as regards different localities therein, and different conditions may be prescribed for different classes of such commodity, and

(*c*) where a price for sale has been fixed in accordance with the provisions of clause (*b*), by order in writing require a trader to place the whole or any portion of his stock, whether immediately available or not, at the disposal of the Governor-General in Council at such time and place and in such manner as may be specified in the order on receiving payment therefor at the price or prices so fixed

(*3*) Any authority having power to make an order under sub-rule (*2*) (*a*) may, for the purpose of testing the accuracy of any return made in accordance therewith or for obtaining information in a case where an order under that sub rule has not in the opinion of such authority, been sufficiently complied with, empower by general or special order any person to enter and search any place, in which such person has reason to believe that any commodity in respect of which an order has been made under sub-rule (*2*) (*a*) is kept or stored and to take such measures as such person thinks necessary for testing the accuracy of the return or for obtaining such information

(*4*) If any person except as authorised by the authority under whose orders the information was obtained discloses or makes use of any information obtained in accordance with the provisions of this rule, he shall be deemed to have contravened these rules

(*5*) If any person disobeys or neglects to comply with any order made in exercise of the power conferred by sub-rule (*2*) or any condition of sale prescribed under that rule other than a condition as to maximum price he shall be deemed to have contravened the rules, and the authority making the order may take such action as he thinks necessary to give effect to the same

(*6*) If by a notification published in pursuance of sub-rule (*2*) a maximum price has been fixed for any commodity and any person sells such commodity at a price in excess thereof, such person shall be punishable with imprisonment for a term which may extend to six months or with fine which may extend to Rs 1,000, or to three times the price received by him for the commodity so sold, whichever is most, and if such person is a company, every director and officer thereof shall be liable in like manner as if he had sold the commodity himself unless he proves that the contravention of the order took place without his knowledge or consent

(*7*) The Governor-General in Council may by order in writing authorise any officer of Government to exercise the powers referred to in sub-rule (*2*), clauses (*a*) and (*c*)

(*8*) In this rule the expression "trader" includes a manufacturer, producer, warehouse keeper or vendor, and in the case of a vendor whether wholesale or retail, and whether acting on his own behalf or on behalf of any other person, and if not acting on his own behalf the person on whose behalf he is acting

No 1167 D—In pursuance of Rule 11-J of the Defence of India (Consolidation) Rules, 1915, as subsequently amended, the Governor-General in Council is pleased to declare that it is necessary for the purpose of securing the public safety to control the supply of salt throughout the whole of British India

No 1272-D—In pursuance of section 2 of the Defence of India (Criminal Law Amendment) Act 1915, the Governor-General in Council is pleased to direct that the following amendment shall be made in the Defence of India (Consolidation) Rules, 1915, as subsequently amended, namely —

After Rule 11-J of the said Rules the following rule shall be inserted namely —

11-K (*1*) Where in the opinion of the Governor-General in Council it is necessary for the purpose of securing the public safety, to control and regulate the housing of artisans and labourers and their families in any area which is a defended harbour, he may by notification in the *Gazette of India* make a declaration to that effect which may extend to the whole of such area or to such part thereof as may be specified in the notification

(*2*) In any area in which a declaration under sub-rule (*1*) is in force the Local Government, or any officer of Government authorised by it in this behalf may require the owner or person in charge of any house which in its opinion is or has been rented for housing artisans or labourers, to furnish particulars in such form within such time and to such authority as may be specified in the order, as to the rent at, and the manner in which such house was let during the year 1914 or any subsequent year, and as to any other matters specified in the order with respect to which in the opinion of the authority making the order it is desirable to obtain information for the purpose of determining the rent which should be charged for the accommodation of artisans or labourers therein, and further may for the same purpose require any such person to produce such accounts rent-receipts, books or other documents at such time and to such authority as may be specified in the order and to submit the same to the examination of such authority

(*3*) In any area in which a declaration under sub-rule (*1*) is in force, the Local Government may by order in writing fix maximum rates for the rents to be charged to artisans or labourers or their families of houses or classes of houses which in the opinion of the Local Government were in the year 1914 let, or, if unlet in that year, were of a class which would have been let, at rents not exceeding rupees 10 per mensem or any equivalent thereof

(*4*) If any person disobeys or neglects to comply with any order made in exercise of the power conferred by sub-rule (*2*), he shall be deemed to have contravened these rules and the authority making the order may take such action as it thinks necessary to give effect to the same

(*5*) Where under the provisions of sub-rule (*3*) a maximum rate of rent has been fixed which is applicable to any house, any person who receives rent therefor, whether directly or indirectly, in excess of such rate shall be punishable with imprisonment which may extend to six months or with fine which may extend to Rs 1,000 or with both, and a person shall be deemed to have received rent in excess of the rate fixed if he receives any consideration other than money which represents a money value in excess of such rate

(6) In this rule the expression 'house' includes any part of a house let or sub-let as a place of residence, and the expression 'owner' includes any person who lets or sub-lets a house

No 1274-D—In pursuance of Rule 11-K (1) of the Defence of India (Consolidation) Rules, 1915, as subsequently amended, the Governor-General in Council is pleased to declare that it is necessary, for the purpose of securing the public safety, to control and regulate the housing of artisans and labourers and their families within the defended harbour of Bombay as defined in the Notification of the Government of India, Army Department, No 163, dated the 11th February 1916

NOTICE UNDER SECTION 63 (2) OF BENGAL ACT V OF 1911

PLAN OF PROPOSED PUBLIC STREET No XXXII

Baitakkhana Road Diversion

NOTICE is hereby given under section 63 (2) of Bengal Act V of 1911 as amended by Bengal Act III of 1915, that with regard to the revised plan of Section C Alignment No V (Amherst Street to Circular Road), in Ward No IX adopted by the Board of Trustees for the Improvement of Calcutta and notified in the *Calcutta Gazette* of 14th March 1917, shewing a semi-circular road opposite Sealdah Station, it has now been considered advisable to alter this part of the plan in order to give more direct approach to the entrances to Sealdah Station and also to provide more satisfactory sites for the reinstatement of the existing markets which will be disturbed by the construction of the road

This portion of the alignment is, for convenience, re-numbered XXXII

The alteration of this part of the plan will affect the following Municipal holdings —

Name of street	Number of municipal holdings
Scott Lane	20
Baitakkhana Road	17 164-2 164-3, 165 and 165-1
Baitakkhana 1st Lane	1
Bow Bazar Street	153, 153-1 153-2 153-4, 154 and 155

The plan of the Proposed Public Street and the particulars of the land through which the Proposed Public Street will pass may be inspected at the Offices of the Trust, 5, Clive Street, on week days between the hours of 11 A M and 4 P M Saturdays 11 A M and 2 P M

Copies of this notice may be obtained on payment of a fee of two annas per copy and of the plan at eight annas per sheet

Objections to the said plan may be submitted on or before the 15th April 1918

RULES FOR THE PREPARATION, SUBMISSION AND EXECUTION OF PROJECTS FOR WATER SUPPLY SEWERAGE OR DRAINAGE BY LOCAL AUTHORITIES

1 In these rules ' local authority" means a District or Local Board, constituted under the provisions of the Bengal Local Self-Government Act 1885

Definition

Schemes and Projects

2 (*1*) Whenever a local authority desires to undertake a project for water-supply, or sewerage, or a comprehensive scheme of surface drainage, or the improvement or extension of existing works of any such description, at an estimated cost of more than Rs 5,000, or of Rs 5,000 or less, if the scheme is part of a larger scheme or one for which financial assistance from Government is required, it shall first cause to be drawn up a sketch of the project roughly shewing its scope and approximate cost

Preparation of sketch of project

(*2*) Such sketch may be drawn up—

(*a*) by the Sanitary Engineer at the request of the local authority, or

(*b*) by the District Engineer, or

(*c*) by any other engineer in the employ of the local authority or specially appointed for the purpose, subject in either case to the selection of such officer being approved of by the Sanitary Engineer, or

(*d*) by any private firm of established reputation approved of by the Sanitary Engineer

(*3*) The Sanitary Engineer shall, in all cases, act as adviser of the local authority

3 (*1*) When the sketch of the project has been drawn up under rule 2 and it is estimated to cost Rs 10,000 or more, or, in the case of an estimate of less than Rs 10,000, if the financial assistance of Government is desired, the local authority shall submit it to the Sanitary Board through the Commissioner of the Division, together with a statement wherein shall be shewn the amount of the funds available to meet the capital and recurring cost of the project either from current revenue or by way of loan or from any other source

Submission of sketch statement and application

(*2*) The Sanitary Board after considering the project shall forward it to Municipal Department of Government for administrative approval with such recommendations as they may think fit

(*3*) In the case of a scheme, the total estimated cost of which is less than Rs 10,000 but more than Rs 5,000, not being part of a larger scheme or one for which financial assistance from Government is required, the administrative approval of Government shall not be necessary, but the Sanitary Engineer must be consulted, and the scheme, with a copy of the Sanitary Engineer's opinion on it, must be submitted to the Commissioner of the Division for approval

4 In order to obtain administrative approval of Government to any project the local authority shall show—

Conditions precedent to obtaining administrative approval of Government to a project

(1) that the cost of maintenance of the projected work can be met by the local authority from revenue,

(2) that any loan required to meet the cost of the work can be repaid together with the interest thereon, within the period that may be prescribed by the Government, and

(3) that the work can be done effectually in the manner and for the cost proposed

Procedure after grant of administrative approval Preparation of detailed plans and estimates

5 (1) When the administrative approval of Government or the Commissioner of the Division, as the case may be has been obtained to any project the local authority may arrange for the preparation of detailed plans and estimates, and for this purpose may—

(a) apply for the services of the Sanitary Engineer, or

(b) with the previous sanction of the Sanitary Engineer entrust the work—

(i) to the District Engineer, or

(ii) to any other Engineer in the employ of the local authority or

(iii) to an Engineer specially appointed for the purpose, or

(iv) to a private firm of established reputation

Provided that in the cases mentioned in clause (b) (ii) and (iii) the selection of the Engineer shall be approved of by the Sanitary Engineer who shall first satisfy himself that the said Engineer is fully qualified for the work in question

(2) When any plans and estimates are prepared by any person or firm mentioned in clause (b) of sub-rule (1), they shall, while in course of preparation be subject to the examination and control of the Sanitary Engineer

(3) With previous sanction of Government or the Commissioner as the case may be the local authority may arrange for the preparation of detailed plans and estimates before the administrative approval referred to in sub rule (1) has been obtained and the provisions of sub-rule (1) and sub-rule (2) shall apply to such cases

Submission of detailed plans and estimates for final sanction

6 (1) The detailed plans and estimates shall, on completion, be forwarded in duplicate for final sanction to the Municipal Department of Government through the Commissioner of the Division and the Sanitary Board, or to the Commissioner of the Division, as the case may be In the former case a full report shall be submitted on the financial aspects of the scheme and the state of public feeling in regard to it, with an application for loan in the form prescribed in Government Circular No 14 L S-G, dated the 25th June 1914, if a loan is required

(2) In the case of drainage schemes the estimates must be submitted in forms to be obtained from the office of the Sanitary Engineer

(3) When the scheme has not been prepared in the Sanitary Engineer's office, it shall be accompanied by full details of the calculations of the sizes and strength of the various works and complete information as to the prices on which the estimates have been framed

Commencement of work

7 No work shall be commenced on the project nor shall any agreement be entered into until the detailed plans and estimates have received the final sanction of Government or of the Commissioner of the Division, as the case may be

Sanction to heavy excesses over detailed estimates

8 If, at any time during the progress of the work, the local authority has reason to anticipate that the sanctioned detailed estimate will be exceeded by more than 10 per cent, or if it shall at any time appear that the sanctioned detailed scheme will require material alteration, the local authority must forthwith

submit to Government or the Commissioner of the Division, as the case may be, for approval a revised scheme with revised estimates and plans

The revised estimates and plans must be prepared—

(a) in the case of schemes prepared and carried out by the District Engineer or any other Engineer in the employ of the local authority under rules 5, sub rule (1), clause (b), (i) and (ii) and rule 10, sub-rule (2), clause (a),—by the District or other Engineer entrusted with the work and scrutinised by the Sanitary Engineer,

(b) in the case of schemes prepared and carried out by an Engineer specially appointed for the purpose or by a firm of Engineers of established reputation under rules 5, sub-rule (1), clause (b), (iii) and (iv), and rule 10, sub-rule (2), clause (b),—by the Engineer so appointed or the firm of Engineers and scrutinised by the Sanitary Engineer,

(c) in all other cases—by the Sanitary Engineer

Taking over of complete supervision and control by Sanitary Engineer

9 (1) When requested by the local authority concerned, the Sanitary Engineer shall, if he considers that he can so arrange without detriment to the public service, take over the complete supervision and control of the work of carrying out any such project on the local authority undertaking to pay the percentages prescribed in rule 28 Such works are to be considered as contribution works and are to be carried out by the Sanitary Engineer's Department under the rules regarding such works in paragraphs 861 to 865 of the Public Works Code, except that the provision made for establishment, etc, may be the percentages prescribed in sub-rule (1) of rule 28 of these rules, or such percentages as the Local Government may from time to time prescribe, and need not be the established percentages laid down for the Bengal Presidency

(2) In addition to the above percentages, the local authority shall bear all law charges on behalf of Government in any suit brought by contractors or others in connection with the execution of any project entrusted to the Sanitary Engineer, in which Government or its officers may be joined as parties with the local authority or its representatives

Provided that no charge will be paid by the local authority under this sub-rule, if, in the opinion of the Government, the suit is due to the malfeasance or negligence of the Sanitary Engineer or an officer subordinate to him

Conditions as to detailed engineering supervision

10 (1) Where the cost of the projected work is estimated to amount to Rs 10,000 or more, adequate provision for detailed engineering supervision shall be a condition precedent to the grant of final sanction by the Government

(2) In the absence of special sanction to the contrary, one of the following arrangements shall be made —

(a) that, with the previous approval of the Sanitary Engineer, the work be carried out under the supervision of the District Engineer or any other Engineer in the employ of the local authority,

(b) that the work be carried out under the supervision of an Engineer specially employed for the purpose, assisted by an adequate establishment of properly qualified overseers, the name and qualifications of the Engineer having been previously submitted to the Sanitary Engineer and approved by him, or

(c) that the work be carried out under the complete supervision or control of the Sanitary Engineer under the arrangement provided for in rule 9

(3) In the cases of conditions mentioned in clauses (a) and (b), of sub-rule (2), work while in progress shall be subject to the inspection and control of the Sanitary Engineer

Report by local authority to the Commissioner in case of small work

11 Where the estimated cost of works amounts to less than Rs 10,000, but more than Rs. 5,000, the local authority shall report, for the information of the Commissioner of the Division, the agency by which it is proposed to have such works carried out, and shall follow the instructions issued by him in the matter

Tenders and Contracts

12 In the case of any work to be carried out in accordance with condition mentioned in clause (*a*) or clause (*b*) of sub-rule (2, of rule 10, procedure prescribed by rules (rules 13 to 24) shall be followed

Preparation of drawings specifications forms of tender etc

13 When requested by the local authority the Sanitary Engineer shall prepare working or contract drawings, specifications, estimates, bills of quantities, forms of tender, or other documents or plans required for the execution of sanitary engineering works which have been duly sanctioned and which are to be let out by contract as well as forms of advertisement inviting tenders for such works

Approval of Sanitary Engineer to drawings specifications forms of tender, etc

14 When drawings, specifications, bills of quantities, forms of tender, and other documents referred to in rule 13 are not prepared by the Sanitary Engineer, such drawings, specifications, etc, shall be submitted to the Sanitary Engineer for his approval in writing before tenders for the contract of such work are advertised for in the public press

Advertisements inviting tenders

15 Every advertisement for tenders shall briefly describe the works required to be carried out, the place or places where plans and drawings can be seen, and copies of the specifications and forms of tender obtained, the deposit to be paid by any person making a tender, and the date and hour up to which tenders shall be received by the Chairman or the Vice-Chairman of the local authority

Approval of plans drawings specifications forms of tender etc by the local authority

16 The plans drawings specifications, bills of quantities forms of tender and advertisements shall be formally approved by the local authority Whenever the said authority desires to make any alteration in any one of such documents, the Sanitary Engineer shall be informed and his advice obtained with regard to such alteration

Submission and receipt of tenders

17 All tenders shall be submitted in sealed covers addressed to the Chairman or the Vice-Chairman of the local authority, and such officer shall attend in person at the office of that authority or at any other place to which it may be directed that tenders shall be forwarded at the latest hour specified in the advertisement for the receipt thereof. Any tender received after such hour shall be out of order and shall not be accepted

Opening and numbering of tenders

18 The Chairman or the Vice-Chairman of the local authority shall himself open the tenders, shall number each tender, and shall note thereon the exact time at which it was opened

Check and scrutiny of tender

19 After the tenders have been opened, they shall be sent for check and scrutiny to the Sanitary Engineer, or, in cases where the District Engineer or any other Engineer in the employ of the local authority is entrusted with the work to the District Engineer who shall in case of difficulty or uncertainty, consult the Sanitary Engineer

Return of tenders after check and scrutiny

20 The Sanitary Engineer, or the District Engineer in charge, as the case may be, shall, after checking and scrutinising the tenders, return them to the local authority with his remarks and recommendations

Consideration of tenders

21 The local authority shall thereafter consider the tenders and either accept one of them provisionally or, if necessary or desirable, refer the question to the Sanitary Engineer for further advice

Acceptance of tender

22 No tender shall be accepted which is not in order, is not fully priced out and is not in every way in accordance with the instructions contained in the advertisement inviting such tenders Any alteration or reduction in a tender made by the person making the tender after the same has once been submitted shall (except in the case of a palpable arithmetical error) at once render the tender out of order

Discharge of tenders and advertisement for fresh tenders

23 If it is found that none of the tenders submitted is satisfactory, or if for any reason it is believed that the conditions of tendering have not been properly understood, so that fair tenders have not been received, all such tenders shall be discharged and fresh tenders shall be advertised for

Provisional acceptance and submission of a tender to the Sanitary Engineer

24 After a tender has been provisionally accepted, it shall be submitted to the Sanitary Engineer for final approval, together with all other tenders received for the work, and until such approval has been received no tender shall be finally accepted by the local authority

Provided that, in case of difference of opinion between the local authority and the Sanitary Engineer in regard to the acceptance of a particular tender, the matter shall, if the local authority so desires, be referred to the Chief Engineer, Roads and Buildings, whose decision shall be final and binding on all parties

25 Cases of works carried out under the complete supervision or control of the Sanitary Engineer in accordance with the condition mentioned in clause (c) of sub-rule (2) of rule 10 shall be governed by the rules contained in Chapter VIII of the Public Works Department Code For the purposes of the said rules the Sanitary Engineer shall have the powers of a Superintending Engineer

Fees

Fees

26 The fees mentioned in column 2 of the following table shall be leviable from a local authority for the services of the Sanitary Engineer for the work specified opposite thereto in column 1 of that table —

REVENUE DEPARTMENT

APPORTIONMENT ORDER

No 1571L R—The 13th February 1918—Under section 114 of the Bengal Tenancy Act, 1885 (Act VIII of 1885), the Governor in Council has determined that in the district of Tippera where the preparation of a

record-of-rights has been undertaken under Notification No 2639T R, dated the 11th October 1913, the landlords' and tenants shares of the cost of the Survey and the preparation of a record-of-rights including the estimated cost of maintaining boundary marks for a period of fifteen years, should be apportioned and recovered as specified below —

(1) A rate of annas thirteen and pies six shall be levied per acre of which the raiyats, including persons of the degree of raiyat possessing rent-free holdings and persons holding non-agricultural tenancies shall pay annas five and pies six per acre, and their landlords of all grades together annas eight per acre

(2) Landlords shall pay the raiyats' share for lands in their khas possession, and raiyats shall pay the full raiyati share for the area recorded as covered by their holdings

(3) As between the different grades of landlords, the landlords' share shall be apportioned thus —

(a) Permanent tenureholders and temporary tenureholders whose leases have over fifteen years to run, shall pay three-fourths of the landlords' share,

(b) Temporary tenureholders, whose lease has fifteen years to run shall pay 15-16ths of the share they would pay in accordance with (a) above, if they were permanent tenureholders, and so on, proportionately according to the number of years of the lease to run

(c) Temporary tenureholders, who do not hold on a lease or for a fixed term shall pay half of the landlords' share

Explanation —The calculation shall be made from the lowest grade of landlords immediately above the raiyat The period for which the lease of the tenure or the under-tenure is to run is to be reckoned in each case from the close of the agricultural year 1325

(4) Rent-free tenureholders shall pay the whole of the landlords' share for their lands

(5) Under-raiyats shall pay at the rate of four annas a tenancy or part of a tenancy included in one village

(6) Except for under raiyats, the following minimum charges shall be adopted —

(a) The minimum charge for any tenancy or the part of a tenancy recorded in one village shall be the charge for one acre according to the above rules

(b) Broken parts of an acre shall, in calculating the demand against an individual tenancy according to the above rules, be taken as an acre

Exemption —In areas under settlement of land revenue no recoveries will be made

C P WALSH,
Secy to the Govt of Bengal

NOTICE IN REGARD TO APPOINTMENTS IN 1918

It is the present intention of the Secretary of State for India in Council not to appoint any Europeans as Assistant Engineers in the Indian Public Works and State Railway Departments in 1918 Applications for appointment will, however, be accepted from Natives of India who are qualified under Regulation 5, and should be submitted not earlier than 1st February 1918 and not later than 31st March 1918 Candidates must have attained the age of 21 and not attained the age of 24 years on 1st July 1918, save as provided in Regulation 3.

INDIAN PUBLIC WORKS DEPARTMENT AND INDIAN STATE RAILWAYS.

Regulations as to appointment of Assistant Engineers

[The Secretary of State is unable to give any undertaking that the Regulations will remain unaltered in the future]

1 Until further notice the Secretary of State for India in Council will, during each year, make a number of appointments of Assistant Engineers in the Public Works and State Railway Departments of the Government of India

In making these appointments he will act with the advice of a Selection Committee including at least one eminent representative of the Engineering profession

2 Applications for the appointments must be made on a printed form to be obtained from the Secretary, Public Works Department, India Office Whitehall London S W, and to be returned so as to reach him not earlier than 1st February,* and not later than **31st March** in the year in which the applicant is a candidate

3 A candidate must have attained the age of 21 and not attained the age of 24 years on the 1st day of July of the year in which he offers himself for appointment, except that a candidate not over 27 years of age on that date will be allowed to deduct from his actual age any period passed by him since 4th August 1914 in the Navy or Army or in any other employment with the Secretary of State may decide to recognise in the case of any candidate as equivalent to Naval or Military employment for the purpose of this Regulation provided that a certificate or certificates will be required establishing in the opinion of the Secretary of State the period and satisfactory character of the candidate's Naval, Military or other employment

[*N B*—Natives of India must obtain a certificate of age and nationality *in the form explained in Appendix II* As the production of this certificate is a necessary condition of appointment intending candidates are advised to procure it without delay The certificate should be forwarded to the India Office together with the candidate's form of application or at the earliest subsequent opportunity]

4 Every candidate, except as provided in Regulation 5, must be a natural born subject of His Majesty of European descent, and at the time of his birth his father must have been a British subject, either natural-born or naturalised in the United Kingdom The decision of the Secretary of State

* Applications from candidates not resident in the United Kingdom may be submitted before this date and since the India Office cannot undertake to correspond with candidates except by letter, such applications should be submitted as early as possible

in Council whether a candidate satisfies this condition shall be final A candidate must also be of good moral character and sound bodily health and, in the opinion of the Secretary of State for India in Council, in all respects suitable to hold an appointment in the Indian Public Works Department or State Railway Department

5 Natives of India who, save as hereinafter provided, are British subjects, and are not qualified under Regulation 4, are eligible for appointment, and shall be selected to the extent of 10 per cent of the total number of Assistant Engineers thus recruited, if otherwise duly qualified

Provided that a ruler or subject of any State in India in respect of whom the Governor-General in Council has made a declaration under Section 96A of the Government of India Act, 1915, as amended by Section 3 of the Government of India (Amendment) Act, 1916, will be considered eligible

6 Candidates must produce evidence that they have either (1) obtained one of the University degrees mentioned in Appendix I ; or (2) passed the A M I C E examination, or (3) obtained such other diploma or distinction in Engineering as the Secretary of State may decide to accept in any particular case

7 It is preferred that candidates should have taken a college course and obtained one of the degrees mentioned in Appendix I It is advisable that in addition they should have had at least one full year's practical experience of Civil Engineering under a qualified civil engineer at the time when they appear before the Selection Committee Those whose qualifying diploma has been obtained without a college course should have had a full three years of such practical experience In the event of any candidate being selected who has not, in the opinion of the Selection Committee had sufficient practical experience he may be required to undergo after arrival in India, such period of probation in charge of works as may be decided upon, and his final appointment will be made dependent upon the result of such probation

8 Candidates must be prepared, if called upon, to attend at the India Office, at their own expense, for a personal interview with the Selection Committee, which usually meets at the end of April or early in May in each year

9 They will further be required, before final appointment by the Secretary of State in Council, to appear at their own expense, before the Medical Board at the India Office for examination as to their physical fitness for service in India

The Regulations governing the physical examination of candidates for the Public Works and State Railway Departments of the Government of India are given in Appendix V

*10 Selected candidates will also be required to satisfy the Secretary of State of their ability to ride

11 They will on appointment be provided with a free first class passage to India and they will be expected to proceed thither about the end of September in the year in which they are appointed

Their pay will begin from the date of their landing in India, and, if they so desire, they will be able to obtain an advance of two months' pay, recoverable by monthly instalments of one-third of salary Of this advance a portion not exceeding one-half may be drawn in England

12 They will enter the Service as Assistant Engineers on a salary of Rs 4,560 a year (equal, at 1*s* 4*d* the rupee, to 304*l* a year)

---

* Selected candidates will be examined by the Civil Service Commissioners as to their ability to ride and will be required to obtain either—

(*a*) a certificate from the Civil Service Commissioners that they are sufficiently at home in the saddle for the efficient performance of the duties of the Indian Public Works and State Railway Departments

or (*b*) a certificate from the Civil Service Commissioners of minimum proficiency in riding

In the latter case they will be subjected, on their arrival in India, to such further tests in riding as may be prescribed by their Government

Candidates are warned that the certificate of minimum proficiency in riding, without which they will not be allowed to proceed to India, is only granted to those who can qualify in a series of tests which includes jumping.

The chief tests will be saddling and bridling ; mounting, and dismounting , trotting and cantering riding at a trot without stirrups , riding at a trot with stirrups but without reins, jumping a hedge hurdle about 3 feet in height

Although the examination will, in the main be confined to these points, the examiner will not be debarred from applying any other tests which may appear desirable.

13. The instruments required by Assistant Engineers are supplied to them in India

14 Particulars as to pay, pension, etc, are contained in Appendices III and IV

India Office,
November 1917

[*N B* —This Appendix is compiled from the regulations for the time being and is subject to alterations from time to time The full leave and pension rules are contained in the Civil Service Regulations published by the Government of India]

1 The following is a summary of the principal pension rules applicable to Engineers appointed to the Imperial Service by the Secretary of State from the United Kingdom

An officer is eligible for a pension on voluntary retirement after completing 20 years qualifying service or attaining the age of 55 years If at an earlier date he is compelled to retire from the service through ill-health not occasioned by irregular or intemperate habits, he becomes eligible for an invalid pension or a gratuity according to the length of his service

* Officers of the Assistant Class will ordinarily pass into the executive class in the 11th year of service, but no Imperial Engineer may draw more than Rs 9,600 per annum unless he holds charge of a division or a charge of equal importance

The amount of pension or gratuity is regulated as follows —

After a service of less than 10 years, an invalid gratuity not exceeding one month's emoluments for each completed year of service

After a service of not less than 10 years an invalid pension not exceeding the following amounts —

Years of completed service	Maximum limit of pension
10	Rs. 1,000 a year
11	1,400 a year
12	1,800 a year
13	2 200 a year
14	2,600 a year
15, 16, 17, 18, 19	3,000 a year

After a service of not less than 20 years a retiring pension not exceeding the following amounts —

Years of completed service	Maximum limit of pension
20 to 24	Rs 4 000 a year
25 and above	5,000 a year

Officers who have shown special energy and efficiency during an effective service of three years in certain appointments may, at the discretion of the Government of India be allowed an additional pension of Rs 1 000 a year subject to the condition that the officer must not retire voluntarily before the completion of a total qualifying service of 28 years.

Subject to certain prescribed conditions, rupee pensions are now issued at the rate of exchange of 1s 9d the rupee to pensioners residing in countries in which the Indian Government rupee is not legal tender

2 A general provident fund to which all Civil Engineers entering the Public Works Department in the future will subscribe has been established for all Civil Engineers of the Department on the following basis —

(1) The contribution is compulsory up to 6¼ per cent, on salaries, with not more than a further 9¾ per cent voluntary contributions Subscriptions on leave of any kind are optional

(2) Compound interest on such payment is annually credited by Government to each officer subscribing the rate being at present 4 per cent per annum

(3) The sum which thus accumulates to the credit of an officer is his absolute property, subject to the rules of the Fund, and is handed over to him unconditionally on quitting the Service, or in the event of his death before retirement, to such person or persons as, under the rules of the Fund for the time being in force, may be entitled thereto

(4) Other forms of life insurance will, however, if they fulfil certain conditions, be accepted in lieu of the contributions in (1)

Leave

3 The following is a summary of the principal regulations relating to the leave admissible to Engineers appointed to the Imperial Service by the Secretary of State from the United Kingdom

(a) Short Leave

4 Privilege leave is a holiday which may be granted to the extent of one eleventh part of the time that an officer has been on duty without interruption; and it may be accumulated up to three months, earned by 33 months' duty During privilege leave the officer retains a lien on his

appointment, and receives an allowance equal to the salary which he would receive if he were on duty in the appointment on which he has a lien An interval of not less than six months must elapse between two periods of absence on privilege leave

Privilege leave may be prefixed to furlough, special leave, or extraordinary leave without allowances The whole period of leave thus taken in combination is known as combined leave Combined leave cannot be granted for a shorter period than six months, nor except on medical certificate, may it be extended beyond two years

5 Extraordinary Leave without allowances may be granted in case of necessity, and, except in certain specified cases, only when no other kind of leave is by rule admissible It may be granted in continuation of other leave

6 Subsidiary Leave in India for a minimum of ten days, usually with half average salary, may be granted to an officer proceeding on or returning from leave out of India or on retirement to enable him to reach the port of embarkment or to rejoin his appointment It is admissible only at the end and not at the beginning, of combined leave

7 Short leave is also granted to enable officers to appear at examinations &c

(b) Long Leave

8 Furlough and special leave with allowances (*see* paragraph 10) are admissible to an aggregate maximum amount of six years during an officer's service The amount of furlough 'earned' is one-fourth of an officer's active service, and the amount 'due" is that amount less any enjoyed

Furlough without medical certificate can, if due be generally taken after eight years' active service and again after intervals of not less than three years' continuous service It is limited to two years at a time

Furlough on medical certificate may be granted (*a*) to an officer who has rendered three years continuous service, for not more than two years, but capable of extension up to three years and (*b*) to an officer who has not rendered three years continuous service, up to one year in any case, and up to such longer period, if any (but not exceeding two years), as the officer may have furlough "due' to him

9 The allowances admissible during furlough are—

(1) During the first two years of furlough without medical certificate and during so much of furlough with medical certificate as may be 'due"—half average salary subject to certain maximum and minimum limits

(2) After the expiration of the period for which the foregoing allowances are admissible,—one quarter of average salary subject to certain maximum and minimum limits

10 Special Leave may be granted at any time for not more than six months, with intervals of six years' service, allowances, calculated as during furlough, are given during the first six months only, whether taken in one or more instalments

General Rules

11 Leave of absence whether on furlough or on privilege leave, can never be claimed as of right, and is given or refused at the discretion of Government

12 After five years' continuous absence from India, an officer is considered to be out of the employment of Government

13 When leave allowances other than privilege leave pay are paid at the Home Treasury, or in a Colony where the standard of currency is gold, rupees are converted into sterling at the rate of exchange fixed for the time being for the adjustment of financial transactions between the Imperial and Indian Treasuries, unless any other rate has been exceptionally authorized But for the present the rate of conversion is subject to a minimum of 1*s* 6*d* to the rupee Privilege leave pay when issued from the Home Treasury (this is only admissible when privilege leave is combined with other leave) is converted at 1*s* 4*d* to the rupee

APPENDIX V.

Regulations as to the Physical Examination of Candidates for Appointment to the Public Works Department of the Government of India.

Note—These Regulations are published for the convenience of candidates and in order to enable them to ascertain the probability of their coming up to the required physical standard But it must be clearly understood that the Secretary of State reserves to himself an absolute discretion to reject as unfit any candidate whom he may consider after hearing the opinion of his medical advisers, to be physically disqualified for the public service, and that his discretion is in no respect limited by these Regulations

It is not the practice to communicate to candidates who may be reported as physically unfit for service in India the reasons for the Medical Board s opinion

General Physical Requirements.

1 A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with efficient performance of duty

2 In the examination of candidates the Medical Board will apply the following table of correlation of age, height, and chest girth —

Age	Height without Shoes	Chest	
		Girth when expanded	Range of expansion
	Inches	Inches	Inches
21 and upwards	62½ and under 65	35	2
	65 " 68	35½	2
	68 70	36	2
	70 " 72	36½	2½
	72 and upwards	37	2½

3 *Measurement of Height*—The candidate will be placed against the standard with his feet together, and the weight thrown on the heels, and not on the toes or outside of the feet He will stand erect without rigidity, and with the heels calves, buttocks, and shoulders touching the standard, the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be noted in parts of an inch to eighths In the Indian Police Force a minimum height of 5 ft 4 ins is required but in other Departments no fixed limit of height is imposed.

4 *Measurement of Chest*—The candidate will be made to stand erect with his feet together, and to raise his hands above his head The tape will be carefully adjusted round the chest, with its posterior upper edge touching the inferior angles of the shoulder blades and its anterior lower edge the upper part of the nipples The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape The candidate will then be directed to empty his chest of air as much as is possible This is best done by continuous whistling with the lips as long as sound can be produced The tape is carefully gathered in during the process, and when the minimum measurement is reached it is recorded The candidate will then be directed to inflate his chest to its utmost capacity This maximum measurement will likewise be noted The girth with the chest fully expanded and the range of expansion between the minimum and the maximum will then be recorded

5 The hearing must be good

6 The speech without impediment

7 The teeth in good order, *i e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth where necessary for effective mastication

8 The chest must be well formed, the lungs and heart sound

9 Rupture hydrocele, varicocele, varicose veins in a severe degree or other condition likely to cause inefficiency will disqualify a candidate, unless such condition is cured by operation

10 The limbs, feet, and toes must be well formed and developed, with free and perfect motion of all the joints

11 A candidate must have no congenital malformation or defect likely to interfere with efficiency

12 A candidate must not be the subject of chronic skin disease

13 Evidence of previous acute or chronic disease pointing to an impaired constitution will disqualify

14 The Regulations as to the standard of vision required are shown separately for each department In all cases of "colour blindness" a note of the same will be made on the candidate's papers

Candidates may, if they wish it, undergo a preliminary examination by the Medical Board, which meets at the India Office every Tuesday under the following conditions —

(a) Applications must be addressed to the Under-Secretary of State, India Office Whitehall, London, accompanied by a fee of two guineas, and a statement as to the particular appointment which the candidate desires to obtain

(b) Candidates must pay their travelling expenses

(c) Candidates considered to be unfit by the Medical Board at this preliminary examination are not bound to accept its opinion, but may *at their own risk* continue their studies, with the knowledge that they will have to submit themselves for a final medical examination by the Medical Board, prior to the examination, or to their appointment

(d) On the other hand, it must be distinctly understood that the preliminary examination by the Medical Board is held solely for the candidate's information, and that, if after that examination he is reported to be apparently fit, he has not on that account any claim to be accepted as physically fit when he presents himself for the final Medical Examination, upon which alone his acceptance or rejection will depend Candidates may be considered fit for the Service at the preliminary examination, but may be found at the final examination to be unfit either on account of some physical defect which did not exist or passed undetected at the preliminary examination or for other reasons

Regulations as to the Standard of Vision.

1 If myopia in one or both eyes exists, a candidate may be passed provided the ametropia does not exceed 3 5 D, and if, with correcting glasses not exceeding 3 5 D, the acuteness of vision in one eye equals $\frac{6}{6}$ and in the other $\frac{6}{9}$ there being normal range of accommodation with the glasses

2 Myopic astigmatism does not disqualify a candidate, provided the lens or the combined spherical and cylindrical lenses, required to correct the error of refraction, does not exceed 3 5 D, the acuteness of vision in one eye when corrected, being equal to $\frac{6}{6}$, and in the other $\frac{6}{9}$, together with normal range of accommodation with the correcting glasses, there being no evidence of progressive disease in the choroid or retina

3 A candidate having total hypermetropia not exceeding 4 D is not disqualified, provided the sight in one eye (when under the influence of atropine) equals $\frac{6}{6}$, and in the other eye equals $\frac{6}{9}$, with + 4 D glasses, or any lower power

4 Hypermetropic astigmatism does not disqualify, provided the lens or combined lenses required to cover the error of refraction do not exceed 4 D, and that the sight of one eye equals $\frac{6}{6}$, and the other $\frac{6}{9}$ with or without such lens or lenses

5 A candidate having a defect of vision arising from nebula of the cornea is disqualified if the sight of one eye be less than $\frac{6}{18}$ In such a case the better eye must be emmetropic Defects of vision arising from pathological or other changes in the deeper structures of either eye, which are not referred to in these rules, may exclude a candidate

6 Squint or any morbid condition, subject to the risk of aggravation or recurrence, in either eye, may cause the rejection of a candidate Any imperfection of the colour sense is a disqualification for appointment to the engineering branch of the Railway Department. In other cases the existence of imperfection of colour sense will be noted on the candidate's papers

For all appointments under the Indian Government a declaration, as follows, is required from Candidates.

1 I ——————————————————————————
declare upon honour that, to the best of my knowledge and belief, I am not at present suffering or affected with any form of disease or bodily infirmity, such as—

Orders by the Governor of Bengal in Council.

MUNICIPAL AND LOCAL.

NOTIFICATIONS

No 555M.—*The 22nd February 1918.*—In exercise of the power con-
Burdwan ferred by section 290 of the Bengal Municipal Act, 1884 (Ben Act III of 1884), the Governor in Council makes, in supersession of the rules published with Notification No 196M, dated the 11th January 1898 the following rules subject to which the Commissioners of the Burdwan Municipality may allow communication pipes to be laid down from the service pipes of the Commissioners for the purpose of leading water to premises within the Municipality for domestic purposes only —

Rules

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water supply, they may allow any owner or occupier of a holding paying a water rate imposed under the provisions of Part VII of the Bengal Municipal Act 1884, on the annual value of such holding when such annual value is not less than Rs 100, to lay down communication-pipes from the service pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only subject to the following rules and conditions —

1 The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes, or requiring any addition or alteration to an existing water-supply, must apply for the same on a printed form to be supplied, free of cost, at the Municipal Office

2 A fee of Rs 125 must be paid to the Commissioners by such owner or occupier for each connection to a municipal main supply-pipe before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules

3 Each holding must have a separate connection to the municipal main supply-pipe, and extension from the communication-pipe of one holding to another holding shall not be permitted

Provided that no holding shall have more than one separate connection, but if in any case the Commissioners at a meeting are satisfied that an adequate supply to any holding cannot be given through a single connection, they may sanction a second connection thereto

4 The owner or occupier of the holding in respect of which the connection is required must pay the entire cost of the connection, including the

supply and fixing of the fittings referred to in rule 7, and must also pay the cost of such alterations in, or repairs to, roads, drains, sewers gas or water-mains or pipes, and the cost of such other works as may be necessitated by, or result from, the work of making such connection

5 The owner or occupier of the holding to which a connection has been given must, at any time, on receipt of notice to do so from the Commissioners, pay the entire cost of any repairs or alterations to the connection or any part thereof that the Commissioners may consider necessary to put it into a satisfactory condition or which may be necessitated by any change in the Municipal water-works or system of distribution, or by the defective condition of the connection or any part thereof, or by any other cause whatever

6 (1) The works required under rules 4 and 5 may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the works are required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners

(2) No work shall be carried out under sub rule (1), except under the supervision of a Municipal Officer

7 A holding connection shall comprise the following parts or fittings —

(a) a brass or gun-metal ferrule inserted in the main supply-pipe ,
(b) a galvanised iron communication-pipe from the ferrule to the meter,
(c) a stop-cock and its surface-box ,
(d) a meter ,
(e) service-pipes from the stop-cock to the taps , and
(f) taps

8 (1) All the fittings referred to in rule 7 shall be exact duplicates of standard samples kept in the office of the Commissioners, and approved by them in meeting

(2) All fittings shall be inspected and tested and stamped by an officer of the Municipality before being fixed

(3) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard patterns, he must present such fitting for the approval of the Chairman, and any fitting so presented may, if considered satisfactory by the Chairman, be stamped, and samples thereof may be purchased and placed among the standard fittings

9 The holding connection, when fitted in position, must be capable of standing a pressure of 100 feet, and no water shall be supplied until it has stood such a test applied by the Commissioners

10 The size of the ferrule and the diameter of the communication pipe referred to in clauses (a) and (b) of rule 7, and the number of taps shall be fixed in accordance with the annual valuation of the holdings as follows —

Annual valuation of holding not exceeding—	Number of taps	Size of ferrule	Diameter of communication pipe	Size of bib cook
Rs		Inch	Inch	Inch
150	2	1/8	1/2	1/2
450	2	1/4	1/2	1/2
1,500	3	1/4	3/4	1/2
3,000	3	3/8	3/4	1/2
6,000	4	3/8	1	1/2
Above 6,000	4	1/2	1	3/4

11 (1) On every communication-pipe a brass or gun-metal stop-cock having the same waterway as such pipe shall be placed as near as practicable to the point where that pipe enters the holding to be supplied

(2) The stop-cock shall be built in a brick chamber provided with a cast-iron surface cover-box so designed that it can be locked, and the key of this box shall remain under the control of the Chairman

(3) The stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby

12 (1) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined

(2) The meter must be fixed in a brick chamber covered over with a cast-iron surface-box of approved pattern

13 Neither the stop-cock nor the meter must be placed in any private premises

14 The Commissioners shall depute an authorised person to read every meter not less than once a quarter, and shall give notice to the occupier at least twenty-four hours before the reading is recorded If he fails to attend, the inspection shall be made in his absence

15 (1) Every owner or occupier of any holding in respect of which a connection has been made under these rules shall be entitled to a supply of—

(a) 3,000 gallons of water per quarter for each rupee, and
(b) a further proportionate number of gallons per quarter for every additional fraction of rupee,

paid by him quarterly as water-rate in respect of such holding

(2) For all water in excess of the amount allowed under sub-rule (1), such owner or occupier shall be charged quarterly six annas for each 1,000 gallons or any fraction of it

16 The Commissioners may cut off the connection between any water-works of the municipality and any holding to which water is supplied from such works, or may turn off such supply, in any of the following cases, namely —

(a) if the holding is unoccupied,
(b) if the occupier refuses to admit any officer duly empowered in that behalf into the holding for the purpose of making any examination or inspection authorised under the provisions of Part VII of the Bengal Municipal Act, or under any by law or rule framed under this Act, or prevents such officer from making such examination or inspection,
(c) if the owner or occupier of the holding touches or interferes with his meter in any way, or wilfully or negligently injures or damages it,
(d) if the owner or occupier of the holding wilfully or negligently permits waste of water in such volume as will, in the opinion of the Chairman, endanger the water supply in the neighbourhood,
(e) if the owner or occupier of the holding shall refuse or neglect to pay any of the fees or charges imposed in accordance with these rules for a space of fourteen days after he has been served with a notice of demand for the same,
(f) if the owner or occupier of the holding constructs or fixes any cisterns, tanks, reservoirs, taps, pipes pumps or any other works in connection with the water-supply not authorised by these rules,
(g) if the pipes, taps ball-cocks, cisterns, or any other parts of the connection are, in the opinion of the Commissioners, in a leaking condition or a state of disrepair, after notice to repair such defect has been served

Provided that such disconnection or turning off of water-supply shall not relieve any person from any liabilities which he may have incurred under these rules

In the circumstances contemplated in clause (d) an officer authorised by the Commissioners in this behalf by a general order shall have the power to turn off the supply for a period not exceeding eight hours on his previously recording his reason in writing

17 No tap shall be of larger size than the pipe to which it is attached and shall be of brass and of the pattern known as "Screw-down" Every tap shall be at least 3 feet above the surface of the ground beneath

18 No cistern, tank or reservoir of any description which is intended to be supplied with water from the Municipal water-works shall be permitted to any holding except with the sanction of the Commissioners in meeting, and such sanction shall distinctly specify the dimensions and capacity of the cistern, tank or reservoir allowed. The inlet to every such cistern, tank and reservoir must be controlled by an efficient ball-cock so that the discharge thereinto is completely stopped when the cistern, tank or reservoir is full Any taps fed from such cistern, tank or reservoir must be included in the number of taps allowed under rule 10

19 No connection shall be permitted to any holding unless and until the owner and occupier makes effective provision to the satisfaction of the Commissioners for draining all waste water away

59. (1) Any hackney-carriage registered under this Act may ply for hire as a stage-carriage [Cf s 44 Mad Act V of 1911 s 48(2)]

(2) The owner or driver of a carriage so plying for hire or hired as a stage-carriage shall not be subject to any by-law made under clause (g) of section 71 of this Act, but shall be entitled to demand and

The Calcutta Hackney-carriage Bill, 1918

(Chapter VI—Fares, Hiring and Plying for Hire—Chapter VII—Palanquins—Clauses 60—63.)

take for the hire of such carriage such fares as shall be agreed upon between him and the several hirers, respectively, subject to any maximum which may be prescribed by the Corporation by an order in writing

(3) All the other provisions of this Act shall be applicable to the case of a hackney-carriage plying as a stage carriage, so far as the same may be applicable in each case

Stands to be appointed

60 (1) The Corporation shall from time to time appoint the places in Calcutta that are to be used as public stands for hackney-carriages [Cf s 4, Mad Act V of 1911, s 44]

(2) Every public stand so appointed shall have a board placed in a conspicuous place on the same containing a notice in such language or languages as the Local Government may by notification prescribe, stating that the stand is a public stand under this Act and specifying the number of carriages that may stand upon it

CHAPTER VII

PALANQUINS

Palanquins to be registered annually

61 Every palanquin plying for hire in Calcutta shall be registered annually by the officer appointed for registering hackney-carriages, at the time and in the manner provided by Chapter II with respect to the registration of hackney-carriages [Cf ss 11, 46]

Provided that the Registering Officer may refuse to register any palanquin, or may cancel or suspend for such period as he thinks fit, the registration thereof, whenever such palanquin appears to him to be unfit for public use

License for palanquins

62 (1) The Registering Officer shall at the time of registration, deliver a license, duly signed by him to the owner of every palanquin [Cf s 8]

(2) Such license shall be in force for the year of registration

Particulars of register and license

63 (1) The following particulars shall be entered in the register and shall be specified in the license to be given to the owner, namely — [Cf s 47]

(a) the number of the palanquin

(b) the name and residence of the owner,

(c) the number of persons the palanquin is licensed to carry,

(d) the date on which the license was granted,

(e) such other particulars as may be prescribed by by-law made under section 71

(2) All the provisions of this Act in any way relating to the notification to the Registering Officer of the change of ownership or of residence of the owners of hackney-carriages shall be applicable in like manner to the owners of palanquins

The Calcutta Hackney-carriage Bill 1918

(Chapter VII —Palanquins —Clauses 64—68)

Plate to be affixed outside palanquin

64 (*1*) Upon the registration of any palanquin, the Registering Officer shall cause to be affixed on some conspicuous part of the outside of such palanquin a plate bearing the number of such palanquin in the register and the number of persons it is licensed to carry [Cf ss 16, 17, 48]

(*2*) If any palanquin is let used or plies for hire without having a proper plate affixed thereto under sub-section (*1*), the owner thereof shall be liable to a fine not exceeding twenty rupees, and, in default of payment of fine, to simple imprisonment for a period not exceeding ten days

(*3*) The person in whose name a palanquin is for the time being registered shall be deemed to be the owner thereof for the purposes of this Act

Application of certain provisions relating to hackney carriages to palanquins

65. All the provisions of this Act in any way relating to the cancellation or suspension of the registration of hackney-carriages and to the renewing, producing, using or taking possession of plates affixed to hackney-carriages shall be applicable in like manner to palanquins [New]

Owner to keep list of fares inside palanquin

66 The owner of every palanquin registered under this Act shall cause to be put up, in such manner and in such position as may be directed by the Registering Officer, on the inside of such palanquin, a list in such language, or languages as the Local Government may, by notification prescribe, showing the amount of fare according to distance and time which may be demanded and taken from the hirer of such palanquin [Cf s 19]

License for bearers of palanquins

67 (*1*) No person shall act as the bearer of a palanquin registered under this Act unless such person has obtained a license from the Registering Officer in the manner prescribed by Chapter V for drivers of hackney-carriages [Cf s. 51]

(*2*) All the provisions of this Act in any way relating to the taking out, granting, renewing, producing or using the licenses, or to the issuing, granting, wearing, using or taking possession of tickets granted to drivers of hackney-carriages shall be applicable in like manner to the bearers of palanquins

(*3*) For every license to act as a palanquin-bearer granted under this Act, there shall be paid a fee of eight annas, and for every renewal thereof there shall be paid a fee of two annas

Maximum distance to which palanquins are to be carried

68. (*1*) The bearers of every palanquin registered under this Act shall carry such palanquin to any place which is not more than five miles from the place where the same has been hired, to which they shall be required by the hirer thereof to carry the same [Cf s 52(1) and (2)]

The Calcutta Hackney-carriage Bill, 1918

(Chapter VII.—Palanquins —Chapter VIII.—Rickshaws —Chapter IX —By-laws —Clauses 69—71)

(2) When any such palanquin is hired by time, the bearers thereof may be required to carry it at any rate not exceeding two and a half miles within one hour

Provisions regarding owners and drivers of hackney-carriages applicable to owners and bearers of palanquins.

69 All the provisions of this Act as to offences committed by or against the owners and drivers of hackney-carriages and the penalties in respect of the same and recovery thereof, and all the remedies given to or against hirers, owners or drivers of hackney-carriages, except the provisions contained in section 53, shall be applicable, so far as the same may reasonably be applied, to the owners and bearers of palanquins [Cf s. 52(4)]

CHAPTER VIII

RICKSHAWS

Rickshaws

70 All the provisions contained in this Act, relating to palanquins and the hirers owners and bearers thereof shall be applicable *mutatis mutandis*, and so far as the same may reasonably be applied, to all rickshaws plying for hire in any town or place in which this Act is in force and to the hirers, owners and bearers of such rickshaws [New]

CHAPTER IX

BY-LAWS

Power to Corporation to make by-laws

71 (1) The Corporation may, from time to time, make by-laws generally for carrying out the provisions and intentions of this Act, and, in particular and without prejudice to the generality of the foregoing power they may and shall if the Local Government so direct make by-laws— [Cf s. 58]

(a) regulating the examination and qualification of drivers of hackney-carriages and bearers of palanquins and rickshaws, and the conditions under which they may be employed,

(b) prescribing the uniforms to be worn by drivers and attendants of hackney-carriages,

(c) specifying the description of horses, harness, or other things to be used in hackney-carriages, palanquins and rickshaws, the dimensions and colours of such carriages, palanquins and rickshaws, and prescribing the condition in which such carriages, palanquins and rickshaws and the horses, harness and other things used therewith, shall be kept;

(d) prescribing the mark of identification of horses to be used in any hackney-carriage;

The Calcutta Hackney-carriage Bill, 1918

(*Chapter IX —By-laws —Chapter X —Prosecutions — Clauses 72—75*)

(*e*) providing for the division of hackney-carriages into classes (if any),

(*f*) prescribing the fees to be paid for the registration of carriages horses, palanquins and rickshaws, respectively under this Act and for alterations to be made in any register kept thereunder

(*g*) prescribing the fares to be paid for the hire of hackney-carriages palanquins and rickshaws, respectively

(*h*) regulating the quantity of luggage to be carried by hackney-carriages,

(*i*) for the inspection of the premises on which any such carriages, palanquins, rickshaws, horses, harness and other things are kept,

(*j*) for the protection of weak lame or sickly horses and the prevention of their use in hackney-carriages

(*k*) for the publication of a table of distances,

(*l*) for preventing the placing of advertisements on or in hackney-carriages, palanquins or rickshaws and

(*m*) prescribing particulars to be entered in the registers and licenses under this Act

(*2*) By-laws made under this section shall be subject to the sanction of the Local Government, and shall if sanctioned, be published in such manner as the Local Government may direct [Cf Ben Act III of 1884 s 451A(2)]

Penalty for infringement of by laws

72 Whoever infringes any by-law made under this Act shall be liable to a fine not exceeding twenty rupees and in default of payment of fine, to simple imprisonment for a period not exceeding ten days [Cf s 54]

CHAPTER X

PROSECUTIONS

Effect of substituted service of summons

73 A summons against a driver of a hackney-carriage registered under this Act for any offence against this Act may be served either on the person accused or on the owner of the carriage, or on the owner of the horse used therewith, and the service on the owner shall be as effectual as if it had been made on the driver personally [Cf Act V of 1908, Sch I, O V R 20 (2)]

Ex parte disposal of criminal charges

74. If in any prosecution under this Act, the person charged does not appear as directed by the summons, the Magistrate may upon proof of service, and if no sufficient cause be shown for the non-appearance, proceed to hear and determine the case in his absence [Cf s 55 and Mad Act V of 1911, s 47]

Liability to fine when incurred

75. (*1*) No person shall be liable to prosecution for any offence under this Act, unless the complaint respecting such offence be made within three months next after the commission of such offence [Cf s 56, Mad. Act V of 1911, s 48(2)]

The Calcutta Hackney-carriage Bill, 1918

(Chapter X—Prosecutions—Chapter XI—Miscellaneous—Clauses 76—79)

(2) For the purposes of this section every omission punishable under this Act shall be deemed to be a continuing offence so long as the omission continues

Damage to property of Corporation to be paid for

76 (1) If, through any act, neglect or default on account whereof any person is fined under this Act any damage to the property of the Corporation has been committed by such person, he shall be liable to make good such damage as well as to pay such fine [Cf s 57]

(2) The amount of such damage shall be determined by the Magistrate by whom such person has been fined and, in default of payment of the amount of such damage on demand, the same may be levied in the same manner as a fine

CHAPTER XI

MISCELLANEOUS

Property left in carriage palanquin or rickshaw to be deposited in police station

77 (1) If any property is left by any person in a hackney-carriage palanquin or rickshaw, the driver or bearer thereof as the case may be shall, within twenty-four hours, carry such property, if not sooner claimed by the owner thereof, to the nearest police-station, and shall there deposit it with the Inspector or other officer on duty [Cf s 59]

(2) The said officer shall forthwith enter in a book to be kept for that purpose—

(a) the description of such property

(b) the name and address of the driver or bearer who brings it,

(c) the day and hour when it is brought,

(d) the name and address of the owner of the hackney-carriage palanquin or rickshaw in which the property has been left, and the registered number of such carriage, palanquin or rickshaw

and shall grant a receipt for the same

Penalty for neglecting to deposit property

78 Any driver or bearer who fails to deposit any property left in a hackney-carriage palanquin or rickshaw within the time prescribed in section 77 sub-section (1), shall be liable to a fine not exceeding fifty rupees and, in default of payment of fine to simple imprisonment for a period not exceeding fourteen days [Cf s 59 (2)]

Property to be returned to owner

79 The property entered under section 77 sub-section (2), shall be returned to the person who proves to the satisfaction of the Commissioner of Police that the same belonged to him, on payment of all costs incurred, together with such reasonable sum to the person who brought the same as the said Commissioner may determine [Cf s 59 (4)]

Provided that if within six months from the date of such deposit no person satisfies the Commissioner

The Calcutta Hackney-carriage Bill, 1918

(Chapter XI —Miscellaneous —Clauses 80—82)

that he is the owner of the property the Commissioner may cause the property to be sold, or otherwise disposed of and the proceeds after deducting therefrom the expenses together with a reasonable sum to the driver or bearer shall be credited and applied in the same manner as fees and fines realized under this Act

Fees and fines how to be dealt with

80 (*1*) All fees and fines realized under this Act shall be credited to a fund to be called the "Hackney-carriage Fund," which shall be employed in carrying out the purposes of this Act [Cf s 60]

(*2*) In the event of one or more municipalities being included in Calcutta by virtue of a notification published under clause (*b*) of section 2, such fund shall be divided annually between the Corporation of Calcutta and such other municipality or municipalities in such proportion as the Local Government may from time to time determine each municipality employing the sum so allotted to it in carrying out the purposes of this Act

Indemnity

81 No suit shall be maintainable against any municipal authority officer or servant or any police officer or any person acting under the direction of any municipal authority officer or servant or of a Magistrate, or of any person appointed under section 82 sub section (*1*) of this Act in respect of anything lawfully and in good faith and with due care and attention done under this Act or any by-law made thereunder [Ben Act III of 1899 s 63]

Effect when Act extended beyond Calcutta

82 (*1*) Whenever this Act shall be extended to any other town or local area under clause (*a*) of section 2, the Local Government may, by notification, appoint persons, either by name or by official designation, to exercise and perform the same powers and duties as are conferred or imposed by this Act on the Corporation, the Chairman of the Corporation and the Commissioner of Police respectively [Cf s 61]

(*2*) In each town or local area to which this Act may be extended, for the word "Calcutta" in sections 5, 33 60 and 61, shall be read the name of such town or area and for the words and figures "section 63 of the Calcutta Municipal Act, 1899," in section 6, sub-section (*3*) shall be read the words and figures "section 16 of the Bengal Municipal Act 1884" [Ben Act III of 1899] [Ben Act III of 1884]

STATEMENT OF OBJECTS AND REASONS

The objects of this Bill are—

(1) to make certain additions to, and amendments in, the Calcutta Hackney-carriage Act, 1891 (Bengal Act II of 1891), which experience has shown to be necessary for the improvement of the hackney-carriage service, and

(2) to bring within the scope of the Act rickshaws which are being used in increasing numbers

2 A special Committee was appointed by the Corporation of Calcutta in 1910 to consider the question of the amendment of the Act, and an amending Bill, based on their recommendations, was introduced in 1916 The Select Committee to which this Bill was referred, considered that it did not deal adequately with all the additions and alterations necessary in the Calcutta Hackney-carriage Act, 1891, and that the changes required would so materially alter that Act as to go beyond the scope of an amending Bill They accordingly recommended that the Bill should not be further proceeded with and that a new consolidating and amending Bill should be framed

3 In various sections of the Calcutta Hackney-carriage Act, 1891, no provision was made for imprisonment in default of payment of fine and this defect has been supplied in the Bill by prescribing in the penal clauses suitable terms of imprisonment in default of payment of fine In the absence of specific provision to this effect the provisions of the Indian Penal Code relating to imprisonment in default would apply under section 26 of the Bengal General Clauses Act 1899 (Ben Act I of 1899), and the terms of imprisonment for which sentences may be passed under that Code appear to be unduly severe for most of the offences for which penalties may be imposed under the Calcutta Hackney-carriage Act, 1891

4 The additions and alterations proposed are explained in the subjoined notes A table is also appended showing the manner in which the provisions of the Calcutta Hackney-carriage Act, 1891 are dealt with by the Bill

NOTES ON CLAUSES

CHAPTER I

Clause 1

Sub-clause (2)—In order to give time to make by-laws under the new clauses which it has been proposed to insert in section 53 of the Act (now clause 71), it is proposed to postpone the commencement of the operation of the Bill when passed into law until a date to be notified by the Local Government

Clause 2

Sub-clauses (*a*) *and* (*b*)—These contain the provisions of sub-section (3) of section 1 and of section 4 of the existing Act The first proviso, which is new, has been added since it is considered desirable that the Government of India should be consulted before the Act is extended to a cantonment area

The second proviso, which is new, has been added in order that the public may have an opportunity for submitting objections

Clause 3

Sub-clause (2)—This saving clause reproduces section 2, sub-section (2) of the Act, with the exception of appointments, extensions and notifications These savings are unnecessary in view of the provisions of section 25 of the Bengal General Clauses Act, 1899

Clause 4

Sub-clause (1)—It has been considered necessary to define the term "bearer" in order to include therein persons employed to draw or push a rickshaw

Sub-clause (3)—A definition of "Commissioner of Police" is necessary in the event of the extension of the Act beyond Calcutta

Sub-clause (7)—The term "notification" has been defined to obviate the necessity of repeating in the Bill the direction of publication of the notification in the *Calcutta Gazette*

Sub-clauses (8) and (9)—It is considered desirable to define "palanquins" and "rickshaws"

CHAPTER II

Clause 6

It is proposed that instead of having specified in this clause the classes into which hackney-carriages shall be divided, the classification shall be left to by-laws to be made under clause 71 The alterations in the clause give effect to this proposal

Clause 7

This clause provides for the delegation of the functions of the Registering Officer to any officer with the sanction of the Chairman

Clause 11

Sub-clause (e) has been inserted to make registers and licenses self-contained *Cf* also section 21 (2) (c) of the Act

Sub-clause (f) is designed to allow scope for revision of the form of register and license from time to time as may be found necessary

Clause 12

This is a new clause It directs the production of registered hackney-carriages before the Registrar for inspection within two weeks after the expiration of six months from the date of each annual registration Hackney-carriages often become unfit for public use long before the registration year has run out, but are usually repaired only just before the registration is to be renewed The new section will make it possible for the Registering Officer to exercise his power of suspension or cancellation under clause 13 of the Bill so as to enforce the making of repairs in proper time

Clauses 14 and 15

In reproducing the provisions of sections 12 and 13 of the Act, opportunity has been taken to make an alteration in the penalties provided It is not considered necessary to provide a recurring penalty in clause 14 and a penalty of Rs 5 (non-recurring) or simple imprisonment for seven days in default has been prescribed in both the clauses

Clause 16

As a conviction under clause 14, sub-clause (3), or clause 15, sub-clause (2), involves proof of change of address, modification has been made in this clause to require the necessary alteration being made in the register when a person has been so convicted, such conviction automatically giving notice to the Registering Officer of the fact of such change

Clause 17

Sub-clause (2), proviso—The main object of this clause is to take the unregistered carriage in the speediest possible manner to the police-station.

It is necessary also to provide for the release of the horse or horses if licensed with the harness as soon as that object is achieved

Sub-clause (3)—This appears to be necessary as, but for such power, objection would be taken to the detention of carriages seized

CHAPTER III

Clause 20, proviso

A drafting alteration is considered necessary in order to make it clear that it is only after a new plate has been affixed that a recovered plate must be surrendered If the old plate is found again before a new plate is affixed the old plate will be restored in the normal course

Clause 23

Clause 13 empowers the Registering Officer to suspend or cancel the registration of any hackney-carriage or the license granted to the driver of any hackney-carriage when such carriage appears to him to be unfit for public use Clause 22 provides for the delivery to the Registering Officer of the plate of the carriage when the registration of the carriage has ceased to be in force, but there is no clear provision in the existing Act for the delivery of the plate to the Registering Officer when the carriage registration is merely suspended If the Registering Officer is given power to take possession of the plate in such a case, the carriage will be effectually prevented from plying for hire, and in that way, compliance with the conditions upon which the carriage was registered will be secured It is accordingly proposed to give the Registering Officer this power As the Act at present stands, the only procedure open to the Registering Officer in these circumstances is to prosecute the offender and this has proved to be ineffective, as he continues to ply his carriage for hire, although unfit, and the fine imposed is not usually of a deterrent nature

Clause 24

Section 20 of the Act does not take into consideration many possible misuses of a plate properly issued under this Act The clause as revised is more comprehensive The penalty prescribed in that section has been altered in order to bring it into conformity with that provided in section 28

CHAPTER IV

Clause 25

The existing system is defective as it does not contain any provision for the separate registration and the identification of the horses There is a danger of horses produced before the Registering Officer when the carriages are being registered being subsequently replaced by inferior animals This clause provides for the separate registration of horses together with the harness and their identification is provided for in clauses 29 and 30

Clause 26

This clause corresponds to section 8 of the Act (clause 10 of the Bill)

Clause 27

This is on the same lines as clauses 11 and 63 of the Bill (sections 9 and 47 of the Act), but sub-clause (3) follows sub-clause (3) of clause 9

Clause 28

This clause provides for the production for inspection of registered horses half-yearly in the manner prescribed in the case of hackney-carriages by clause 12

Clause 29

This clause is intended to facilitate the identification of horses approved by the Registering Officer and to prevent the substitution of horses which have not been so approved The mark of identification to be used will be prescribed by by-law made under clause 71 of the Bill

Clause 30

This clause is analogous to clause 17 of the Bill

Clause 31

This clause also is analogous to clause 13 of the Bill (section 11 of the Act)

Clause 32

This clause is new and is intended to apply the provisions relating to plates affixed on hackney-carriages under this Act to the marks of identification attached or applied to horses, so far as these provisions can reasonably be applied

CHAPTER V

Clause 33

Sub-clause (1)—This sub-clause reproduces the provisions of sub-section (1) of section 21 of the Act, but in a somewhat different form

Sub-clause (2)—Section 21 of the Act empowers the Registering Officer to grant licenses to any applicant, the grant of a license to whom appears to be proper, and section 53(a) provides for the making of by-laws in regard to the examination and qualification of drivers There is, however, reason to believe that, notwithstanding the existence of these provisions, licenses have been granted to persons who are really unsuitable as drivers It has therefore been suggested that opportunity should be taken to emphasize three prominent cases in which licenses should be refused namely, where applicants either do not bear a good character, or are incompetent as drivers, or have an insufficient knowledge of localities It has also been pointed out that for the safety of the public no one under 18 years of age should be allowed to drive a hackney-carriage This sub-clause incorporates all these suggestions

Clause 34

Sub-clause (1)—This reproduces the provisions of sub-section (2) of section 21 of the Act with one addition, namely that a summary of the more important statutory provisions and by-laws affecting drivers of hackney-carriages should be set out in every license This is for the convenience of the drivers

Sub-clauses (2) and (3)—Sub sections (3) and (4) of section 21 of the Act require every driver to take out a fresh license every year, on payment of a fee of Rs 2 It is proposed to alter these sub-sections so as to require that all licenses shall, irrespective of the date of issue expire on the one date namely, the 30th June This change will, it is considered, facilitate the thorough and systematic examination of drivers It is further proposed that licenses shall be renewable if in the opinion of the Registering Officer the driver continues to fulfil the terms of the original grant as to competency, sobriety and good character It is further provided that the fee for a license should be Rs 2, whether the license is an original one or whether it is being renewed, except that in order to avoid hardship to drivers whose licenses have been in force for less than six months before the 30th June, the fee to be realized from these drivers will be only half that sum

Clause 36

This clause amplifies section 23 of the Act so as to penalise owners of hackney-carriages who allow their carriages to be driven for hire by persons whose licenses have expired or have been cancelled or suspended

Clauses 39 and 40

These two clauses reproduce the provisions of section 26 of the Act, except that, in the proviso to clause 39, a drafting alteration has been made in order to bring it into line with the proviso to clause 20 of the Bill

Clause 41

This reproduces the provisions of section 27 of the Act with slight verbal alterations to make the meaning clearer The words "any license or ticket" have been inserted in sub-clause (2) as they appear to have been inadvertently omitted

Clause 42

For the reasons stated in the note on clause 23 this clause has been added

Clause 44

The term of imprisonment in default of payment of fine provided in sub-section (1) of section 29 of the Act has been reduced from seven days to five days

Clause 45

Section 29 (2) of the Act authorises Magistrates to endorse convictions on drivers' licenses It is proposed in this clause to revise that section so as to require Magistrates to endorse convictions instead of merely authorising them to do so, and so as to require Magistrates to endorse also any warning or reprimand that they may administer to drivers

Clause 46

The term of imprisonment in default of payment of fine provided in section 30 of the Act has been altered to a term of simple imprisonment for ten days

Clause 47

The Registering Officer is empowered by section 11 of the Act to suspend or cancel a driver's license when his carriage horse or harness, is unfit for public use Section 30 also authorises the suspension or cancellation of his license when a driver is convicted before a Magistrate of any offence These provisions, however do not go far enough, for drivers may be shown to be unfit for their work independently of the condition of their carriages, horses or harness and in spite of the fact that no prosecution has been instituted against them It is therefore proposed to insert this clause empowering the Registering Officer to require any driver to appear before him, and if it be found that the driver is not a fit person to drive a hackney-carriage, to suspend or cancel his license If a driver fails to appear before a Magistrate when summoned to answer a charge, or if the owner on being called upon to produce the driver before a Magistrate fails to do so, the driver's license is also liable to be cancelled or suspended by the Registering Officer who granted it

CHAPTER VI

Clause 48

Sub-clause (1)—The list of fares in Calcutta is, in accordance with section 32 of the Act, to be drawn up in the English, Urdu and Bengali languages Section 61 prescribes that the language of the list in other local areas is to be determined by the Local Government In this sub-clause the power to determine the language or languages has been reserved to the Local Government in all cases as being the more convenient course to follow Similar alterations have been made in clauses 60 and 66

Clause 49

This reproduces with modifications the provisions of section 33 of the Act, but in sub-clause (3) the burden of proving sufficient excuse when a driver fails to comply with the provisions of the clause has been laid on him as being the most reasonable course in the circumstances The provisions relating to charging an excess fare have not been incorporated as being unnecessary, as it is intended to settle all questions relating to fares by means of by-laws

Clause 50

For the reasons stated in the note to the previous clause the burden of proving sufficient excuse referred to in this clause has been laid on the owner, driver or person in charge of a hackney-carriage

Clause 51

This clause in reproducing the provisions of section 36 makes several important alterations It seems to be necessary to bring attendants of hackney-carriages within the scope of this clause and to give the Police Officers in control of traffic greater powers for enforcing order The clause has been altered accordingly In Bombay the attendants are equally liable with the drivers for similar offences (see Bombay Act VI of 1863, s 22) Sub-clauses (*l*) and (*m*) have been taken from section 37 of Madras Act V of 1911 and appear to be suitable Sub-clause (*n*) which corresponds with clause (*l*) of section 36 of the Act now follows the Madras Act Serious offences as well as trivial offences are dealt with in this clause and the penalty of ten rupees or imprisonment for seven days provided in that section is not considered to be adequate for some of the offences referred to The maximum has, therefore been raised to 100 rupees or imprisonment for two months

Clause 52

This corresponds to section 37 of the Act with certain alterations to make the intention clear that the driver is now required to attend at the premises where the carriage is kept and not at the residence of the owner

Clause 53

Section 38 of the Act empowers the Magistrate to summon the owner of a hackney-carriage when a complaint is made that the driver has committed an offence against the Act There seems to be no reason why this section should not be extended to the case of offences against by-laws made under section 53 (now clause 71) and this clause has been drafted accordingly

The alterations relating to owners of horses are consequential as provision is being made for separate registration of horses

Clause 54

This clause reproduces the provisions of section 39 of the Act with slight modifications The words "without sufficient excuse" have been introduced as this course appears to be equitable The penalty of imprisonment in default of payment of fine has been reduced to simple imprisonment for fourteen days

Clause 55

This reproduces the provisions of sub-section (*1*) of section 40 of the Act with a few verbal alterations A reference to "mark of identification" has been made in this clause as being consequential upon the adoption of the proposal regarding the identification of horses The penalty of imprisonment in default of payment of fine has been reduced in this clause as well as in clause 56 to simple imprisonment for ten days

Clause 59

Sub-clause (*2*)—Following the precedent of section 43, sub-section (*2*) of Madras Act V of 1911, the words "subject to any maximum which may be prescribed by the Corporation by an order in writing" have been added to this clause so as to prevent the owner or driver from asking fancy fares The other alterations in this sub-clause are merely consequential upon the proposal to relegate to by-laws the prescribing of the scale of fares

Clause 60

This clause follows section 45 of the Act and is based upon section 44 of Madras Act V of 1911 (*see* also Note on Clause 48)

CHAPTER VII

Clause 61

This reproduces the provisions of section 46 of the Act, but the power to suspend a license is taken in the proviso in order to bring this clause into line with clause 13 of the Bill

Clause 62

This clause is new It provides for licenses for palanquins Licenses are issued for hackney-carriages under the existing Act, and licenses for horses are also now required It is therefore reasonable to have licenses for palanquins as well

Clause 63

Sub-clause (1)—This corresponds to section 47, sub-section (*1*) of the Act, but sub-clauses (*1*) (*c*), (*1*) (*d*) and (*1*) (*e*) are new and have been inserted to make the clause similar to clauses 11 and 27

Clause 64

Sub-clauses (1) and (2)—These sub-clauses amend section 48 of the Act in the same way in which it is proposed to amend sections 16 and 17 (*see* clauses 18 and 19)

The maximum penalty of fine provided in sub-section (*2*) of section 48 of the Act has been raised to twenty rupees and provision has been made for simple imprisonment for ten days in default of payment of fine

Clause 65

This is new and it applies certain provisions relating to hackney-carriages to palanquins The extension of these provisions to palanquins appears to be desirable

Clause 66

The modification made in this clause has been explained in the Note on Clause 48

Clause 67

Sub-clause (2)—This is similar to sub-section (*2*) of section 51 of the Act, but the wording has been slightly modified in order to include the taking possession of tickets

Sub-clause (3)—It is necessary to provide for a renewal fee as has been done in the case of drivers' license This sub-clause introduces such a provision

Clauses 68 and 69

These two clauses reproduce with slight modifications sub-sections (*1*), (*2*) and (*4*) of section 52 of the Act The provisions of sub-section (*3*) have not been included as they are unsuitable here

CHAPTER VIII

Clause 70

As has been explained in the Statement of Objects and Reasons, it is proposed to include rickshaws within the scope of this Bill and that the provisions relating to palanquins should apply to rickshaws. This clause carries out the suggestions put forward It is apparently unnecessary to have a separate set of clauses repeating these provisions

CHAPTER IX

Clause 71

The power to make by-laws has been considerably amplified This has been due in part to the new provisions contained in the Bill and in part to the proposal to relegate some of the provisions of the existing Act to by-laws

The following are some of the more important heads of the by-law making power —

(1) prescribing marks of identification of horses,
(2) providing for the division of carriages into classes,
(3) prescribing fees to be paid for the registration of carriages, horses, palanquins and rickshaws,
(4) regulating the quantity of luggage to be carried by hackney-carriages,
(5) preventing the use of unfit horses in hackney-carriages, and
(6) preventing the placing of advertisements on or in hackney-carriages, palanquins and rickshaws

As it is considered reasonable that the drivers and attendants of hackney-carriages should wear uniforms, a power to make by-laws prescribing such uniforms has been taken in this clause The fares to be charged for the hire of hackney-carriages and palanquins are prescribed in sections 31 and 50 and the First and Second Schedules to the Act It is considered better to leave the scale of fares for such conveyances as well as the fares for rickshaws to be prescribed by by-laws to be made under section 53 (clause 71), since fares in mufassal towns, where living is cheap, should not be so high as in Calcutta A power for this purpose has been taken in this clause

CHAPTER X

Clause 73

This clause is new and is intended to provide for a more certain system of service of summons on drivers of hackney-carriages The owners of carriages and horses are frequently aware of the place of residence of the drivers they employ and frequently conceal this from the serving officer or refuse to render assistance to him

Clause 74

In view of the provisions of the Code of Criminal Procedure 1898, and the Bengal General Clauses Act, 1899, section 55 which corresponds to this clause, has been considerably modified As revised, the present clause follows section 47 of Madras Act V of 1911

Clause 75

Sub-clause (*2*) —The sub-clause follows section 48 sub section (*2*) of Madras Act V of 1911, which is wider than sub-section (*2*) of section 56 of the Act The object is to prevent an offender from continuing in a course the rectification of which is in the public interest

CHAPTER XI

Clause 79

This clause reproduces with modifications the provisions of section 59, sub-section (*4*) of the Act The period during which property left in hackney-carriages, palanquins and rickshaws should be kept with the Commissioner of Police has been reduced from one year to six months as there is no sufficient reason why it should be kept for such a length of time

Clause 81

The existing Act appears to be defective as it does not contain any provision safeguarding the *bonâ fide* acts of persons under the Act This omission has been supplied by the insertion of this new clause

18 No licensed vendor shall sell or deliver any excise opium to any child apparently under the age of 14 years, whether for consumption by such child or by any other person

19 No licensed vendor shall sell excise opium on credit, or receive any pledge for payment of the price thereof or anything but money in exchange therefor

20 Premises licensed for the sale of excise opium shall be open only during the following hours —

(a) From 16th March to 15th October—8 A M to sunset

(b) From 16th October to 15th March—10 A M to sunset

21 Every licensed vendor shall keep his licensed premises open during the prescribed hours throughout the currency of the license, unless their temporary or permanent closure is authorised He shall meet the demands of every customer entitled to be served who tenders payment for what is required by him, and he shall maintain such supply of excise opium as the Collector may consider sufficient to meet local requirements

22 No licensed vendor shall wilfully adulterate or add anything to cause the deterioration of any excise opium sold or kept for sale by him He shall not sell any excise opium which he knows to have been adulterated or deteriorated and shall not store such excise opium or permit such excise opium to be stored on his premises

23 Regular and accurate accounts shall be maintained by all persons holding licenses for the sale of excise opium in such form as may from time to time be prescribed by the Commissioner Such accounts shall be written up as soon as the transactions for each day have been closed

24 Every holder of a license shall record the names and addresses of all purchasers on the same day of 2 tolas of opium or over

25 A licensed vendor shall at once produce his license and accounts and all excise opium on his licensed premises on the demand of any officer empowered under section 14 of the Opium Act, 1878, and shall not prevent any such officer from entering his licensed premises at any hour of the day or night

LICENSES

26 Licenses for the sale of excise opium shall be granted by the Collector

Provided that in Calcutta or in the suburbs of Calcutta no shop for the sale of excise opium may be opened until a further license has been granted by the Commissioner of Police in Calcutta under section 39 of the Calcutta Police Act 1866 or in the suburbs of Calcutta under section 22 of the Calcutta Suburban Police Act 1866

27 Unless the Local Government otherwise specially direct, licenses for the sale of excise opium shall be granted for one year, from the 1st April to the 31st March, subject to the following provisions —

(a) If any license be granted during the course of the financial year it shall be granted only up to the 31st March next following

(b) Temporary licenses may be granted to provide for the supply of excise opium on temporary and special occasions, e g, fairs and shall be limited to the period during which such temporary or special occasions last

28 Such number of shops for the sale of excise opium as the Commissioner may from time to time determine shall be allowed in each district and the exclusive right of selling excise opium at one or more of such shops as the Commissioner may direct shall be sold by public auction or settled in such other mode as the Commissioner may from time to time prescribe by or under the orders of the Collector before the commencement of each official year Such sale or settlement shall not however be deemed to be complete until it has been confirmed by the Commissioner

Provided that the Local Government may prescribe measures for ascertaining local public opinion as to the number and location of shops in any local area

29 The fees for licenses mentioned in rule 27 shall be paid as follows —

(a) Two months' fee in advance and one month's fee on the day on which the currency of the license begins, and one month's fee on the first of every succeeding month until the total fee due for the license has been realized

(b) The fee for temporary licenses for the sale of excise opium at fairs shall be fixed by auction and shall be paid in advance

30 All payments of license fees shall be paid by the licensees into the local treasuries either by direct payment or by postal money-order without the intervention of excise officers

31 No transfer or sub-lease (whether entire or partial) of a license shall be made, except with the previous permission of the Collector and the approval of the Commissioner The Collector shall not allow such transfer or sub-lease, unless good and sufficient reason be shown to his satisfaction, and unless the transferee or sub-lessee is, in his opinion, fit and qualified to hold such license

32 On the death of a licensee the Collector may renew the license on the same terms in favour of a representative of the deceased if he be satisfied that such representative is fit to hold it, and on the condition that any arrears due from the deceased licensee are recovered before the license is so renewed In such case no fresh deposit in addition to the deposit required by rule 29 need be called for

33 (1) The Collector may cancel or suspend any license for the sale of excise opium—

(a) if it is transferred or sublet by the holder thereof without the permission of the Collector and the approval of the Commissioner, or

(b) if any duty or fee payable by the holder thereof be not duly paid or

(c) in the event of any breach by the holder thereof or by any of his servants, or by any one acting on his behalf with his express or implied permission, of any of the terms or conditions thereof or

(d) if the holder thereof is convicted of any offence punishable under the Bengal Excise Act 1909, or the Opium Act 1878, or any other law for the time being in force relating to revenue or of any cognizable and non-bailable offence, or of any offence punishable under the Merchandise Marks Act 1889 or under any section which has been introduced by section 3 of that Act into the Indian Penal Code, or

(e) if the holder thereof is punished for any offence referred to in clause 8 of section 167 of the Sea Customs Act 1878, or

(f) if there be reason to believe that the license is used as a cloak for illicit sales, including sales to opium smugglers

(2) When a license is cancelled under sub-rule (1) the Collector may cancel any other license permit or pass granted to such person under the Opium Act, 1878

(3) The holder of a license shall not be entitled to any compensation for its cancellation or suspension under this rule or to the refund of any fee paid or deposit made in respect thereof

34 (1) The Collector may accept from any person whose license is liable to be cancelled under clause (a), clause (b) or clause (c) of rule 33 (1) payment of a sum of money not exceeding Rs 200 in lieu of such cancellation

(2) When the payment referred to in sub-rule (1) has been duly made, no further proceedings shall be taken against such person in respect of the acts or omissions on account of which the license is then liable to cancellation

35 Whenever the Collector considers that any such license should be withdrawn for any cause other than those specified in rule 33 he shall remit a sum equal to the amount of the fees payable in respect thereof for 15 days and may withdraw the license either—

(a) on the expiration of 15 days notice in writing of his intention to do so, or

(b) forthwith without notice

In the latter case the Collector shall, in addition to remitting the sum as aforesaid pay to the licensee such further sum (if any) by way of compensation as the Commissioner may direct

When a license is withdrawn under this rule any fee paid in advance or deposit made by the licensee in respect thereof shall be refunded to him after deducting the amount (if any) due to Government

36 A licensed vendor may, unless his license is liable to cancellation under rule 33, surrender the same on the expiration of one month's notice in writing given by him to the Collector of his intention to surrender it, and on

ayment of the fee payable for the license for the whole period for which it would have been current but for such surrender

Provided that, if the Commissioner is satisfied that there is sufficient reason for surrendering a license he may remit to the holder thereof the sum so payable on surrender, and any fee payable in advance or any portion of such sum or fee

Explanation — The words "licensed vendor" as used in this rule, include a person whose application under or bid for a license has been accepted by the Collector, although he may not actually have received the license

37 No person to whom a license has been granted for the sale of excise opium shall have any claim to the renewal of such license, or save as provided in rule 35, any claim to compensation on the determination thereof.

38 The Collector may, after the cancellation or surrender of a license under rule 33 or rule 36 at the risk and loss of the person whose license has been cancelled or surrendered —

(a) take the grant under management or

(b) transfer the unexpired portion of the grant to any other person

39 If a person who has been a licensed vendor has in his possession, after the expiration of his license any excise opium which he is unable to dispose of under rule 10 he shall on the requisition of the Collector, surrender the same to such officer as the Collector may appoint in this behalf and the person to whom a new license has been granted in the stead of the said licensed vendor or if no such new license has been granted, then any licensed vendor of the article within the district shall on the requisition of the Collector be bound under penalty if the Collector sees fit, of forfeiting his license to buy the opium at such price as the Collector may adjudge and in any quantity not exceeding that which the Collector may determine to be ordinarily saleable by him in 2 months

Provided that if such excise opium or any part thereof be declared by the Civil Surgeon or other Principal Medical Officer of the district, or in Calcutta or in the suburbs of Calcutta, by the Chemical Examiner to the Government to be unfit for use the Collector shall cause it, or that part, to be destroyed without any compensation being claimable by the former licensed vendor

Part III —Rules relating to the export of opium by sea

40 Opium may be exported by sea from the port of Calcutta if it has been purchased from the Government at a public sale held by the Local Government and is covered by a pass or certificate granted by the Local Government in such form as they may from time to time prescribe The shipment of opium so exported must however be in accordance with such conditions and subject to such examination by Preventive officers as the Local Government may from time to time notify in the *Calcutta Gazette* Such notification shall among other things specify —

(1) the days and hours of business for the acceptance of treasury receipts and passes and for the granting and return of certificates and the conditions (if any) on which such documents may be granted out of ordinary business hours

(2) the procedure to be observed for obtaining delivery of opium from the Presidency godowns and for passing it through the Custom House ,

(3) the period within which shipment shall be allowed after the issue of certificate

(4) the time and manner of conveyance to the steamer or ship of opium intended for export, the procedure to be observed by the Intendant and the Collector of Customs for the clearance and shipment of such opium, and duties of the Preventive officers in connection therewith ; and

(5) the fees (if any) to be charged for—

(a) grant of any certificate or pass, or receipt of any shipping bills prescribed by the Local Government as necessary, outside the hours which may be notified as the ordinary hours of business in this connection ,

(b) the services of any Preventive officer whose attendance may be generally or specially notified by the Local Government as necessary in respect of any procedure prescribed with reference to opium intended for export by sea

(c) the removal of chests of opium from Government premises, or the shipment of the same or any operations in connection therewith which may be conducted outside the hours specified as the "ordinary hours of business" in this connection, and

(d) in regard to the persons from whom and the time or manner at, or in which such fees shall be recovered

Part IV —Smoking preparations

MANUFACTURE

41 Any person may manufacture smoking preparations in a quantity not exceeding 1 tola, provided that such manufacture is for his private consumption and not for sale and is from excise opium of which he is permitted by these rules to be in possession or from opium which he has imported under the provisions of rule 66

44 (1) Any person may possess opium to the extent of 1 tola, other intoxicating drugs to the extent of [illegible] tolas of any kind or kinds, and poppy-heads to the extent of [illegible] seers—

(i) if manufactured by himself for private consumption under the conditions of rule 43 (3)

(ii) if purchased from a licensed druggist for *bonâ fide* medicinal purposes,

(iii) if obtained for *bonâ fide* medicinal purposes from his medical attendant provided that the latter is either a qualified medical practitioner or a permit-holder or a licensed *kabiraj* or *hakim*,

(iv) if he has imported them in accordance with the provisions of the provisos to rules 47 and 66

Provided that any person may possess intoxicating drugs obtained for *bonâ fide* medicinal purposes on a prescription of a qualified medical practitioner up to the quantity specified in such prescription

(2) Subject to the conditions of his license, a licensed druggist may possess intoxicating drugs and poppy-heads, if he is a licensed manufacturing chemist, to such extent as the Commissioner may allow in any particular case, and, if he is a licensed dispensing chemist, to the extent of 1 seer of any kind or kinds of intoxicating drugs and 10 seers of poppy heads, provided that he has manufactured the former from excise opium or intoxicating drugs of which he is permitted by these rules to be in possession or has purchased them from a licensed druggist or under rule 54 from a person who has been a licensed druggist, a permit-holder or a licensed *kabiraj* or *hakim* or has imported them under rule 46 or rule 47

(3) A qualified medical practitioner or, subject to the conditions of his permit, a permit-holder may possess intoxicating drugs to the extent of 20 tolas of any kind or kinds or such larger quantity as the Commissioner may allow in the case of a medical officer in charge of a hospital or charitable dispensary not under Government supervision, and poppy-heads to the extent of 10 seers, provided that he has manufactured the former from excise opium or intoxicating drugs of which he is permitted by these rules to be in possession or has purchased them from a licensed druggist or under rule 54 from a person who has been a licensed druggist, a permit-holder or a licensed *kabiraj* or *hakim* or has imported them under rule 46 or rule 47

(4) Subject to the conditions of his license, a licensed *kabiraj* or *hakim* may possess intoxicating drugs which have been manufactured from excise opium to the extent of 1 seer in all, provided that he has himself manufactured the same from excise opium of which he is permitted by these rules to be in possession or has purchased them under rule 54 from a person who has been a licensed druggist a permit-holder or a licensed *kabiraj* or *hakim*, and poppy-heads to the extent of 10 seers which he has purchased from a licensed druggist or under rule 54 from a person who has been a licensed druggist or a permit-holder or a licensed *kabiraj* or *hakim*

(5) Any person who has been a licensed druggist, permit-holder or licensed *kabiraj* or *hakim* may with the sanction of the Collector, possess any quantity of intoxicating drugs or poppy-heads of which at the time of the expiration of his license or permit he is in lawful possession in accordance with the conditions of such license or permit and the provisions of these rules until such time as he shall have disposed of the same under these rules

TRANSPORT

45 Any person may transport intoxicating drugs or poppy-heads of which he is lawfully in possession from a place where he has purchased any of the said articles or manufactured the intoxicating drugs to a place where he is licensed or authorized by these rules to manufacture or sell the said articles or where he may lawfully use or consume them

IMPORT

46 (1) The import of intoxicating drugs or poppy-heads by sea or by land into British India by means other than the post is permitted only in the case of those persons (or their authorized agents) who have been permitted to import them by the Commissioner, and whose names have been entered in a list to be maintained in the Commissioner's office The Commissioner may at any time remove any name from the said list at his discretion

(2) Whenever any person whose name is in the said list desires to import any intoxicating drugs or poppy-heads, he must obtain a permit in such form as may be prescribed by the Local Government before indenting for the same

The permit will be issued without fee by the Commissioner and will cover such import and also the transport of the article imported to the place of business of the importer

47 The import by land of intoxicating drugs or poppy-heads from another part of India into Bengal by means other than the post is permitted in the following cases —

(i) by any person if obtained on a *bonâ fide* prescription of a qualified medical practitioner,

(ii) by a licensed druggist, qualified medical practitioner or permit-holder in Bengal under a permit granted by the Collector of the importing district

Provided that a *bonâ fide* traveller coming into the Presidency of Bengal from another part of India may bring with him intoxicating drugs and poppy-heads to the extent provided by rule 44 (1) if obtained in the manner and for the purposes specified in that rule

EXPORT

48 Poppy-heads may be exported to the territories under the Government of Chandernagore and to the Tributary and Political States under the control of the Government of Bengal but must while in transit through British territory be covered by a pass issued by the Collector of the exporting district The pass must be produced on the requisition of a Preventive officer, who may at any time examine such consignments

49 Intoxicating drugs or poppy-heads may be exported by a licensed druggist—

(i) on a *bonâ fide* prescription of a qualified medical practitioner or

(ii) on the production —

(a) in the case of export to a district in British India of permission from the Collector of that district, or in the case of a hospital or a charitable dispensary, of orders countersigned by a Civil Surgeon, an officer of the Indian Medical Service or an officer of the Royal Army Medical Corps,

(b) in the case of export to a Native State or foreign territory in India of permission from the proper authority therein

Provided that in all cases of export under clause (ii) of this rule a pass must be obtained from the Collector of the district from which the intoxicating drugs of poppy-heads are despatched A copy of such pass shall be sent to the Collector of the importing district or to the authority in the Native State or foreign territory by whom permission to import was given, as the case may be

50 A *bonâ fide* traveller leaving Bengal may subject to such rules as may be in force at his destination take with him any intoxicating drugs or poppy heads which he is entitled to possess under the provisions of rule 44 (1)

TRANSMISSION BY POST

51 Save as otherwise provided in these rules intoxicating drugs and poppy-heads may be imported transported and exported only by means other than that of the post

SALE

52 Subject to the conditions of his license a licensed druggist may sell intoxicating drugs or popyy-heads up to such quantity as the purchaser is authorized by these rules to possess—

(a) to another licensed druggist or permit-holder on production of his license or permit,

(b) to a qualified medical practitioner on being satisfied that the purchaser is a qualified medical practitioner,

(c) to any other person for *bonâ fide* medicinal purposes

Provided that a licensed druggist shall not comply with a prescription given by a qualified medical practitioner—

(a) if such compliance involves export from Bengal

(b) if the prescription provides for the supply of intoxicating drugs in excess of the quantity which the purchaser may ordinarily possess,

unless the name of such qualified medical practitioner is signed in full and his qualification is appended to the signature

53 A qualified medical practitioner or, subject to the conditions of his permit or license a permit-holder or a licensed *kabiraj* or *hakim* may use intoxicating drugs or poppy-heads in the course of his practice, or may compound or dispense the same for the use of his own patients for *bona fide* medicinal purposes

54 Any person who has been a licensed druggist, permit-holder or licensed *kabiraj* or *hakim* may, with the sanction of the Collector, sell any quantity of intoxicating drugs or poppy-heads of which at the time of the expiration of his license or permit he is in lawful possession in accordance with the conditions of such license or permit and the provisions of these rules to a licensed druggist, qualified medical practitioner, permit-holder or licensed *kabiraj* or *hakim* to the extent to which the purchaser is authorized by rule 44 to possess the same

RESTRICTIONS ON SALE

55 No licensed druggist shall sell intoxicating drugs or poppy-heads at any place other than on the premises specified in that behalf in his license

56 No licensee or permit-holder shall store any intoxicating drugs or poppy-heads at any place other than that specified in that behalf in his license, except with the previous written sanction of the Collector

57 No licensed druggist shall sell or deliver any intoxicating drugs or poppy-heads to any child apparently under the age of 14 years, whether for consumption by such child or by any other person

58 Regular and accurate accounts shall be maintained by every licensee and permit-holder and, if a form has been prescribed by the Commissioner, shall be kept in such form Such accounts shall be written up as soon as the transactions for each day have been closed The licensee or permit-holder shall when required by an excise officer of or above the rank of Sub Inspector assist him by a sufficient number of servants in taking account of his stock

59 Every licensee or permit-holder shall at once produce his license, or permit and correct accounts on the demand of any officer empowered under section 14 of the Opium Act 1878 and shall not prevent any such officer from entering and inspecting the premises in which he is authorized to store intoxicating drugs or poppy-heads at any hour of the day or night

LICENSES

60 (1) Every licensed druggist every permit holder and every licensed *kabiraj* or *hakim* shall pay for his license or permit such fee as may from time to time, be fixed with the sanction of the Local Government and the fee shall be specified in the license or permit, and shall be payable at such times and places as the Local Government may direct

(2) Such licenses and permits shall be granted by the Collector at his discretion for periods of one year at a time, provided that every license and permit shall expire on 31st March next following the date on which such license or permit was granted

61 (1) A license or permit may be cancelled by the Collector for any cause specified therein The licensee or permit-holder shall not in such case be entitled to the refund of any fee payable under the license or permit which he has paid in advance

(2) If any person in the employ and acting on behalf of the holder of a license or permit wilfully does any act in breach of any of the conditions of the license or permit or the provisions of these rules, the holder of the license or permit shall himself be deemed to have committed such breach unless he establishes that all due and reasonable precautions were taken by him to prevent it

(3) The Collector may accept from any person whose license or permit is liable to be cancelled under this rule payment of a sum of money not exceeding Rs 200 in lieu of such cancellation

(4) When the payment referred to in sub-rule (3) has been duly made, no further proceedings shall be taken against such person in respect of the acts or omissions on account of which the license is then liable to cancellation

62 Whenever the Collector considers that a license or permit should be withdrawn, he shall remit a sum equal to the fee for such part of the

period for which the license has been issued as is unexpired on the date of his order and may withdraw the license either—

(a) on the expiration of 15 days' notice in writing of his intention to do so or

(b) forthwith without notice

In the latter case the Collector shall, in addition to remitting the sum aforesaid, pay to the licensee or permit-holder such further sum (if any) by way of compensation as the Commissioner may direct

63 A licensed druggist or a permit-holder or a licensed *kabiraj* or *hakim* may surrender his license or permit at any time by notice in writing given by him to the Collector on payment of any fees for which he may be liable

No 622L S-G —The 2nd March 1918 —The following draft of a Notification which the Governor in Council intends to issue in exercise of the powers conferred by clauses (*a*), (*b*) and (*c*) of section 138 of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885), is published as required by section 143 of the said Act, for the information of persons likely to be affected thereby

2 The draft will be taken into consideration on or after the 28th May 1918, and any objection or suggestion with respect thereto which may be received by the undersigned before that date will be duly considered

Draft Notification

The Governor in Council is hereby pleased to make the following rules under section 138, clauses (*a*), (*b*) and (*c*) of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885), fixing the period within which and stating the procedure of the meeting of a District Board at which, a Chairman shall be elected when such election shall have been directed under section 22 or section 29, sub-section (*1*) of the said Act, namely —

"1 When any orders under section 22 or section 29, sub-section (*1*) of the Bengal Local Self-Government Act of 1885, have been received by a District Board, a special meeting of the Board at which there shall be a quorum, shall be held for the election of a Chairman within one month,—

(*a*) in the case of a newly constituted or reconstituted District Board, from the date on which the names of the elected members and the names or official designation of the appointed members of the Board shall have been published in the *Calcutta Gazette* and

(*b*) in any other case, from the date of the receipt by the Board of the said orders directing the election of a Chairman

2 The meeting shall be presided over by the outgoing Chairman or in his absence, or if the period of office of the Chairman has expired by the Vice-Chairman

Provided that should the outgoing Chairman be himself a candidate for election, the meeting shall be presided over by the Vice-Chairman if he is not also a candidate for election

Provided further that if there is no Chairman, and the Vice-Chairman is a candidate for election and also if the Chairman and Vice-Chairman be both candidates for election the meeting shall be presided over by a member of the District Board other than the Chairman or Vice-Chairman who shall be elected by the members of the Board for the purpose of conducting the election of the Chairman The President in such case must be duly proposed and seconded and must not be a candidate for the office of Chairman

3 If only one member is proposed and seconded as President he shall be deemed to be duly elected as such. If more than one member is proposed and seconded, the members present shall decide the election by vote The votes may be taken by voices or by show of hands

4 If the votes for two or more members proposed as President of the meeting are equal then the selection of one of them shall be decided by lot

5 The election of the Chairman of the District Board shall proceed as follows —

(*a*) Any member present may propose a candidate either by name or by virtue of his office for the office of Chairman

(*b*) No candidature shall be taken into consideration unless it has been seconded by a member other than the proposer

(*c*) If one duly nominated candidate duly stands for election the President shall forthwith declare such candidate to be elected

(*d*) When the names of all the candidates proposed and seconded have been ascertained the President shall hand to each member a voting paper in which will have been entered up the names of the candidates who have been duly nominated and shall ask each member to record his vote by placing the mark X opposite the name of the candidate whom he prefers

(*e*) The voting paper shall be invalid if the mark X is placed opposite the name of more than one candidate, or if it is so placed as to render it doubtful to which candidate such mark is intended to apply

(*f*) When the voting has been completed each member shall sign his voting paper and shall hand the same to the President Without such signatures the voting paper shall be invalid

(g) The President shall have the right of participating in the election of the Chairman and shall similarly record his vote

(h) The President, as soon as all the voting papers have been delivered to him, shall produce them openly and read them and shall count the votes The President shall reject any voting paper which is invalid or which has been irregularly filled in, and his decision shall be final

(i) When the counting of the votes has been completed, the President shall declare the candidate to whom the largest number of votes has been given to be elected Chairman

(j) In the case of an equality of votes the President shall have a casting vote

(k) The President shall forthwith report the result of the election to the Commissioner for submission to Local Government for confirmation

(l) Every election made under these rules shall be subject to the approval of the Local Government

(m) A quorum for the purpose of these rules shall consist of half the members of the District Board

No 78, dated Simla the 4th March 1918

NOTIFICATION—By the Government of India, Department of Education

THE Governor-General in Council is pleased to direct that the following shall be added to Appendix C to the Ecclesiastical Rules published with the Department of Education Notification No 212, dated the 10th May 1913 —

Rules regulating the provision of electric installations for the lighting and ventilation of Churches.

I Towards the initial outlay of electric lights and fan installations Government will pay not more than—

Rs 300 per 100 sittings for lights,
" 540 per 100 sittings for fans,

subject to the following conditions —

(a) for sittings not reserved by Government the Government contribution will be limited to half the actual cost, subject to the maxima of—

Rs 150 per 100 sittings for lights,
" 270 per 100 sittings for fans,

(b) for sittings reserved by Government for military, railway, or other Government servants the full proportionate cost will be paid by Government, subject to the maxima of Rs 300 and Rs 540 per 100 sittings for lights and fans respectively

II The cost of current will be paid by the Church authorities or congregations, except where sittings are reserved by Government for military railway, or other Government servants, in which case Government will pay a proportionate share of the cost of current subject to the following maxima —

For lighting —5 B T units per 100 reserved sittings per mensem
For fans —12 B T units per 100 reserved sittings per mensem during the recognized punkah season

III The installations will be maintained by Government who will bear all expenses in connection with repairs, maintenance and renewals (except the renewals of bulbs), but for such sittings as are not reserved by Government the Church authorities or congregations will pay yearly to Government a sum equal to 4 per cent of the initial cost of the installation for those sittings

These charges will be payable in the first month of each year

IV These rules apply only to cases where current is available from a public supply and not to self-contained installations

V The prior sanction of the Government of India must be obtained for all electric installations

VI Where Government at present makes a recurring allowance towards the cost of lighting such allowance will be continued

VII Those rules apply primarily to Churches which are the property of Government But the Government of India have power to make contributions at rates not exceeding those prescribed in the foregoing rules to Churches which are not the property of Government but to which Government make grants under the Ecclesiastical rules or towards the cost of construction of which Government have made contributions

No 32Marine—Notification—In exercise of the powers conferred by section 36 of the Indian Steamships Acts 1884 (VII of 1884) and in supersession of the rules published under Notification No 172Marine, dated the 30th December, 1913, as subsequently amended the Governor in Council is pleased to make, with the previous sanction of the Governor General in Council, the following rules to regulate the granting of certificates of competency to Engineers under the said Act

F A A COWLEY,
Secy to the Govt of Bengal

RULES

CHAPTER I

GENERAL RULES

1 **Certificates of Competency granted to persons who pass requisite Examinations**—Certificates of Competency will be granted to those persons who pass the requisite examinations and otherwise comply with the requisite conditions For this purpose Examiners have been appointed and arrangements have been made for holding the examinations whenever necessary at the port of Calcutta

2 **How to Apply**—Candidates for examination must fill up a form of application (form Exn 3) and pay the appropriate fee at the Port Office This must be done at least sufficiently early to ensure the form properly filled in, together with the candidate's Certificate of apprenticeship, testimonials discharges etc, being lodged with the Port Officer not later than three days before the day of examination As discharges and testimonials may have to be verified, it is desirable that they should be handed in together with the form of application as many days as possible before the date of the examination which the candidate desires to attend In the absence of the necessary verification the candidate cannot be examined

In all cases in which certificates of discharge in the home or other trade which have not been officially issued at a Mercantile Marine Office are produced as evidence of any part of a candidate's qualifying service they should be submitted to the Port Officer for verification

3 **Gaps in Service**—The Examiner should be particularly careful to ascertain that there are no gaps in the candidate's service during which his conduct is not properly accounted for before he is allowed up for examination

4 **Calculation of Service**—The candidate's service, as shown on his discharges, should be reckoned by the calendar month, *i e* the time included between any given day in any month and the preceding day of the following month both inclusive The number of complete months from the commencement of the period, ascertained in this way, should be computed, after which the number of odd days should be counted The day on which the agreement commences as well as that on which it terminates should both be included, and all odd days should be added together and reckoned at 30 to the month

5 **Service must be verified**—Service which cannot be verified by proper entries in the Articles of Agreement of the ships in which the candidates have served cannot be counted

6 **Application in Special Cases**—In cases where the services of a candidate require verification or where he is in doubt whether his servic

complies with the regulations and wishes to submit his case for special consideration, all certificates, discharges and testimonials together with the form of application,* properly filled in, should be submitted to the Port Officer who will either deal with the case or transmit it to the Government for decision.

7. **Inquiries.**—All other inquiries regarding examination should be made and dealt with in the same way. The point on which information is sought should be clearly stated and certificates, discharges, testimonials, etc., should be forwarded when they are material to the inquiry.

8. **Age.**—Should any doubt exist as to the age of a candidate, he will be required to produce a certificate of birth.

9. **Testimonials Shore Service.**—All candidates will be required to produce in addition to the official discharge certificates testimonials as to their workshop service and as to their service at sea. The testimonials as to workshop service must be signed by the employer and must testify to the candidate's conduct and ability and state what kind of work he was engaged on (*e.g.*, fitting, erecting, turning, machine work, etc.) and for how long. (*See* rule 35.)

10. **Testimonials Sea Service.**—It is desirable that the whole of the candidate's sea service should be covered by testimonials certifying to his sobriety, experience, ability and general good conduct, but in future the usual testimonials will be required for at least the last 18 months at sea preceding the date of the application to be examined. They must be signed by the Master and Chief Engineer or in the case of testimonials to Chief Engineers by the Superintending Engineer, and must clearly state whether the applicant was on regular watch and in regular charge of a watch on the main engines or boilers, also if not engaged on both engines and boilers the length of time he served on each separately. It is desirable that testimonials of candidates should be endorsed by the Superintending Engineer.

If in any case testimonials appear to have been withheld for improper or inadequate reasons, full particulars should be reported by the Port Officer to the Government.

11. **Further as to Testimonials.**—In cases where a testimonial from the Chief Engineer or from the Master, is for any sufficient reason not obtainable, one may be submitted from the Superintending Engineer in place of that of the Chief Engineer and from the Marine Superintendent in place of that of the Master, or from the Managing Owner or Secretary or Chairman of a large Company in place of either or both, but in every such instance the testimonial must declare that the facts stated are in accordance with the reports made by the Chief Engineer or the Master, as the case may be, or else that the facts are within the writer's personal knowledge.

12. **Penalty for Misconduct.**—Candidates who have neglected to join their vessels after having signed Articles, or who have deserted their vessels after having joined, or who have been found guilty of gross misconduct, will be required to produce satisfactory proofs of two years' subsequent service and good conduct at sea, unless the Government, after having investigated the matter, should see fit to reduce the time.

13. **Physical Defects.**—When a candidate is observed to be hard of hearing or is labouring under any other obvious physical defect the signatories of his testimonials are required to mention that defect specifically, and to state whether it in any way interfered with the efficiency of the candidate as an engineer on watch. When these modified testimonials are such as to completely satisfy the Examiner that the defect is not such as to interfere with the efficient discharge of the applicant's duties as engineer, the examination shall be proceeded with, otherwise the case shall be referred to the Government. Candidates afflicted with nervous impediment in speech may write their answers to *viva voce* questions.

* Form LXII-3 which can be obtained at the Port Office.

14 **Foreign Service**—The testimonials of service of foreign or British engineers serving in foreign vessels, which cannot b verified by the Port Officer, must be confirmed either by the Consul of the country to which the ship in which the candidate served belonged, or by some other recognized official authority of that country, or by the testimony of som credible person on the spot having personal knowledge of the facts required to be established The production however, of such proofs will not of necessity be deemed sufficient Each case must be decided on its own merits, and if the sufficiency of the proofs given appears to be at all doubtful, the point must be referred to the Government

15 **Foreign Engineers must know English**—Foreign Engineers must prove to the satisfaction of the Examiners that they can speak and write the English language sufficiently well to perform the duties required of them on board a British vessel In every case before failing a candidate for insufficient knowledge of the English language the Examiner should refer the matter to the Port Officer

16 **Issue of Certificate**—If the candidate passes he will receive a form (form Exn 16) authorising the Port Officer to whom it is addressed to issue the certificate The candidate's testimonials and other papers will be returned to him when the examination is finished It is therefore important that the port at which the Certificate is to be issued should be the same on both the form Exn 16 and the form of application, Exn 3 If circumstances should make any alteration necessary, the Examiner should see that it is made in both forms otherwise delay in the issue of the Certificate may be caused

17 **Service found to be insufficient**—If after a candidate has passed the examination it is discovered on further investigation that his services are insufficient to entitle him to receive a Certificate of the grade for which he has passed the Certificate will not be granted to him, but if the Port Officer is satisfied that the error in the calculation of the candidate s services did not occur through any fault or wilful misrepresentation on his part he may either have the fee returned to him or have it placed to his credit Should his services entitle him to a certificate of a lower grade it may be granted to him, and the difference if any between the fee paid by him for the superior Certificate and the fee payable for the inferior Certificate will be returned to him or placed to his credit The superior Certificate will not be granted until the candidate has performed the amount of service in which he was deficient, and has been re-examined in all the subjects, unless the Government see fit to dispense with the re-examination

18 **Fee must be paid**—Candidates for examination, in making their application on the form Exn 3 will be required to pay the examination fee before any step is taken towards inquiring into their services or testing their qualifications, etc If the candidate is found not to be qualified, the fee will either be returned to him or placed to his credit until he is qualified

19 **Payment of Fees, and Penalty for offering Gratuity**—The fee for examination must be paid to the Port Officer If a candidate offers a gratuity to any servant of the department, he will be regarded as having committed an act of misconduct, and will be rejected, and not allowed to be examined for twelve months, either at the port where the offence was committed or at any other port

20 **Fees not returned on Failure**—If a candidate fails in his examination no part of the fee he has paid will be returned to him

21 **Table of Fees**—The fees are as follow —

	Rs	A	P
Second-class Engineer s Certificate	15	0	0
First-class Engineer's Certificate	30	0	0
First-class Engineer's Certificate, if the candidate holds a Second class Certificate of Competency granted by the Board of Trade or by the Government of a British Possession under the Merchant Shipping Act	15	0	0

22 **Copy of lost Certificate**—An applicant for a certified copy of a lost Certificate, either of Competency or Service, must fill in a form of application, (from Exn 23), giving the particulars required, and hand it to the Port Officer A declaration as to the circumstances in which the Certificate was lost must be made by the applicant before a Magistrate

No fee will be charged

CHAPTER II

QUALIFICATIONS REQUIRED FOR THE VARIOUS GRADES

Ordinary Certificates

23 **Value of Ordinary Certificates**—*Until January 1st 1922*, Ordinary Certificates will entitle the holders to go to sea in the grade certified as Engineers of any vessel in the British Mercantile Marine after that date they will not be available on ships propelled by internal combustion engines unless endorsed for the purpose (*See* rule 31)

24 **Second-class Engineer**—A candidate for a Second-class Engineer Certificate must not be less than 21 years of age

(*a*) He must have served as an apprentice Engineer for four years in Europe or five years in India at least, and prove that during the period of his apprenticeship he has been employed in the manner set forth in rule 34

Journeyman s time will be considered as equivalent to apprenticeship

Every applicant must produce testimonials of ability as a practical Engineer to the satisfaction of the Port Officer

If the candidate has served as an apprentice Engineer or as journeyman, under the conditions above prescribed for less than four years in Europe or five years in India he will be required to make up the deficiency or to complete the equivalent of four years European apprenticeship by service as Engineer at sea on regular watch on the main engines or boilers (1) of a foreign-going steamer of not less than 66 nominal horse-power or (2) of a home-trade steamer of not less than 66 nominal horse-power such service to be counted as equivalent in the case of (1) to two-thirds and in the case of (2) to four-ninths, of service as apprentice Engineer or as journeyman

If the candidate has not served at all as apprentice Engineer or as journeyman, he will be required to have served at sea in lieu thereof, as Engineer on regular watch on the main engines or boilers, six years in a foreign going steamer of not less than 66 nominal horse power, or nine years in a home-trade steamer of not less than that power

(*b*) In addition to the apprenticeship as above described, or the alternative sea service the applicant must have served eighteen months at sea as Engineer on regular watch on the main engines or boilers of a foreign-going steamer of not less than 66 nominal horse-power, or twenty-seven months in a home-trade steamer of not less than that power (*See also* rules 47 48, 49 and 50)

(*c*) He must write a legible hand and have a good knowledge of arithmetic up to and including vulgar and decimal fractions and square root He must also be able to apply these rules to questions relating to safety valves, coal consumption consumption of stores capacities of tanks bunkers etc and other similar problems, and be able to calculate the suitable working pressure for a steam-boiler of given dimensions and the stress per square inch in crank and tunnel shafts and other parts of the machinery when the necessary data are furnished

(*d*) He must be able to pass a creditable examination as to the various designs of paddle and screw engines in general use, including turbines and as to the details of the different working parts, external and internal and the use of each part

(*e*) He must have a satisfactory knowledge of the methods of construction of engines and boilers as used in the workshop, and of the attention required by the different parts of the machinery on board ship

(*f*) He must be able to give a satisfactory description of boilers and the methods of staying them, together with the use and management of the different valves, cocks, pipes and connections

He must understand the precautions necessary to be taken when raising steam in boilers and when opening stop valves to admit steam to pipes, etc

(h) He must understand how to make good the results of ordinary wear and tear to the machinery, how to correct defects from accident, decay, etc, and how a temporary or permanent repair could be effected in case of derangement or total breakdown

(i) He must understand the use of the water gauge, pressure gauge, barometer thermometer and salinometer, and the principles on which they are constructed

(j) He must be able to state the causes, effects, and usual remedies for incrustation and corrosion

(k) He must be able to explain the methods of testing and altering the setting of the slide valves, and the methods of testing the fairness of shafts and adjusting them

(l) He must understand the construction and working of evaporators, feed filters and feed heaters

(m) He must understand the construction and working of centrifugal, bucket and plunger pumps, and the principles on which they act

(n) He must understand the construction and working of steering engines, electric light engines and dynamos, electric motors, refrigerating machinery, hydraulic machinery, and such internal combustion engines as are used to drive ships' launches emergency and auxiliary machinery on board ship

(o) He must possess a creditable knowledge of the prominent facts relating to combustion heat and steam

(p) He must be able to take off and calculate indicator diagrams and understand the distribution of the steam in the cylinder as shown thereby

(q) He must be able to make a dimensioned working sketch or drawing of some simple part of the machinery *

2) **First class Engineer**—A candidate for a First-class Engineer's Certificate must be not less than 22½ years of age

(a) He must—

(1) have served at sea for 18 months, with a Second-class Certificate of Competency or Service on regular watch on the main engines or boilers of a foreign-going steamship of not less than 99 nominal horse-power as Senior Engineer in charge of the whole watch (*see* rule 39), or

(2) have served at sea for two years and three months, with a Second-class Certificate of Competency or Service, as First Engineer of a home trade steamer of not less than 99 nominal horse-power or three years with a Second-class Certificate of Competency or Service, as Second Engineer of a home-trade steamer of not less than 99 nominal horse-power or

(3) have served three years and nine months, with a Second-class Certificate of Competency or Service as Third or Fourth Engineer of a home-trade steamer of not less than 99 nominal horse power, and during the entire period have been the Senior Engineer in charge of the whole of a watch on the main engines and boilers (*see also* rules 17, 49 and 50), or

(4) possess, or be entitled to, a First-class Certificate of Service

(b) He will be required to show a superior knowledge of all the subjects specified in rule 24, clauses (c) to (q), inclusive

(c) His knowledge of arithmetic must include the mensuration of surfaces and solids and the extraction of square and cube roots and the application of these rules to questions relating to the power, duty and economy of engines and boilers, and to the stresses in the rods, shafts and levers of the engine He should also be able to calculate the effect of the application of the lever, pulley inclined plane, and other mechanical powers

(d) He will be required to make an intelligible hand sketch, or a working drawing, of one or more of the principal parts of a steam-engine, boiler or other part of the machinery, and to mark upon it all the necessary dimensions in figures, so that the sketch or drawing could be worked from *

* *See* Appendix C

(e) He must be able to calculate safety-valve pressures and the strength of the boiler shell and riveting, and of the furnaces, flat surfaces and stays

(f) He must be able to state the general proportions borne by the principal parts of the machinery to each other and to calculate the direct stress, the torsional stress and the bending stress in round bars and the direct stress and the bending stress in rectangular bars with given loads

(g) He must be able to take off and calculate indicator diagrams, and to recognise and know how to correct defects in the working of the engine caused by a faulty distribution of the steam in the cylinders as shown thereby

(h) He must be able to explain the method of testing and altering the setting of the slide valves, and to sketch approximately the difference any alteration in the slide valve will make in the indicator diagram

(i) He must be conversant with the principles and practice of surface condensation superheating and the working of steam expansively

(j) He must understand the construction and working of, and be able to maintain in working condition, the auxiliary machinery which may be placed under his charge, viz refrigerating machinery electric light engines and dynamos, electric motors hydraulic machinery the various descriptions of steering engines, and internal combustion engines as used in launches and for auxiliary and emergency machinery on board ship etc

(k) He must know how to provide against defects and breakdowns of the machinery, and be able to direct and carry out any ordinary repairs that may be required either to the engines or the boilers

26 **First class Certificates without Second**—The Government may see fit to allow an applicant who, in consequence of service abroad has had no opportunity to obtain Second-class Certificate to be examined for a First-class Certificate although he does not possess a Certificate of the lower grade provided he is able to satisfy them as to the satisfactory character of his services but these must be ample both as regards length and experience As a rule, at least four years sea service a fair proportion of which must have been in a responsible capacity and qualifying for a First-class Certificate will be required

If any such candidate fails to pass the examination for the First class Certificate, but passes that for the lower grade he may be given a Second-class Certificate of Competency but no part of the fee will be returned If he fails in practical knowledge he may be re-examined for a Second-class Certificate only, subject to the usual regulations relating to such failures

This rule applies equally to Motor Engineers Certificates (*See* rule 30)

CERTIFICATES FOR ENGINEERS OF SHIPS PROPELLED BY INTERNAL COMBUSTION ENGINES (MOTOR CERTIFICATES)

27 **Value of Motor Certificates**—These certificates will entitle the holders to go to sea in the grades specified as Engineers of any vessels in the British Mercantile Marine propelled by internal combustion engines using oil, spirit, gas or other similar substance as fuel, but are not available for service in steamships except when endorsed as hereinafter provided

28 **Second class Motor Engineer**—A candidate for a Second-class Motor Certificate must not be less than 21 years of age

(a) He must have served for at least four years in Europe or five years in India as an apprentice or journeyman Engineer Not less than two years in Europe or three years in India of this service must have been spent at fitting erecting or repairing internal combustion engines The remaining two years may be occupied on the same kinds of work, or spent at an approved technical school, or in work on internal combustion engines at one of the other branches of the trade named in rule 34, with the allowances specified therein

Service as journeyman will be considered as equivalent to apprenticeship but no time served before the age of 15 is reached will be accepted

Workshop service other than the above may be accepted if it is considered useful training for a Motor Engineer, but all such cases must be

submitted to the Examiner of Engineers for consideration before the candidate is examined, and at least an additional three months of qualifying service on marine internal combustion engines, either in the works or on regular watch in the main engine-room of vessels propelled by these engines, must have been performed in respect of each twelve months of workshop service of this nature, or other than on the making or repairing of internal combustion engines, so accepted If the service is not altogether satisfactory, a longer additional period than that specified may be required

Any deficiency in the requisite four years' workshop service in Europe or five years in India may, as in the case of the ordinary Engineers' Certificates, be made up by service at sea on regular watch in the main engine room of a vessel of not less than 500 indicated horse power or 373 brake horse-power propelled by internal combustion engines If the vessel is a foreign going vessel one and a half times the period of deficiency must be served, and if a home trade vessel two and a quarter times the period of deficiency will be required Thus a candidate who has no workshop service must put in six years in a suitable foreign going vessel or nine years in the home trade in lieu of his apprenticeship

Until January 1st, 1922, workshop service in works where steam-engines, boilers, etc, are made or repaired will be accepted as qualifying as regards service for a Motor Certificate

(*b*) In addition to the workshop service as above described, or the alternative sea service, the candidate must have spent 18 months at sea as Engineer on regular watch on the main engines of a foreign-going ship propelled by internal combustion engines of not less than 500 indicated horse-power or 373 brake horse-power, or 27 months in a similar home trade vessel (*See also* rules 47, 48, 49 and 50)

(*c*) He must write a legible hand and have a good knowledge of arithmetic up to and including vulgar and decimal fractions and square root He must also be able to work out questions relating to spring or lever-loaded safety and relief valves consumption of oil and stores capacities of tanks, bunkers etc speed of vessel and other similar problems, and be able to calculate suitable working pressures for air receivers of given dimensions, and the stress per square inch on crank and tunnel shafts and other parts of the machinery when the necessary data are furnished

(*d*) He must be able to give a clear explanation of the principles on which oil gas or other internal combustion engines work, including the methods of ignition to point out the differences between them and to show by means of illustrative sketches and otherwise that he understands the details of the construction of those in general use

(*e*) He must be familiar with the various methods of supplying air and fuel to the cylinders in the different types of engines the construction of the apparatus for carburetting atomizing or gasifying the fuel, and the means for cooling the cylinders, pistons, etc

(*f*) He must have a satisfactory knowledge of the processes employed in the construction of internal combustion engines in the workshop, and of the methods used in fitting the machinery on board ship

(*g*) He must know what attention is required by the various parts of the machinery, and understand the use and management of the different valves, cocks pipes and connections

(*h*) He must be able to state and describe the chief causes which may make the engine difficult to start and to explain how he would proceed to remedy any defects arising therefrom He must also be able to show that he understands the mechanism of the starting and reversing arrangements, and is competent to deal with defects therein

(*i*) He must understand how to make good the results of ordinary wear and tear to the machinery, how to test the fairness of shafting, etc how to correct defects from accident, decay, etc, and how a temporary or permanent repair could be effected in case of derangement or total breakdown

(*j*) He must understand the construction of the pressure gauge barometer, thermometer, and other instruments used in the engine room, and the principles on which they work

(*k*) He must understand the construction and working of centrifugal, bucket and plunger pumps, and the principles on which they act

(*l*) He must understand the construction and working of air compressors, gas producers steering engines electric light engines and dynamos, electric motors, refrigerating, hydraulic and other auxiliary machinery found on board ship

(*m*) He must possess a good working knowledge of the construction and management of the auxiliary steam boilers and machinery, and be familiar with the prominent facts relating to combustion, heat and steam

(*n*) He must be familiar with the nature and properties of the various oils etc, generally used in internal combustion engines, must understand what is meant by the flash point and have a knowledge of the explosive properties of gas or the vapour given off by these oils, etc when mixed with definite quantities of air and be thoroughly conversant with the danger of exposing such gas or vapour to a naked light, or of allowing any leakage from the oil tanks, particularly into the vessels, bilges, and unventilated spaces, or from gas producers pipes, vaporizers etc

(*o*) He must thoroughly understand the precautions to be taken against fire or explosion from oil or gas, and know how to deal with fire should it break out He should also be familiar with the action of wire gauze diaphragms when placed in pipes and connections to oil tanks, etc, for the purpose of preventing the explosion or ignition of oil vapour therein

(*p*) He must be able to explain the principle construction and arrangement of primary and secondary batteries and induction coils, so far as is necessary for the efficient management of an oil-engine

(*q*) He must be able to take off and calculate indicator diagrams and understand the action of the gas in the cylinder as shown thereby

(*r*) He must be able to make a dimensioned working sketch or drawing of some simple part of the machinery *

29 **First class Motor Engineer**—A candidate for a First class Motor Certificate must not be less than 22½ years of age

(*a*) He must—

(1) have served at sea for 18 months with a Second-class Motor Engineer's Certificate on regular watch on the main engines of a foreign-going ship propelled by internal combustion engines of not less than 750 indicated horse-power or 560 brake horse-power as Senior Engineer in charge of the whole watch, or have been the second senior in a watch of three or third senior in a watch of six or more Engineers and have been in responsible charge of a definite section of the main machinery or

(2) have served at sea under similar conditions in a similar home trade vessel for two years and three months as First Engineer or three years as Second Engineer or three years and nine months as Third or Fourth Engineer (*See also* rules 47 49 and 50)

(*b*) He will be required to display a superior knowledge of all the subjects specified in rule 28 clauses (*c*) to (*r*) inclusive

(*c*) His knowledge of arithmetic must include the mensuration of surfaces and solids and the extraction of square and cube roots, and the application of these rules to questions relating to the power duty and economy of engines, and to the stresses in the rods shafts and levers of the engine He should also be able to calculate the effect of the application of the lever, pulley inclined plane and other mechanical powers

(*d*) He will be required to make an intelligible hand sketch or a working drawing of one or more of the principal parts of an engine or other part of the machinery, and to mark upon it all the necessary dimensions in figures, so that the sketch or drawing could be worked from *

(*e*) He must be able to state the general proportions borne by the principal parts of the machinery to each other and to calculate the direct stress, the torsional stress and the bending stress in round bars, and the direct stress and the bending stress in rectangular bars, with given loads

(*f*) He must be able to take off and calculate indicator diagrams, and to recognise and know how to correct defects in the working of the engines caused by a faulty distribution of the gas in the cylinders, as shown thereby

(*g*) He must be able to explain the effects of altering the points of opening and closing the various valves, and to sketch approximately the difference any alteration in the action of the valves will make in the indicator diagram

* *See* Appendix C

(h) He must understand the construction and working of, and be able to maintain in working condition, the auxiliary machinery which may be placed under his charge, viz, air compressors, refrigerating machinery electric light engines and dynamos, electric motors, hydraulic machinery and the various descriptions of steering engines, etc

(i) He must know how to provide against defects and breakdowns of the machinery, and be able to direct and carry out any ordinary repairs that may be required either to the main engines or to the auxiliary steam or other machinery

(j) He must know how the flash point of an oil is ascertained, and be capable of determining that of any sample experimentally if the necessary apparatus is provided

30 **First class Motor Certificates without Second**—Rule 26 applies equally to Motor Certificates *Until January 1st*, 1922, the holder of a Second-class Ordinary Certificate may be examined for a First-class Motor Certificate without previously obtaining a Second-class Motor Certificate, provided that he proves that he has served for at least 18 months at sea in a capacity qualifying for First-class in a suitable motor vessel and can satisfy the Port Officer as to the general sufficiency of his experience of marine internal combustion engines either in the works or at sea

This permission will carry with it exemption from all the requirements as to workshop service and all other requirements which a candidate for a Second-class Motor Certificate has to comply with, but particulars of all such cases must be submitted to the Examiner of Engineers before any such candidates are allowed to be examined for a First-class Motor Certificate

31 **Endorsement of Certificates**—The holder of an Ordinary Certificate may have it endorsed to the effect that he is competent for service in a motor ship, provided that he complies with the conditions specified for a Motor Certificate of the grade required and passes the appropriate examination The holder of a Motor Certificate may also have it endorsed for service in steamships on corresponding terms

Until January 1st 1922 the holder of a First-class Ordinary Certificate may have it endorsed for service in motor ships if he can prove at least 18 months' sea service in motor ships in a qualifying capacity, and can satisfy the Port Officer as to the general sufficiency of his experience of marine internal combustion engines either in the works or at sea and provided that he passes the appropriate examination Every such case must be submitted to the Examiner of Engineers before the candidate is examined

32 **Notice Required**—Intending candidates should, where possible, give at least a week's notice of their intention to sit for a Motor Certificate

33 **Suspension of Issue of Home Trade Motor Certificates**—The issue of Second-class Certificates for Engineers of Home Trade Passenger Ships propelled by oil-engines is now suspended

34 **Workshop Service**—The workshop service of a candidate for an Ordinary Certificate must have been performed in works where steam-engines, boilers etc, are made or repaired The workshop service of a candidate for a Motor Certificate must have been performed in works where internal combustion engines are made or repaired No time served before the age of 15 will be counted

Not less than two years of the apprentice time in Europe or three years in India must have been spent at fitting erecting or repairing engines and machinery either in the works or outside The remaining two years may be made up of time spent in engine works at fitting, erecting or repairing engines and machinery or at one of the other branches of the trade given below or at an approved technical school (*see* Appendix H), the time so spent to count as follows —

Fitting, erecting, repairing or turning	Full time
Working in drawing office	Full time up to one year, and beyond one year one-half time
Pattern-making ..	One-half time with a maximum allowance of one year
Planing, slotting, shaping and milling	One-third time

Boiler making or repairing	One-half time
Smith work	One-half time with a maximum allowance of one year
Coppersmith work	One-third time with a maximum allowance of six months

In the event of the apprentice time being extended to five years in Europe or six years in India, or more four years at turning *followed* by one year in Europe or two years in India at fitting or erecting may be accepted as qualifying

This rule applies only to works at which the making and repairing of engines boilers etc or the making or repairing of engines boilers, etc forms part of the regular business for which the works exist Service in works where the repairing of engines, boilers etc, is merely incidental to the running of plant, however large which is used for the production of power for other machinery, etc, should be dealt with under rule 35, each case being considered on its merits

35 **Workshop Service other than the above**—Workshop service other than the above may be accepted if it is considered useful training for an Engineer but every such case must be submitted to the Examiner of Engineers for consideration before the candidate is examined For each twelve months of such service accepted the candidate must have performed at least an additional three months service on marine engines (steam engines for an Ordinary Certificate and internal combustion engines for a Motor Certificate) either in the works or on regular watch in the main engine room or on day work at sea If the service is not altogether satisfactory a longer additional period than that specified may be required but if a portion only of the apprenticeship has been spent on work other than that specified in rule 34 the additional service named above will only be required in respect of that portion

This rule applies to service on internal combustion engines by a candidate for an Ordinary Certificate and to service on steam-engines by a candidate for a Motor Certificate *Until January 1st* 1922 however workshop service in works where steam engines, boilers etc, are made or repaired will be accepted as qualifying for a Motor Certificate

36 **Service in Colonial and Foreign Workshops**—Rules 34 and 35 apply to service in the United Kingdom and India only Service in a Colonial or foreign workshop will not be accepted unless the Examiner is satisfied in each case that its value is substantially equivalent to that of service performed in the United Kingdom or India In cases where the Examiner is not satisfied that the value is equivalent he will refer the matter to Government for decision

37 **Technical Schools**—Time spent after the age of 15 at a technical day school (recognised by the Government as suitable) where there is an engineering laboratory may be taken into account and accepted as equivalent to artisan service usually at the ratio of three years in the technical school to two in artisan service, provided that the applicant has taken the full engineering course and can produce the Principal's certificate for regular attendance at all the approved classes and for satisfactory progress and provided also that the remaining portion of the time has been spent in works where engines, boilers etc, are made or repaired, in accordance with the scale of values indicated above

Time spent in attending evening classes in Engineering at approved technical schools will similarly be allowed to count under the following conditions —

(1) Each candidate claiming an allowance for time spent in attending evening classes at a technical school must produce a certificate signed by the Principal of the school to the effect that he has attended regularly at a definite class or classes, which should be specified and has made satisfactory progress This certificate must also state the total number of hours spent by the candidate in attending each class

(2) Time spent by the candidate in attending such classes as have a direct bearing on the training of a Marine Engineer will be reckoned at the rate of five hours to one day The total number of days so obtained will then be accepted in lieu of a certain

fraction of the same period of workshop service This fraction will be fixed for each school at the time of approval, and will generally be two-thirds

(3) A candidate who has attended a technical school in the evening, while being employed as an apprentice or journeyman Engineer during the day, must in order that the school time may be accepted, produce satisfactory proof that he has spent the full working day in the works at which he is employed, before attending the school Such proof will usually take the form of a statement in the testimonial as to workshop service given by the employer

(4) Allowance will only be given for classes attended after the candidate has reached the age of 15

Time spent in foreign technical schools can in no circumstances be recognised

For list of approved technical schools and time allowed for attendance at each *see* Appendix H

38. **Sea service**—The sea-service required by these rules is, unless otherwise stated service performed in foreign-going ships of at least the horse-power specified for the respective grades of Certificate The nominal horse-power, as given on the Certificate of Registry of a steamship may in all cases be accepted by the Examiners

Service in a qualifying capacity in a motor ship (of the horse power required in the case of Motor Certificates) may be accepted as forming part of the 18 months sea-service in steamships required for an ordinary First-class or Second-class Certificate, an allowance of half the time so served being given with a maximum allowance of 6 months Qualifying service in steamships of the required horse-power will be accepted on similar terms as part of the sea service required for a Motor Certificate

39 **Qualifying Service defined**—In the case of candidates for First-class Certificates qualifying service means, as a rule, service on regular watch on the main engines or boilers as Senior Engineer in charge of the whole watch When however three or four Engineers are on watch at the same time the service of the two seniors may be allowed to count, and when not less than six Engineers are on watch together that of the three seniors, provided a certificate from the Superintending Engineer is produced stating the number of Engineers on watch, the rank held by the applicant and that he was in charge of a watch on a definite section of the main engines or boilers During the whole of the period claimed, candidates must have been in possession of Second-class Certificates

In the case of candidates for Second-class Certificates qualifying service means service as Engineer on regular watch on the main engines or boilers In no case will time spent in clerical or day work be allowed to count as sea service

All candidates for Ordinary Certificates including those for First-class who have not been in charge of the whole of a watch but qualify under this rule as the second or third senior of the watch and have been in charge of a section of the machinery only will be required to have served at sea on regular watch on both the main engines and the boilers not less than six months being spent on each

40 **Further as to Qualifying Service**—Only such service as gives the experience required to make a man thoroughly competent as a sea-going Engineer is accepted as qualifying service Even for a Second-class Certificate the candidate must prove to the satisfaction of the Examiner that he is qualified by experience and knowledge to act as Chief Engineer in an under powered vessel on a voyage, say, from India to Egypt, taking full responsibility for engines, boilers and machinery

41 **Marine Technical Schools**—A candidate for either a Second-class or a First-class Ordinary or Motor Certificate, who, within two years from the date of application to be examined, has attended an approved course comprising general mathematical and scientific instruction at a technical school recognised by the Government as suitable for the training of *Marine* Engineers will be allowed to count time so spent as equivalent to sea service in the ratio of three months at the technical school to two months at sea Time so spent cannot be accepted as equivalent to more than one-sixth of the total sea service required for either Certificate, but a candidate who has been allowed to count such time on examination for a Second-class Certificate

will not be debarred from counting similar subsequent time on applying for examination for a First-class Certificate

In every case in which an allowance is made for time spent at a marine technical school, the candidate will be required to produce the Principal's certificate for continuous and regular attendance at all the approved classes and for satisfactory progress

The candidate must also produce his class note books, which will be forwarded to the Examiner of Engineers in order that he may satisfy himself that the candidate has followed the approved course of instruction, and that the remission of sea service claimed may be allowed accordingly

Application for examination of candidates claiming remission of sea service should, as a rule be made at least a week before they desire to sit

A list of the marine technical schools recognised for this purpose is given in Appendix II

42 **Recognition of Study by Engineers interned in Germany and elsewhere** — The Government will accept time spent by a candidate for a First-class or Second class Ordinary or Motor Certificate in attending courses of lectures or classes at Ruhleben or other internment camp in lieu of a portion of the sea service required to qualify him for the Certificate, subject to the following conditions —

(1) If nine hours a week are spent in attending lectures or classes, five weeks spent in this way will be accepted in lieu of one week's sea service If eleven hours a week are spent in this way four weeks will be accepted as one week's sea service In no circumstances can a remission of more than three months' sea service be made

(2) The lectures must form part of a definite course of study which may be regarded as useful training for a Marine Engineer

(3) The candidate must produce a certificate signed by the Lecturer or by some other recognised Officer of the camp, that he has attended regularly and has profited by the instruction given If possible the candidate should also produce his note books

Every case in which an allowance is claimed under this rule must be submitted to the Examiner of Engineers

43 **Foreign Engineers** —Foreign Engineers cannot be examined for a First-class Certificate unless they have performed the sea-service stated in rules 25 and 29 respectively, with the requisite Certificate The service may have been performed in foreign vessels if the candidate can produce satisfactory testimonials as to conduct and character and is able to prove that the service has been in the required capacities and that during the period of service he has held a Certificate of Competency of the rank required by these rules (*See* rule 14)

44 **Names on Articles** —In all cases the candidates' names must have been duly entered on the ship's Articles as Engineers in their proper ratings

45 **Regular Watch** —Being on regular watch means being on watch for at least eight hours each day

46 **Home-trade Service** —Service in the home or coasting trade is regarded as being equivalent to two-thirds of the same period of time served in the foreign trade except where other allowances are specified [*see* rules 25 (*a*), (2) and (3) 29 (*a*) (2), 47, 49 and 50] In the case of Indian coasting voyages extending beyond a distance of 500 miles from the port of departure in steamships commanded by masters holding foreign going certificates such service will count as foreign-voyages, and will be reckoned as full time but the time spent in the port of departure or Home port will not be allowed to count In all cases the length of service is deemed to commence on the date of sailing from the port of departure or Home port and to end on the date of arrival at the Home port Such service must be vouched for in the form laid down in Appendix J

47 **Lake or River Service** —Service as watch-keeper on a lake or river vessel of not less than the required horse-power may be accepted under the following conditions for either an Ordinary or a Motor Certificate —

(*a*) the service will only count half as much as sea service, *i.e.*, every two months of lake or river service is only equivalent to one month's foreign-going sea service ,

(b) candidates for Second-class Certificates must prove that, in addition to lake or river service, they have had at least three months' qualifying service at sea in a foreign-going ship of not less than the horse-power specified in rules 24 and 28 or four and a half months' similar service in the home trade ,

(c) candidates for First-class Certificates in addition to lake or river service in vessels of not less than the horse-power named in rules 25 and 29 must prove that they have had at least six months' qualifying service at sea, with a Second-class Engineer's Certificate, in foreign-going vessels of not less than the horse-power specified, or nine months' similar service in the home trade

48 **Service in Auxiliary Screw Ships**—Service as Engineer performed on board auxiliary screw whalers and other vessels with auxiliary power of not less than that required for a Second-class Certificate may be allowed to count as qualifying for examination for a Second-class Engineer's Certificate to the extent of one-half the time the vessel is actually at sea If the candidate is able to prove that the main engines were running for longer than this, he will be allowed to count the whole of such extended time

49 **Service in Dredgers, Fishing-boats, Tug-boats, or Pilot-vessels.**—Service in sea-going dredgers, fishing-boats, or tug-boats, and in sea-going pilot-vessels when on their station or when going to or returning from the same, may be accepted under the following conditions —Two months of such service is only equivalent to one month's qualifying service in a foreign-going vessel Candidates for Second-class Certificates may perform all their sea service in sea-going dredgers, fishing boats, tug-boats, or pilot-vessels, but they must have been on regular watch on the main propelling machinery and the horse-power of the vessels must not be less than that required Candidates for First-class Certificates must, while in possession of a Second-class Certificate, have served in vessels of at least the horse-power named in rules 25 and 29, and have been in charge of the whole of a watch on the main machinery They must also have served in a qualifying capacity for not less than six months in a foreign-going ship, or nine months in a home-trade ship This rule will not apply to service on the steam pilot-vessels at the Sandheads Service on the regular watch on board such vessels for the period the vessels are on the station or when going to or returning from the same, shall be accepted as equivalent to two-thirds of the time performed in foreign-going trading vessels, as in the case of steam yachts

Where an Engineer is employed on a fishing or other vessel and is required to do stoking or other work not usually performed by an Engineer in the Mercantile Marine, such service cannot be accepted as qualifying

The Port Officer will in all cases satisfy himself that service on fishing boats, when claimed as qualifying for a certificate as Engineer is of a similar nature to that performed by Engineers in the Mercantile Marine

50 **Service in Yachts**—Service performed in yachts, either within or beyond home-trade limits, may be accepted as equivalent to two-thirds of the time performed in foreign-going trading vessels, provided that the candidate's name is entered on the vessel's Articles, and that he can prove, to the satisfaction of the Port Officer that the time claimed was actually served at sea

Candidates for Second-class Certificates may perform all their service in yachts but the candidate must have been on regular watch on the main machinery, and the vessel must be of not less than the horse-power stated in rules 24 and 28

Candidates for First-class Certificates must have served on vessels of the requisite horse-power, and must have been in regular charge of the main machinery They must also have served for at least three months in a qualifying capacity on board a suitable foreign-going ship This additional service will however, not be required in the case of a candidate who has served for 27 months as First Engineer, or for three years as Second Engineer of a yacht of the requisite power

51 **Certificates of Service**—An officer who has attained the rank of Engineer Lieutenant or Engineer Sub-Lieutenant in His Majesty's Navy, or in the Royal Indian Marine, is entitled without examination, if an Engineer Lieutenant, to a Certificate of Service as First-class Engineer, and if an Engineer Sub Lieutenant to a Certificate of Service as Second-class Engineer These officers may be examined for a Certificate of Competency on the same conditions as Engineers of the Mercantile Marine

An officer who has attained the rank of Chief Artificer Engineer in His Majesty's Navy is also entitled without examination to a Certificate of Service as Second-class Engineer

52 **Examination of Engine room Artificers.**—Artificer Engineers, Chief Engine-room Artificers, Engine-room Artificers and Mechanicians in the Royal Navy may be examined for Certificates of Competency on the same conditions as Engineers of the Mercantile Marine

53 **Application by Naval Officers**—The Lords Commissioners of the Admiralty have directed that applications from officers of the Navy for Certificates of Service or for permission to be examined for Certificates of Competency must, in the case of officers on the active list, be made through the Commanding Officer to the Secretary to the Admiralty, and in the case of officers who are on half-pay or who have retired direct to the Secretary to the Admiralty who in either case will forward the applications to the Port Officer

It is not necessary for applications of Chief Engine-room Artificers and Mechanicians, who have left the Royal Navy and who desire to be examined for Certificates of Competency as Engineers in the Mercantile Marine, to be forwarded either through their Commanding Officers or through the Admiralty Men who are still serving in these ratings in the Royal Navy should make their applications through their Commanding Officers

Artificer Engineers however, being Warrant Officers, should make their applications in the same manner as that laid down for other officers of the Royal Navy

54 **Masters' and Mates' Examination in Steam**—Particulars of the examination of Masters and Mates in steam will be found in Appendix E

55 **Certificates**—The term 'Certificate" in these rules includes a Certificate issued by the Board of Trade or by a British Possession under Order in Council in accordance with section 102 of the Merchant Shipping Act 1894 A list of the Colonial Certificates issued under Order in Council is given in Appendix F and the holder of a Certificate so issued must not be examined in Bengal for a Certificate of the grade already held

56 **Colonial Local Certificates**—The holder of a Colonial Certificate of Competency not granted under the Merchant Shipping Act or of a Certificate granted after examination on board one of His Majesty's ships, who wishes to be examined for the Government of Bengal Certificate of the same grade, must prove that he has performed the amount of service required by these rules for that grade, and complied with the conditions laid down as to testimonials

All Colonial Certificates of Competency, whether local or issued under Order in Council, must be given up before a further Certificate is issued by the Government of Bengal

CHAPTER III

CONDUCT OF THE EXAMINATIONS

57 **Commencement and Duration of Examinations**—The examinations will, as a rule commence at 10-30 A M and will be continued from day to day until all the candidates are examined

58 **Candidates to be Punctual**—Candidates are required to appear at the examination room punctually at the time appointed

59 **Tables to be Cleared**—Before commencing the examination, the tables and desks must be cleared of all scraps of paper, or books that are not used in the examination, and care should be taken that the candidates while in the examination room do not have in their possession any book or paper

60 **Strangers not Admitted**—No persons will be allowed in the rooms during the examinations other than those whose duties require them to be present

No instructors will be allowed on the premises

61 **Face Sheet and Blotting Paper**—At the commencement of the examination the working paper, containing the rules, should be given to each of the candidates and they should be instructed to read the rules A sheet of blotting paper will be issued to each candidate with the first examination paper, and it must be returned to the Examiner when the last paper is completed each day The Examiner will be careful to see that the blotting

paper has not been used by the candidate in solving his problems, or for conveying information to other candidates

62 **All Work to be Shown**—No candidate will be allowed to work out his problems on a slate or on waste paper, or to write on the blotting paper supplied for his use in the examination Violation of this rule will subject the candidate to all the penalties of failure

All worked papers must be signed and dated and the name of the port of examination inserted by the candidate

Additional sheets of paper will be supplied by the Examiner if required, but they must be attached to and form part of, the examination papers

63 **Books and Papers Strictly Forbidden**—All books necessary for the use of candidates under examination will be provided by the Port Officer and candidates are prohibited from bringing into the examination room books or papers of any kind whatever The slightest infringement of this rule will subject the offender to all the penalties of failure, and he will not be allowed to present himself for re-examination for a period of three months

64 **Drawing Instruments**—All candidates have to pass an examination in working drawing which may, at the candidate's option, consist either of hand sketches clearly dimensioned and complete in the necessary views and sections or of drawings to scale (*see* Appendix C) Drawing boards and T squares will be provided by the Board of Trade, but the applicants will have to bring with them any drawing instruments they may require

65 **Candidates Places**—Candidates should be so placed as to prevent one copying from another, and no communication whatever between the candidates should be allowed

66 **Leaving Room or Building**—No candidate may leave his seat or the examination room without permission and, in the latter case without giving up the paper on which he is engaged In no circumstances will the same paper be returned to him, but the Examiner may substitute other questions

67 **Injury to Books**—If a candidate defaces blots, writes in, or otherwise injures any book or form belonging to the Port Office his papers will be retained until he has replaced the damaged book or document He will not be allowed to remove the damaged book or document, and will be subjected to all the penalties of failure

68 **Silence**—Perfect silence is to be preserved in the examination room

69 **Order of Examinations**—The examination of candidates for both First and Second-class Certificates consists of four parts arithmetic, drawing or sketching, elementary questions, and *vivâ voce* (*See* rules 24, 25, 28 and 29)

70 **Examination Papers**—One set of the arithmetical questions should be given to the candidate for the morning's work at 10-30 A M and one for the afternoon's at 1-45 P M and collected not later than 1 and 4-30 P M

71 **Arithmetic**—When the number of marks obtained in arithmetic amounts to 28 that is, two-thirds of the maximum the candidate passes in arithmetic, if less than 21, he fails

If the marks obtained amount to 21, but not to 28, and if the applicant has had long experience his testimonials and service should be taken into account, and his examination continued, if deemed advisable by the Examiner, and he may be passed if showing sufficient superiority in practical knowledge to compensate for the deficiency in arithmetic

72 **Drawing**—With regard to a candidate's drawing if it is not wholly satisfactory, the examination may be proceeded with so far as the drawing is concerned, and the candidate passed if in the remaining part of it he shows a superiority in practical knowledge If no such superiority is shown and the candidate's practical knowledge is such as would otherwise have been accepted, he should be failed in Drawing, but if it is below the ordinary standard he should be failed in Elementary or Practical Knowledge, as the case may require

73 **Elementary Questions.**—All candidates will be required to fill up form Exn 15*b* (*see* Appendix A) and to give written answers to ten questions which may be selected from Elementary Questions shown in Appendix B, or may be new questions somewhat similar in form and covering much the same ground These questions are intended to test the candidate's knowledge at the time of his examination, and also to furnish evidence as to his handwriting, composition and spelling

The elementary questions will, as a rule, be given on the second or third day of the examination to candidates for Second class, and on the third day to candidates for First-class, but candidates who have time after working the arithmetical papers on the first day or the drawing on the second day may be allowed to go on with the Elementary Questions

Candidates for First-class Certificates are expected to show their superiority by giving answers to the Elementary Questions more complete than those of the other candidates

74 **Viva Voce**—Having regard to the fact that, when the verbal examination is held the candidate has already passed in arithmetic, and in drawing or sketching and has also written answers to the elementary questions, the Examiners should deal with practical, rather than theoretical, questions in this division of the examination, and no candidate should be failed in the verbal examination without having been well cross-questioned on the points for which failure takes place Candidates may, however, if the Examiner is satisfied that the written paper fairly represents their knowledge, be failed in the written elementary paper without being examined *vivâ voce* In cases where the Examiner approves of the elementary paper, but fails the candidate for lack of either practical or elementary knowledge, a written account of the points on which he failed must be forwarded to the Port Officer with the elementary papers and the Report in form Exn 15

It is considered of great importance that Engineers presenting themselves for examination should have an extensive knowledge of the particulars of actual casualties which have occurred at sea, and be able to state how they might have been prevented and how remedied Sometimes an Engineer presents himself who has had no personal experience of any defects, and who can tell nothing about casualties to machinery which have occurred in the experience of others such candidates should be closely questioned as to their knowledge of boiler and engine construction and the repairs of same

Questions on the management of engines and boilers at sea, the duties of the Engineer on watch, the work to be done to the engines boilers, and auxiliary machinery in port, and the periodical examinations of the working parts should form part of the *vivâ voce* examination

75 **Failure in Examination**—If the candidate fails in practical knowledge he may not present himself for re-examination until he can produce proofs of three months' further service at sea in a qualifying capacity as Engineer on watch on the main engines or boilers of a foreign-going steamer, or its equivalent in the home trade (four and a half months) subsequent to the date of failure If he fails in arithmetic, elementary knowledge, or drawing only he may come up again at any time but in all cases of failure any re-examination must begin entirely afresh

Failure in a number of elementary questions involving fundamental principles or in questions ignorance of which might lead an Engineer to do something actually unsafe in the management of any part of a ship's machinery, will be regarded as failure in practical knowledge

76 **Penalty for Copying, etc.**—In the event of any candidate being discovered referring to any book or paper, or copying from another, or affording any assistance or giving information to another, or communicating in any way with another during the time of examination or copying any part of the problems for the purpose of taking them out of the examination room, he will subject himself to all the penalties of failure, and will not be allowed to be again examined for a period of six months

In the event of the offence being repeated double the penalty specified will be enforced

77 **Penalty for Breach of Rules**—Any candidate violating any of the rules, or being guilty of insolence to the Examiner, or of disorderly or improper conduct in or about the examination room, will render himself liable to the postponement of his examination, or, in the event of his having passed, to the detention of his Certificate for such period as the Government may direct

78 **Reports of Examinations**—Reports of Examinations on the form Exn 15, together with the examination papers and form Exn 37, the candidate's application to be examined (form Exn 3) duly filled up, and his previous certificate, if any, should be forwarded to the Port Officer, immediately the examinations are completed

APPENDIX A

[See rule 73]

Form to be filled up by all candidates at the examination

Form Exn 15b

Port	Class for which examined
Date	Candidate's Name

A Where and how long did you serve in works at the making or repairing of engines and boilers?

B How long and in what capacity did you serve in works on shore other than at the making or repairing of engines and boilers?

C How long have you served in the engine-room at sea and in what capacities?

D With what descriptions of engines have you served at sea? What sizes were the engines?

E With what descriptions of boilers have you served at sea?

F What engine defects or defects to auxiliary machinery, have come under your notice what caused these defects and how were they remedied? Give the names of the steamers for verification *

G What boiler defects have come under your notice, what caused these defects and how were they remedied? Give the names of the steamers for verification *

* It is not necessary that the casualties or defects described should have occurred within your own personal experience you should however give a full and complete description of those you select

APPENDIX B

[See rule 73]

ELEMENTARY QUESTIONS

NOTE.—The following questions will not necessarily be used in the elementary paper referred to in rule 73 Questions should be read in the light of their context Thus in question 208 the pipe referred to is that described in the previous question

1 What parts of an engine are generally made of wrought iron?

2 What parts of an engine are generally made of cast iron?

3 For what parts of an engine is steel generally used?

4 What parts of an engine are generally made of brass or gun metal?

5 Where is 'white metal' generally used? On account of what property possessed by it is it adopted? What objection is there to its more general use?

6 For what parts is Muntz metal sometimes used? Is it malleable? For what properties is it valued?

7 What difference is there in the composition of cast iron, of wrought iron and of steel?

8 How can cast iron, wrought iron, and steel be distinguished from each other?

9 What are the different properties of cast iron, of wrought iron, and of steel?

10 What is meant by the terms, "breaking stress," "proof stress," "safe working stress"?

11 What is the cohesive strength, or breaking stress, of (a) good ordinary wrought iron, and (b) mild steel?

12 What is meant by the tempering of steel? What kind of steel can be tempered? Describe the process in each case

13 What is the object of case-hardening? Describe the process

14 Which of the common metals or alloys can be forged and which of them are brittle or "short"?

15 What is meant by "welding"? Which of the common metals can be welded?

16 Give examples of the expansion of metals by heat in the engine and in the boiler

17 In the construction of steel cylindrical marine boilers, for what parts have the plates to be worked hot? What precautionary treatment of these plates is afterwards necessary?

18 In what parts of cylindrical marine boilers is the strongest riveting employed? In which of the shell seams is it most necessary?

19 What is "caulking," and how are seams prepared for caulking?

20 Describe the different ways of fastening the ends of the main stays of a boiler What are the merits of or objections to the different methods?

21 What stress per square inch is allowed on iron and on steel boiler stays?

22 Describe a riveted stay, and state where such stays are sometimes used

23 Where are thin plates to be looked for in a boiler as it wears, how is the thinness to be detected?

24 How are boiler tubes fixed? What are "stay tubes," and how are they secured?

25 Where do boiler tubes generally leak? How is this defect repaired? What are the causes of this leaking?

26 What are the causes of cracked tube plates? Where are the cracks usually situated? How are they repaired?

27 What is the difference between a "dry uptake" and a "wet uptake"? Which requires more repair? Why? In what types of boiler are wet uptakes now fitted?

28 What is a superheater? What is its construction? What valves are on it? There is sometimes a gauge-glass on it, what is that for? Are superheaters now in general use?

29 What parts of a marine multitubular boiler are first injured by shortness of water?

30 Where are angle irons sometimes used in the construction of a boiler, and where are flanged plates used?

31 To what causes is priming attributed? What means are applied to prevent it? What evils may be produced by it?

32 What creates funnel draught? What checks it?

33 Flame is sometimes seen at the top of the funnel, what causes it? Is it beneficial or is it detrimental? Why so?

34 How many bottom blow-off cocks are generally fitted in connection with each boiler and why are they so fitted?

35 For what purpose are blow-off cocks sometimes fitted with a spanner guard? Describe how the guard is formed

36 Where are water-gauge test-cocks placed? At what heights? Must the cocks themselves be at those heights? What provision is made for cleaning these cocks should they ever become choked? When there are no test cocks how is the height of the water ascertained?

37 What are the different types of safety valves in general use? How is a lock-up valve arranged to admit of lifting it or of turning it round, and to prevent adding to the weight?

38 About what area of safety valve per square foot of fire grate is now required by the Board of Trade? What is the effect of suddenly opening a safety valve when steam is up? To about what extent do safety valves lift when blowing off without being eased by hand?

39 What advantages have spring-loaded safety valves that are not possessed by dead-weight valves? What are the disadvantages, if any, as compared with dead-weight valves?

40 Of what parts does a glass water gauge mounting consist? How does it act? Where is it placed? At what height? Is it liable to derangement? How is its working tested?

41 Glass water gauges have sometimes pipe connections at the top and bottom, in what cases is this necessary? Should there be cocks at the extremities of these pipes? Give your reasons

42 Describe a Bourdon steam gauge Some gauges have inverted syphon pipes below them, what is their use?

43 Why is a small cock sometimes put on the pipe leading to a steam gauge? Where should it be placed, and what error might be made by omitting to use it?

44 Do steam gauges indicate the total pressure of the steam or only a portion of that pressure? What is the pressure measured from?

45. What is meant by the salting of the boiler? How is this prevented? What is the density of ordinary sea water? How is the density ascertained? What is the difference between the formation of scale and the salting of the boiler? What is the maximum density at which boilers should be worked at sea? In the event of condenser tubes leaking what is the minimum density at which boilers should be worked? Give your reasons

46 How are scum cocks and pipes arranged? Where are they placed? At what height in the boiler? When are they used? When must they be shut? What dangers may result from neglect of these cocks?

47 Of what does scale consist? Where is it most objectionable? How is it removed? How is its formation prevented? What evil effects are produced by it?

48 What is a salinometer? Of what does it consist? How does it act? How is it graduated? Can it be used at any temperature indiscriminately?

49 In what ways might the check valve of one of a set of boilers become defective while under way? What would be the result in each case and what action would be necessary?

50 How is a leak from a split tube in a boiler stopped at sea? Describe the operation

51 What is the use of dampers? Where are they fitted? When should they be used?

52 If the funnel damper were inoperative what steps would you take to reduce evaporation? What injuries to the boiler are sometimes attributed to some of these? Are such results affected by the condition of the heating surfaces?

53 Describe the piston of a steam cylinder, with its different rings and their uses? Round pieces are generally let in flush on one side of a piston what are they? How are these pieces fixed?

54 What is the use of cylinder drain cocks? Valves were sometimes placed upon these cocks, what purpose did they serve?

55 Of what do cylinder escape valves consist? How are they protected? How are they regulated? When are they most needed? To what danger do they expose the engineer? What precaution is generally used to obviate this danger?

56 What is a compound engine? What different kinds are there for screw steamers, in respect to the number and arrangement of their cranks and cylinders?

57 What is a link motion? What are some of its advantages? In modern engines for the screw propeller, when there is no link motion, what takes its place?

58 What arrangement is applied to reduce the friction of a slide valve? To what is the friction due?

59 Describe a loose eccentric, how does it act? In what engines are loose eccentrics still employed?

60 What is the travel of the eccentric rod? How is it measured on the eccentric? What is the travel of the slide valve when the link motion is in mid gear, and the engine still moving?

61 What are 'double beat valves"? What objections are there to their use?

62 What is a circulating pump? Is it always worked by the main engine? Give an example from your last steamer of the three water temperatures generally noted by careful engineers

63 An air valve is sometimes fitted to reciprocating circulating pump, what purpose does it serve?

64 What is the difference between a bucket and a piston air-pump? Are double acting air-pumps made with plungers, with pistons, or with buckets?

65 What is an air pump trunk? When is it necessary? How is it attached to the bucket?

66 What class of air-pump requires both foot and delivery valves, and in what other class is it possible in some cases to dispense with either of these valves?

67 Describe the construction and action of reciprocating and centrifugal circulating pumps

68 What are marine governors? What is their general construction? How do they act?

69 With a surface condenser and a single-acting air-pump what is the effect of a leaky foot valve, and what is the effect of a leaky bucket when there is also a foot valve?

70 Where is the air-pump pet cock or valve placed? How does it act? What is its object? Does it in every case reduce the effective capacity of the pump? Is it equally applicable to double-acting pumps?

71 At about what temperature is the hot well worked? What is the effect of higher temperatures? What is the effect of lower temperatures? What limits the lowness of temperature? Has a very low temperature any disadvantages?

72 When surface condensers are used, what takes the place of the bilge injection? To what is the connection made? How is its valve formed? Why is this necessary?

73 What are the practical guides to the proper amount of opening of the inlet valve for the circulating pump?

74 Where is a feed-pump pet cock or valve placed? What is its use? How does it act? Is it always a necessary fitting?

75 What are the usual ways of fastening the ends of surface condenser tubes? About what size and about what thickness are these tubes? What parts of a surface condenser are made of brass?

76 What connections are generally fitted to the donkey pump, and to what services can it be applied?

77 When the engines are stopped in harbour with steam up which cocks or valves should be shut and which opened?

78 How is an engine heated up before starting? What precautionary examinations are made before starting?

79 What is a separator or interceptor? Where is it fixed, what is its construction, how does it act, and what attention does it require?

80 Describe an air pump bucket with its valve or valves and its packing Of what are the valves generally made?

81 Of what materials are air-pump rods made? Why?

82 What is the racing of an engine? When does it occur? What danger attaches to it? What is done to prevent it?

83 What is meant by the "pitch" of a screw propeller? How is it measured?

84 Explain the difference between a "right hand" and a "left hand" propeller and state how each of them revolves

85 What is the slip of a screw propeller? How is its amount expressed in figures?

86 Which of the valves about engines and boilers have to be worked by hand which of them are self-acting, and which are worked by the motion of the engine?

87 Why is soda sometimes put into a boiler, and how is it put in when under way? What is the kind of soda used?

88 Does a self-acting cylinder escape-valve allow all the water to escape? If not how much is left in the cylinder?

89 Describe the usual methods of lubricating slide valves and pistons

90 Of what is the centre of a common paddle wheel made? Of what are the arms formed? What is the form of the bolts which attach the floats to the arms? How are the arms attached to the centres?

91 Why have some paddle wheels one or more floats in each wheel heavier than the rest? With what engines are these most required? At what part of the circumference are they placed?

92 Why are paddle wheel floats sometimes made of different breadths in the same wheel? With what description of engine is this most needed? Where are the broad floats placed and where are the narrow floats placed in the circumference of the wheel?

93 What difference is there between a radial paddle wheel and one with feathering floats? What is the object of feathering floats? Are all the eccentric rods attached in the same way, and are they all of the same form?

94 Whereabout is the centre of the eccentric of a paddle wheel with feathering floats placed? In the case described are the feathering levers on the striking face or on the back of the float? When the paddle shaft has an outer bearing how is the eccentric made?

95 Of what materials are the working surfaces of a paddle wheel with feathering floats made? How are they lubricated?

96 What is a "Disconnecting Paddle Engine"? At what place is the disconnecting effected? How is it accomplished? In which of the cranks of a disconnecting engine are the crank pins fixed?

97 Is link motion valve gear or the loose eccentric generally used for disconnecting paddle engines? For what steamers are disconnecting paddle engines frequently employed?

98 What are expansion joints? Where are they necessary? What attention do they require? Of what should the working surfaces be made?

99 What omission in the construction of expansion joints may lead to a serious accident when steam is first applied? How is this prevented in the construction of a steam trunnion pipe for an oscillating engine?

100 Describe an oil cup with a syphon worsted. How is the worsted arranged? How is it cleaned? How far down the tube does it extend?

101 Describe a thrust bearing, which of the surfaces wear?

102 What parts of a screw shaft are generally covered with brass? Why is this necessary? About what thickness is the brass?

103 What is the stern tube? Why is a tube of such a length required? Of what is it made? How is it fixed at each end?

104 What is a *lignum vitæ* bearing? How is the wood fitted? Where is such a bearing generally used?

105 How is a screw propeller fixed on the shaft? What means are used to prevent its getting loose at sea?

106 With a condensing engine, what valves or cocks are on the skin of the ship in the engine-room, and in the stokehold?

107 What are the necessary fittings of a marine boiler?

108 With a surface condensing engine, what cocks or valves are opened some time before the engine is started so as to be ready for starting whenever the order is given?

109 What is a steam jacket? What cocks are on it? In what engines are jackets most generally used? Do they require to be lagged or covered with non-conducting materials?

110 What parts of an engine or its fittings should be felted or otherwise protected against radiation?

111 What are the small cylinders sometimes fitted on the slide valve casing cover of vertical engines? Explain their action To what are they connected by a pipe? Why?

112 Name the principal pipes in connection with the engines and boilers of a steamer, and state to what the ends these pipes are connected?

113 Through what cocks or valves, pipes and chambers does the water pass on its way from the sea inlet rose-plate to the water space of the boiler, with a jet condenser?

114 Through what cocks or valves pipes and chambers does the circulating water of a surface condenser pass?

115 Through what cocks or valves pipes and chambers does the steam pass from the boiler until it is in the form of water in the hot well?

116 Name, in the order in which they act, the parts of the engine through which the pressure of the steam is transmitted from the piston to the screw propeller

117 What is an air vessel? How does it act? At what parts of an engine or of its fittings are air vessels generally fixed?

118 What is the construction of a mudbox? Where should mudboxes be placed? Why are they necessary? How should the space be divided by the rose-plate, and why?

119 What is an oscillating engine? For what steamers are oscillating engines generally adopted? Why? How is the steam conveyed to and from the slide valve casing?

120 Of what parts does the valve motion gear of an oscillating engine consist?

121 What types of geared marine engines are now used? Describe the gearing

122 At what part of a screw steamer is the pressure that propels it applied to the hull?

123 At what part of a paddle steamer is the pressure that propels it applied to the hull?

124 About how much fuel per indicated horse-power per hour is required by modern steam-engines, bi-compound, triple and quadruple expansion?

125 What is the explanation of the economy of the surface condenser?

126 What is the construction of a surface condenser? Of what are its tubes made? How are they fixed? How are they kept tight? What is done with a split tube?

127 Where do surface condensers foul? How are they cleaned?

128 What non-conducting substances are employed to prevent radiation and how are they applied?

129 In the construction of smoke-box doors and of dry uptakes, what provision is made to lessen the amount of radiation?

130 How can the formation of black smoke be prevented? Describe smoke-preventing apparatus

131 What is meant by "circulation" in a boiler and what are the results of defective circulation?

132 What means are sometimes adopted to improve the circulation in a boiler?

133 By what arrangement is the circulation promoted in a 'haystack' boiler?

134 Describe a ship's side air-pump discharge valve In what respects does it sometimes differ from a common stop valve and what attention does it require?

135 What is the construction of a feed escape valve, to what is its discharge connected, and how is its loading regulated? Where should the escaping water flow?

136 When there is no feed escape valve what is the usual arrangement of the feed valves or cocks? Is this considered entirely satisfactory?

137 What is the measure of a horse power? How is indicated horse-power ascertained?

138 Has 'nominal horse-power" a fixed meaning? What is the use of this expression? What is generally taken as the measure of one horse-power nominal?

139 What is "back pressure" in a cylinder? About how much is it in each of the cylinders in your last steamer? Is excessive cushioning ever a trouble under certain conditions in modern engines? Say when and why and in which cylinder this occurs

140 What is meant by 'speed of piston"? About how much is the speed of piston in modern marine engines?

141 What is atmospheric pressure"? What is its average amount? What instrument tells this amount?

142 What is 'gross pressure" or "absolute pressure"? What pressure is it that is shown by the steam gauge?

143 What is meant by 'cutting off" steam? How is it done? What part of the valve regulates the cut off?

144 What are piston slide valves? Describe their construction Why are they frequently employed in place of common slide valves? Have they any disadvantages compared with common slide valves? If so, name them

145 What fixes the time of closing the exhaust? After the exhaust is closed and before the port opens for steam what becomes of the steam that is in the cylinder?

146 What is the "lead" of the valve? What is its object? About what amount is it?

147 What is the "cover or 'lap' of the valve? What is its object? About what proportion of the stroke of the valve is it made?

148 What is the 'exhaust cover' of a slide valve? What is its effect upon cushioning and upon exhaust?

149 What is 'negative cover" or 'negative lap" on the exhaust edge of the valve? What is its effect upon the exhaust and upon cushioning?

150 What is 'compression" and what is "cushioning" in a steam cylinder? How is each affected by the amount of cover or of negative cover there may be upon the exhaust edge of the valve and how by the exhaust pressure?

151 What is "mean effective pressure"? How is its amount ascertained?

152 What is a dial vacuum gauge? What is its construction? For what is it used? About what amount should it show when the engine is working all right? What effect have the variations it indicates on the performance of the engine?

153 Does the vacuum gauge enable you to tell what pressure there is in the condenser, or must you have recourse also to the barometer to arrive at that? How would you ascertain the actual amount of back pressure there is in the condenser

154 What is a barometer? What is its construction? In what respect does the barometer differ from the mercury tube vacuum gauge?

155 Are the graduations marked from atmospheric pressure in the vacuum gauge or in the steam gauge? Does either of them tell what is the true actual pressure in the boiler or in the condenser?

156 Do the indications of steam and vacuum gauges vary with the variations of the barometer? When the barometer varies from 29 to 31 how much will the vacuum gauge vary and how will that affect the working of the engine? Why?

157 Vacuum is generally stated as so many inches What is meant by say 20 inches vacuum? What does that tell us about the absolute pressure of the vapour then in the condenser?

158 From what depth will a pump draw water? Is there any limit? Why?

159 What is vacuum? Can vacuum move a piston? When the temperature of the water in the condenser is 212° Fahrenheit, what is the greatest degree of vacuum there can then be in the condenser?

160 What is a thermometer? What is its construction? What property of matter is used as the principle of its construction? What temperatures are regularly noted by careful engineers?

161 What is the temperature of (1) melting ice, (2) boiling water, (3) steam about 60lbs pressure by the steam gauge (4) steam about 100 lbs, (5) steam about 150 lbs, (6) smoke in the funnel, (7) water in the hot well?

162 What is meant by the "conduction" of heat? Give examples of it in the boiler and in the engine

163 What is meant by the "convection" of heat? Give examples of it in the boiler and in the engine

164 What is meant by "radiation" of heat? Give examples of it in the boiler and in the engine

165 In which of the following cases is heat transmitted by convection, in which by radiation, and in which by conduction? (1) Heat given off from the glowing fuel to the furnace crown, (2) Heat passing from one side of the furnace crown plate to the other, (3) Heat passing from the steam pipe in the engine-room, (4) Heat conveyed by water circulating in the boiler?

166 Which are the effective heating surfaces of a marine boiler?

167 What parts of a marine engine are exposed to danger when the temperature is below freezing point?

168 What precautions are necessary in cold climates when the temperature is below freezing point?

169 State as many ways as you can by which a boiler might not get its full feed A boiler, or one of a set of boilers, gets short of water although the feed valve is open its proper amount, to what causes might this be due?

170 Of what are furnace bars generally made? About what thickness are they at the top? About what space is between them? Are the bars put further apart for Newcastle than for Welsh coal?

171 Which burns faster, Newcastle coal or Welsh coal? Which is the flaming coal? Which makes more smoke

172 About how many tons of steam coal will be burnt per day in four furnaces each 3' 0" wide and of about the usual length? On what grounds do you base your answer?

173 About how many tons of steam coal will be burnt per day with good triple expansion engines to drive an ordinary steamer of 40 feet beam 10 knots an hour by steam alone? How do you arrive at your answer? What percentage more coal would be required to propel the same steamer one knot faster?

174 About how many tons of steam coal will be burnt per day with a good triple expansion engine, surface condensing, the low pressure cylinder 60 inches diameter, doing average work? On what do you base your opinion?

175 In an inverted cylinder direct acting engine, there is a liner half an inch thick between the ahead eccentric rod and the eccentric strap In overhauling the engine this piece is lost and forgotten, what difference will its omission make in the working of the engine, on the admission, on the cut off, and on the exhaust of the steam? Which will take place earlier and which later, distinguishing between the up stroke and the down stroke?

176 In an inverted cylinder direct acting engine driving a right-hand screw, on which of the crosshead guide bars is the pressure greatest in the up stroke, and on which in the down stroke?

177 A screw propeller is getting loose, and has a little play on the shaft sideways on the key or feather, how will this show in the engine-room?

178 How would you prove whether the centre line of the trunnions of an oscillating cylinder is fair with the centre line of the main shaft?

179 How can the fairness of a line of screw shafting be tested without lifting the shafts?

180 Where are steel forgings generally used in marine engines?

181 What is the composition of nickel-steel? Where is it sometimes used in engines and boilers?

182 How is forced draught generated on board ship and supplied to boiler-furnaces? Is the air heated before delivery? If so, how?

183 What is induced draught? Compare the merits of "forced and of induced" draughts

184 How is the intensity of forced or induced draught measured? What is the usual pressure employed in the mercantile marine?

185 An explosive gas is liberated from bunker coal Usually in well-ventilated bunkers this gas escapes into the atmosphere without doing harm In ill-ventilated bunkers the gas after mixing with a certain proportion of common air has been known to explode when a naked light has been brought into contact with it What is the composition of the gas? Where is it found, in bunkers 'tween decks pockets and coal shoots? How may it be got rid of as soon as it is given off by the coal? How many cubic feet of air to one of the gas forms a violently explosive mixture?

186 A lighted lamp or candle has sometimes been lowered into an apparently empty paraffin tank and produced an explosion resulting in injury to the person holding the light What did the tank probably contain, and what produced the explosion?

187 At what point in vessels carrying coal-cargoes does the gas which escapes from the body of the coal tend to accumulate? Why should this be so?

188 A light lowered into recently-opened ballast tanks double-bottoms and boilers is sometimes extinguished What would in all probability cause this?

189 In double-bottom steamers where does the bilge water lie and where are the roses of the bilge pipes fitted?

190 What is the advantage of a large rose over a small one?

191 Why should engine bilge suctions be fitted to both wings of the bilge, especially in vessels carrying cargoes liable to shift?

192 In a heavily listed vessel, why is it difficult to keep steam?

193 If the engine bilge pumps get choked and water accumulates in the stokehold bilges, what effect does the water have upon the bilge boards and stokehold plates when the ship is rolling violently?

194 In a triple-expansion engine what spare gear do you consider necessary in the case of a foreign going ship? Also what stores would you provide for a voyage to New Zealand?

195 What means are sometimes provided for temporarily coupling together the broken parts of say a tunnel shaft? Describe the fitting

196 Does the pressure on the thrust collars vary with the horse-power, or with the speed of the ship, or how?

197 If the holding-down bolts of a thrust-bearing should become slack, what effect would it have upon the working of the engines?

198 In an engine with three cranks which of the three is subject to the greatest torsional stress (1) in going ahead, (2) in going astern?

199 Is it usual to make the crank shaft of a triple or quadruple expansion engine in one piece? Is the diameter of the shaft uniform from end to end? Explain the practice which obtains?

200 In a "built" crank shaft how are the webs rigidly secured to the pins and to the body of the shaft?

201 There are various descriptions of donkey engines in use on board ship for pumping purposes Some pumps are fitted with escape-valves, some are not Why should this be?

202 Explain the function of an air-vessel fitted to a feed pump Make rough hand sketches of (1) a satisfactory vessel, (2) an unsatisfactory vessel, where say the air-spring has been destroyed by carelessness, or has never been properly provided

203 Should cocks or escape-valves be fitted to air-vessels? Why or why not?

204 Where, by preference, should the escape valve of a feed pump be placed? Why?

205 Scum cocks are sometimes fitted to boiler-shells at a height convenient for engineers to manipulate when standing in the stokehold, the scum pipes in such cases are led upward, inside the boiler, to a little above the combustion chamber tops What danger may arise from this arrangement?

206 Cocks for testing the water-level of boilers are sometimes fitted within reach of the engineer who is standing in the stokehold These may have internal pipes leading upward and terminating at various levels Under what circumstances may these become misleading?

207 Why should the pipe which leads from the bottom of the water-gauge column to the bottom of the boiler front be covered with non-conducting material? Why also should it never have lengthy horizontal bends?

208 In your own experience, how frequently is this pipe removed and cleaned?

209 Why, even with the best of water-gauges, is it advisable occasionally to use the drain-cock?

210 Steam loops have sometimes been inadvertently made in the length of piping leading from the top of the water-gauge column to the top of the boiler Roughly sketch such a loop and explain the danger arising from its existence

211 Describe your method of thoroughly testing the water-gauge system to satisfy yourself that all the cocks and pipes are clear Hand sketches, mere lines indicating pipes and circles indicating cocks, should be made Identify the cocks and pipes by letters or numerals

212 Describe the construction of a water-tube boiler mentioning the type selected Of what materials are the various parts usually made?

213 In a water-tube boiler, how is an economiser fitted, and what is its duty?

214 How is the water-gauge fitted in a water-tube boiler? Are glass gauges used?

215 The pressure of the steam in water-tube boilers is sometimes greater than at the engines Why is this, and how is this difference of pressure maintained?

216 Describe any automatic method of feeding water-tube boilers

217 Describe the construction of any steam turbine you are acquainted with, which is used on board ship How is the expansion of steam effected? How many propeller shafts are employed, and how many propellers?

218 Is the same power in a steam turbine available to go astern as to go ahead?

219 Of what material are the propellers usually made in a steam turbine, and why is this material adopted?

220 About how many pounds of coal per indicated horse-power per hour are burnt with turbine engines? Name the type of boiler in use

221 Describe one of the several classes of refrigerating machinery in use on board ship Several types exist Which is the most economical?

222 Describe the defects to which the selected type is subject How are the defects overcome?

223 How frequently are the parts opened out for examination? Name the parts

224 How frequently are the condensers of refrigerating plants opened for examination? How frequently are the coils tested by hydraulic pressure? On which side of the coil is corrosion most commonly found? Why should this be so?

225 Where ammonia is used in refrigerating machines, should the machinery by preference be isolated? Why? Give what information you possess bearing on the matter, naming the ships for purposes of identification

226 Explain how the ammonia is removed from the tubes in which it is supplied, and how passed into the refrigerating machine

227 What objection is there to the presence of water in the ammonia?

228 Describe the ammonia process of refrigeration

229 Of what material are the parts made which are in contact with the ammonia?

230 Are escape valves fitted to the compressors of ammonia machines? What is the reason for the usual practice?

231 What is the maximum pressure found in the compressors of ammonia machines?

232 What kind of pressure and other gauges are used in ammonia machines?

233 Explain how carbon dioxide (CO_2) is removed from the tubes in which it is supplied, and how passed into the refrigerating machine.

234 What objection is there to the presence of water in carbon dioxide (CO_2)?

235 Describe this process of refrigeration.

236 Of what material are the parts made which are in contact with the carbon dioxide (CO_2)?

237 Are escape valves fitted to the compressors of these machines?

238 What is the maximum pressure attained in the compressors of carbon dioxide (CO_2) machines.

239 What kind of pressure and other gauges are used in such machines?

240 In which type of refrigerating machine is brine used? What is its composition and density? Where does it circulate?

241 Are fans for circulating air used in any of the refrigerating processes? If so, why are they necessary?

242 What means are in some cases employed for ascertaining the temperatures of refrigerating chambers without entering them?

243 What effect may the swabbing of the compressor piston rods have upon the working of the refrigerating machinery?

244 What is a rectifier? Explain its use.

245 Describe the cold-air process of refrigeration.

246 Of what material are the air suction and delivery valves of a cold-air machine made? How are the valves kept on their seats?

247 How many compressors are there to a cold air machine?

248 What is the duty of the expansion cylinder of a cold air machine?

249 What objection is there to the presence of moisture in the air passed through the cold-air machine?

250 How is water to some extent removed from the air? What is the minimum temperature of the air?

251 What is the maximum pressure found in the compressors of cold air machines?

252 What kind of pressure and other gauges are used in cold air machines?

253 In refrigerating engines generally where is the exhaust steam led?

254 Cold-air chambers on board ship are insulated. How and why?

255 Is it prudent to allow the wire of an electric circuit to pass through the insulation? Explain fully.

256 Describe the construction of a feed water heater and give the name of its manufacturer.

257 To about what temperature is the feed water raised by passing through a feed-heater?

258 What fittings are usually placed on a feed heater? Why are they necessary?

259 Describe any well-known ash-ejector.

260 Describe any well-known independent feed pumps.

261 Are independent feed pumps automatic in their action? Explain the action.

262 What advantage, if any, have independent feed pumps over feed pumps worked by the main engines?

263 Describe the construction of a feed filter, enumerating its valves and cocks.

264 How can the filter be cleaned? What ingredients are generally removed when cleaning takes place?

265 What is the intercepting material in a filter made of? How is it fitted?

266 Describe an evaporator, and mention the type.

267 What fittings are necessary with evaporators?

268 How is the brine got rid of in an evaporator?

269 How may the evaporator coils be cleaned?

270 What is a dynamo? Describe its various parts. For what is it used?

271 In what respect does an electric motor differ from an electric generator? Where are electric motors sometimes used on board ship?

272 Describe a system of electric lighting employed on board ship?

273 How is the position of a fault in the electric circuit discovered?

274 What is "sparking" in an electric lighting circuit? In what circumstances may it be dangerous?

275 What is "short-circuiting," and to what evil may it give rise?

276 What means are employed to prevent any part of the circuit becoming overheated?

277 Describe the features of an arc lamp.

278 Describe the construction of an incandescent lamp.

279 What is the usual candle power of the small incandescent lamps in general use on board ship?

280 Define the following terms:—Ampere, volt, ohm, watt. What is the measure of an electrical horse power?

281 Explain the uses of switches, brushes, commutators, cutouts, field-magnets, armatures and resistance-coils.

282 Why is it desirable to fit a dynamo in a cool place on board ship?

283 What undesirable effect will ultimately occur to an electric wire whose sectional area is constantly diminishing, say, through corrosion?

284 What danger might arise from leading electric wires through coal bunkers?

285 Is it better to lead electric wires above or below side-scuttles? Why?

286 What instruments are used on board ship to ascertain the strength of an electric current?

287 Many ocean going steamers are fitted with hydraulic cranes, etc. Where do they obtain their power? How is the hydraulic pressure kept at a relatively constant amount?

288 Is any difficulty experienced in working hydraulic cranes in frosty weather? If so why?

289 Describe any steam steering gear with which you are acquainted.

290 When the helm is put hard over and the ship is going full speed ahead what prevents the rudder from returning to the amidship position?

291 In the case of a steamship under way does the helmsman in manipulating the steam steering wheel overcome any resistance exerted by the rudder?

292 Explain clearly what is being done by a helmsman in manipulating the wheel of a steam steering engine.

293 Is there any difference between the amount of horse power required to put a helm hard over in a given time when the vessel is going full speed ahead and when she is going full speed astern? This question refers to the case of a steamer fitted with one rudder only and demands a more complete answer than merely "yes" or "no".

294 What precautions should be taken before removing a manhole-door of a steam boiler? In the absence of such precautions what casualties might occur?

295 Describe the chief features of the engine-governor fitted to a steamer you have served in. Describe its action. Give the maker's name, and name of ship.

NOTE.—The following six questions refer to oil motors fitted to launches.

296 Name the principal parts of an oil motor and briefly state their functions. State the type of motor and the name of the makers.

297 What kind of oil is usually employed in oil-motors? What is its flash-point? What is its specific gravity? What is its calorific power? What precautions are taken in its storage to guard against casualty by fire or explosion?

298 How many cylinders are generally used in oil-motors? What kind of pistons are fitted? How frequently (measured in revolutions) is explosion per cylinder effected? How is explosion in the cylinder carried out?

299 Describe how an oil-motor is started. If starting prove difficult where would you chiefly look for defects? How is piston speed modified? How is the speed of vessel varied? How is reversing effected?

300 Before examining an oil-motor with a naked light, what steps should be taken for safety's sake?

301 How frequently should an oil-motor, working 12 hours a day, be opened up for examination, cleaned, and its parts readjusted? What difficulty arises when the internal parts become foul with carbonized oil?

EXAMINATION IN WORKING DRAWING AND SKETCHING

FIRST CLASS ENGINEER (FORM EXN 17)

1 The rules in regard to the qualifications of a candidate for a First-class Engineer's Certificate of Competency specify that—

> He will be required to make an intelligible hand sketch, or a working drawing of one or more of the principal parts of an engine, boiler or other part of the machinery and to mark upon it all the necessary dimensions in figures so that the sketch or drawing could be worked from "
>
> He must be able to state the general proportions borne by the principal parts of the machinery to each other "

2 In accordance with these clauses the candidate is required to make a working drawing of the parts specified, such as are given below He is expected to be familiar with the construction of these parts, as an engineer should have a general idea of the details of the engines and boilers with which he has served

3 Fine drawing is not expected and should the candidate prefer this alternative clear hand sketches will be accepted In the proportions a wide margin will be allowed but really absurd design or dimensions will entail failure in practical knowledge It is however, imperative that sufficient views be shown and that these be so completely dimensioned that if the drawing were sent into the workshops the parts could be made from it without further information being supplied or the drawing requiring to be measured

4 The candidate should not draw more parts than the subject requires or begin more than he can completely finish in the time allowed A portion only of the parts specified if satisfactory and fully dimensioned, may be accepted in place of the whole, if there is no reason to suppose that the remainder of the work has been evaded through inability or ignorance If the work be incomplete owing to lack of time the names of the parts omitted or not fully dimensioned should be clearly stated on the face of the sheet

5 The Statement by the Candidate should be filled up carefully and as completely as possible and should there be any defect in the design selected this should be referred to A bad design presented without comment or an absurd 'Statement' will be considered to imply a want of practical knowledge

6 The candidate is advised not to begin more than he can finish in the time allowed Nothing should be pencilled in after four All the dimension figures and details must be inked in, and the remaining time should be employed in checking the dimensions and the work generally It is important that the dimension lines be not confused with centre lines

7 Extra paper will be provided if required

8 *Caution*—In the event of any candidate being discovered referring to any book or paper, copying from or assisting another or in any way communicating with another during the time of the examination, he will be regarded as having failed and will be turned back for six months, and no part of the fees he may have paid will be returned to him

(Specimen)

SUBJECT FOR EXAMINATION IN WORKING DRAWING

Read the foregoing general instructions

THREE VIEWS OF A BILGE DIRECTING VALVE CHEST CONTAINING AT LEAST TWO BILGE SUCTION VALVES AND ONE SEA SUCTION VALVE

The candidate should fill up the following and hand in this paper with his drawing

STATEMENT BY THE CANDIDATE

The accompanying drawing, made by me this day without referring to any document and without the assistance of any person is intended by me to be sufficient for the construction of the parts above described to fit the places of similar parts which are to be renewed

The parts to be made of brass are ______________________________

____

The parts to be made of cast iron are ______________________________

____

What precautions are taken to prevent the sea water from running into the bilges? ______________________________

____

What appliances are fitted to prevent the valves from being fouled by chips or dirt? ______________________________

____

Can the ballast pump be used to pump from the bilges through this valve box? If so, what other fitting is considered to be necessary?

____

It is required that all the parts shall be fully dimensioned in ink but if owing to want of time, this has not been done the parts not fully dimensioned must be stated otherwise it will be understood that the candidate considers the dimensions given sufficient

The parts omitted or not fully dimensioned are ______________________________

____

Port ______________

Date ______ day of ______________ 191___ ______________

______________ Applicant

______

SECOND-CLASS ENGINEER

The rules respecting the qualifications for a Second-class Engineer's Certificate specify that—

"He must be able to make a dimensioned working sketch or drawing of some simple part of the machinery"

The subjects for examination in drawing given to Second-class candidates will be of a more simple character than those given to First-class men The general requirements and regulations for the examination will, however be similar to those stated above

The candidate will be expected to show that he is capable of making a dimensioned sketch or drawing of a part of the machinery, such that if it were sent home from a foreign port, the part in question could if necessary be accurately reproduced and the new article be fitted in place on board the ship on her return without amendment or alteration

APPENDIX D

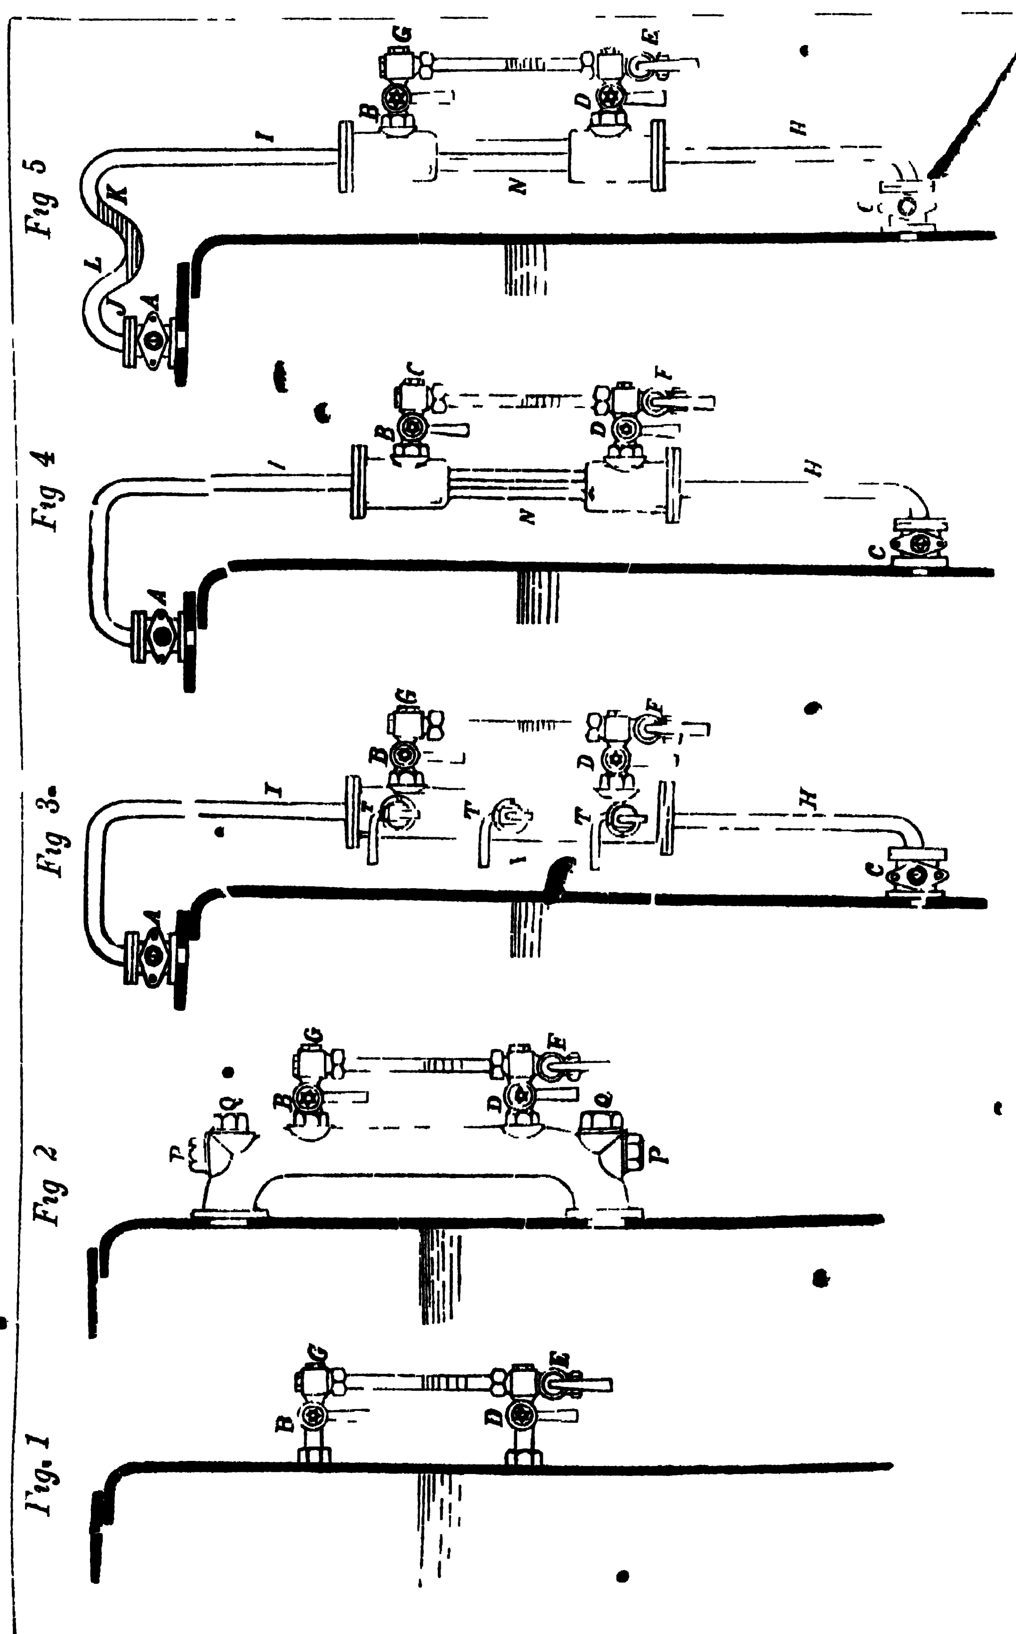

READING THE WATER-GAUGES

Notwithstanding that the reading of the water-gauge is made a special feature in the examination of Engineers, many boiler casualties result from the Engineer of the watch either not understanding the construction of the water-gauge fittings or not satisfying himself by actual trial that the cocks, pipes etc, are clear

Unless a candidate under examination is able to prove that he understands how to verify the indications of the water-gauge, he should not be passed in practical knowledge and as failure in practical knowledge involves the candidate going to sea for another three months before being eligible for re-examination, the Examiner should explain to such candidate his error, after failing him in order to prevent further casualties resulting from his want of knowledge on this subject

The sketches Figures 1 2 3 4 and 5 Plate I represent the usual methods of attaching water-gauge mountings to marine boilers The important features in each gauge and the method of verifying its indication are dealt with separately in the following remarks —

Plate I

REFERRING TO FIGURE 1 ONLY

In this case the water-gauge cocks are attached direct to the boiler, and the accuracy of the gauge when the boiler is under steam can be tested as follows —

First —Let B remain open then close cock D and open cock E, and if steam issues it proves that cock B and the passage through the top fitting and gauge glass are clear If no steam or water issues, either cock B or the passage through the top fitting and gauge glass is choked and the gauge cannot act properly until the obstruction is removed

Second —Close cock B and open D and E, and if water issues, cock D is clear If no water or steam issues, either cock D or the passage from the boiler through the lower fitting is choked and must be cleared before the gauge can act properly

REFERRING TO FIGURE 2 ONLY

In this case the gauge cocks are attached to a bent pipe of comparatively large diameter (at least 3 inches in the bore), the upper end of which communicates with the steam space and the lower end with the water space of the boiler Owing to the bore of the pipe being large it is not likely to become choked or stopped under the ordinary conditions of working The water gauge is therefore in practically the same condition as if it were attached direct to the boiler as in Figure 1 This gauge when at work is tested in precisely the same manner as the one shown in Figure 1

Screw plugs are inserted at P P and Q Q by the removal of which the apertures in the pipe can be cleared, if necessary, by the insertion of a wire or rod when steam is down

REFERRING TO FIGURE 3 ONLY

In this gauge there is an open communication from A to C through the column Y and in order to "blow through the *glass*" it is only necessary, to shut cocks D and B alternately keeping E open But to 'blow through the *water-gauge*,' including the pipes H and I it is necessary, after blowing through the glass as described above to shut A and C alternately at the same time keeping B, D and E open for such time as will ensure the complete discharge of the contents of the gauge and its connections When B, D and C are clear and A choked the steam lodging in the glass and in the pipe I leading from column Y to A becomes condensed and the water flowing through C to take its place rises in column Y and in the glass to a level above that of the water in the boiler In other words the gauge shows a false level If now E be opened and water is blown out then on E being again closed the water in the gauge will rise higher than before and be still further misleading On the other hand when B D and A are clear and C choked the water if any in the glass is trapped and no longer rises and falls with the water in the boiler or with the motion of the vessel it, however, slowly rises in the glass owing to the condensation of the steam in the upper part of the gauge until such time as E is opened when the whole of the water in the glass is blown out and on E being closed the glass does not show any water notwithstanding that the water in the boiler may be at the proper level When the test cocks T T T are attached to column Y, as shown in Figure 3 they cease to be reliable when either cock A or C or the pipe in connection therewith is choked or nearly choked

REFERRING TO FIGURE 4 ONLY

Sometimes the water-gauge fittings are arranged as shown in Figures 4 and 5, with no passage up the column the central portion (N) of the column being simply a pillar or connecting piece of any convenient section

between the upper and lower portions to which the cocks B and D are attached.

By this arrangement double communications are obviated and there is no need for what is known as 'double shut off' in testing the accuracy of the gauge. When however the gauges are constructed in this manner the cocks B and D are unreliable as test cocks in the event of there being no glass in the gauge. This feature should be carefully noted. Moreover, when in working condition the reduction of pressure in the glass which arises when E is opened causes the water in pipe H to rise above its normal level. This objectionable feature should also be noted.

REFERRING TO FIGURE 5 ONLY.

Sometimes there is a bend, L, in the steam pipe I leading from cock A to cock B. This has occasionally escaped observation when new boilers have been fitted on board ship. In most cases this bend arises from the pipe being led in an abnormal direction to escape other pipes, beams or fittings near the smoke box. With such a bend the condensed steam collects in the pipe and falls to the bottom of the bend and in time it completely fills the pipe from J to K. The steam from K down to the level of the water in the glass is thereby trapped and as condensation proceeds leads to a reduction of pressure in the pipe below that of the boiler and an equivalent rise of the water in the bend and also in the gauge glass. When the vessel is quiescent the water in the gauge glass increases in height until cock E is opened or until the pressure in the boiler is so much in excess of that in the lower part of pipe I as to cause the water in the bend to be blown into the gauge glass. In either case instantaneous change of water level in the glass ensues.

In the ordinary course of working the phenomenon described above is more or less modified by the presence of air in the upper part of the gauge and by the rise and fall of the water in the boiler and gauge glass arising from the rolling or pitching motions of the vessel.

OTHER SPECIAL POINTS TO BE NOTED.

When the cocks A and C are omitted, as in Figure 2, it is owing to the bore of the stand pipe being sufficiently large to enable it to be regarded as part of the boiler. Such pipes require however to be examined and cleaned at intervals by passing a rod through the holes provided for the purpose at P P and Q Q.

Cocks at A and C are not necessary for the testing of gauges arranged as shown in figures 4 and 5. Examiners ought however to make sure that candidates are aware of the impossibility of testing the reliability of the indications of water-gauges arranged as in Figure 3 when the cocks A and C are absent and of the effect which the choking of cock A or C, or pipe H or I has on the indications of the test cocks T T T attached to column Y.

Probably more than half the steamers afloat are fitted with water-gauges as shown in Figures 3 and 4 and it is therefore specially important that engineer candidates should thoroughly understand their construction, the principle on which they act and the steps which must be taken to keep them in an efficient condition.

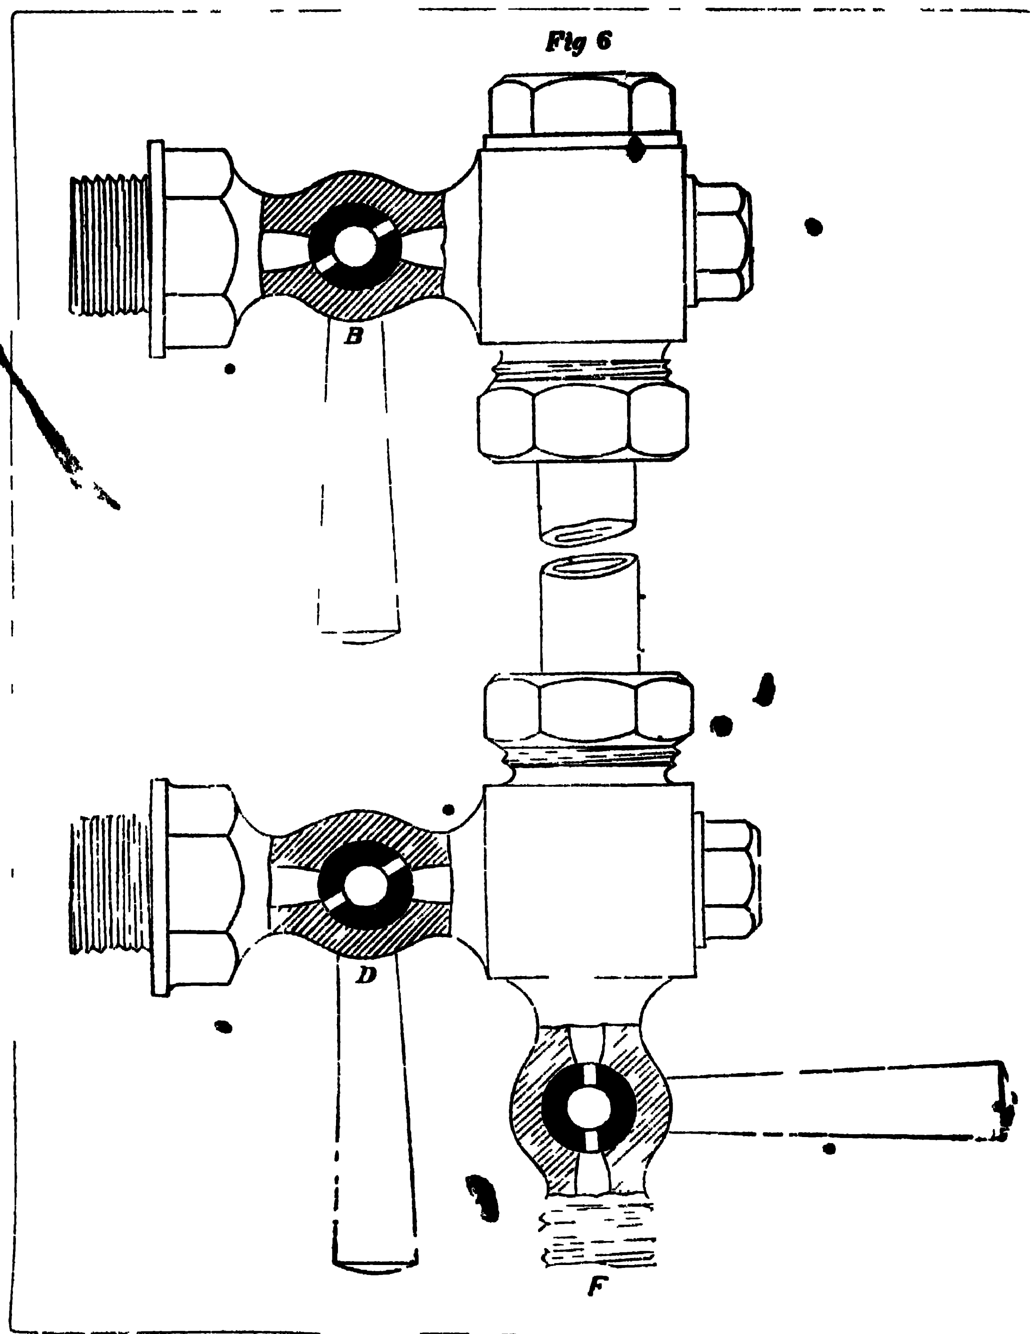

When fitting a gauge glass into its place it is specially important that it should not be placed so high as to prevent a cleaning rod being inserted at G, Figures 1, 2, 3, 4 and 5. This defect especially if it occurs in a water-gauge attached to a boiler subject to priming permits a rapid accumulation of scum around the top of the glass and results in the choking of the orifice leading from cock B to the gauge glass in each of the figures.

When a gauge glass is too short or is placed either too high or too low in the fittings, it is also liable to become choked by the packing material being forced over its ends by the glands whilst being screwed up.

The use of unsuitable or insecure internal pipes in connection either with the ordinary glass gauge cocks of the description shown in Figure 1, or with test cocks which are jointed to the boiler itself should also be carefully guarded against.

Boiler casualties have resulted from the cocks B and D having the parts wrongly placed as shown in Figure 6, Plate II In one case of that kind

Plate II

which forms the subject of Report No 208 under the Boiler Explosions Acts the engineer in testing the water-gauge omitted to see that the passages in the cocks B and D were clear *when the handles were in their proper working position* This defect could easily have been discovered if proper attention had been paid to the condition of the cocks A defect of this nature may be due to faulty construction originally, or to the handle of the cock having been overstrained, and the neck twisted Whether the passages in the plugs are fair and clear can however, be verified in a few minutes As an illustration the water cock D Figure 6, Plate II, can be verified by blowing through E with B shut and then moving the handle of D to one side until it is just closed, and then to the other side until it is again just closed the proper working position of the handle is about equally distant from each of the above positions The other cocks can be verified in the same manner

Another serious casualty occurred through the handle of the cock A, Figure 3 having been twisted from its original position relatively to the orifice of the cock, resulting in the cock being shut when apparently open

When a water-gauge, that is clear in all its parts has been thoroughly blown through the water in the glass rises above the level at which it formerly stood, immediately the drain cock E is closed, but if left undisturbed for a time it gradually falls to its former position The amount of rise which occurs on these occasions depends chiefly on the temperature of the contents of the boiler and on the length of the pipes by which column Y is connected top and bottom to the boiler but in cases where the gauge is of the description illustrated in Figures 3, 4 and 5 it amounts in high pressure boilers to about 4 inches, while the time occupied by the water in returning to its former level ranges from 30 to 40 minutes The cause of this rise is twofold namely (a) the displacement of the comparatively cold water in pipe H by hotter and proportionately lighter water from the boiler, and (b) a slight condensation of the steam and a corresponding fractional reduction of pressure in pipe I The cause of the gradual subsidence of the water in the glass to its former level is also of a dual character, namely (a) the cooling of the water in pipe H and (b) the diminution in the condensation of steam in pipe I owing to the collection therein of air released from the steam condensed

These results will however be somewhat modified if the water in the boiler is of higher density than in pipe H and this will nearly always be the case owing to the condensation of the steam in the glass and upper fittings of the water gauge causing the water in the lower part to be fresher than that in the boiler

The examiner should impress upon candidates the necessity for periodically blowing through the water-gauge on each boiler (no matter what the form may be) in a systematic and thorough manner and in cases where a boiler is fitted with two water-gauges of keeping both in constant use finally he should further impress upon them the necessity for keeping the water-gauges well-lighted clean and in all respects efficient

APPENDIX E

[See rule 54]

EXAMINATION OF MASTERS AND MATES IN STEAM

These examinations are provided for the purpose of giving Masters and Mates who are possessed of Certificates of Competency an opportunity of undergoing a voluntary examination as to their practical knowledge of the use and working of the steam-engine The endorsement of a Master's or Mate's Certificate for Steam" does not, however imply that he is qualified to perform the duties of an Engineer

The examination is open to any person who holds a Certificate of any grade in the Foreign or Home Trade or as Master of his own pleasure yacht

Candidates should fill up the form of application form Exn 2 at the Port Office pay the fee of Rs 15 and deposit their Certificates and testimonials with the Port Officer who will inform them when and where to attend to be examined The usual testimonials for sobriety and good conduct for at least the last 18 months preceding the date of application to be examined must be produced

If the candidate passes, form Exn 15 together with a written report of the examination should be sent to the Port Officer and the candidate's Certificate together with the form Exn 2, will be sent to the Government The words "Certified to have passed in Steam' with the date and place of examination will then be entered on the Certificate and its counterpart and the Certificate will be sent to the Superintendent of the Mercantile Marine Office of the port named in the form Exn 2 and will be delivered to the candidate in the usual manner

If the candidate fails to pass his Certificate will be returned to him at once but he may not present himself for re-examination until the expiration of three months from the date of failure

The examination is for the most part *vivâ voce*, and extends to a general knowledge of the practical use and working of steam-engines and boilers, and of the various valves, fittings, and pieces of machinery, connected with them and of the way in which electric lighting is carried out on board ship

Candidates must—

(a) Know the names and understand the uses of the various parts of engines and boilers and their connecting pipes, valves, cocks, etc

(b) Have a thorough grasp of the construction of the steam-engine and boiler to enable them to understand the nature and importance of any defect which may be reported to them by the Chief Engineer

(c) Have a looking-on knowledge of what the principal repairs about engines, boilers and pipes are, and how these repairs are accomplished

(d) Be able to form an independent opinion as to a break-down and the consequent propriety or impropriety of proceeding under steam with temporarily repaired or defective machinery

(e) Understand how to estimate approximately the reduction of fuel required for reduced speed, and be able to satisfy themselves as to the sufficiency of the coal on board for the voyage

(f) Have an intelligent grasp of the general run of pipes and connections in the engine-room, the working of cocks, the opening and closing of cocks and valves, and know how mistakes of importance may be made and how best to guard against such mistakes

(g) Be capable of being left in charge of the feeding of a set of boilers understand the working of the water gauge, and be able to guard against being misled by false indications of the gauge glass

(h) Understand the operations of blowing down and surfacing, the reasons for such practices and the danger which may result from the neglect of them in certain circumstances

A Master or Mate presenting himself for examination in Steam must be understood to have made up for his want of practical experience by reading about the steam-engine He ought therefore to show that he intelligently understands the rationale of its action Under this head he should be able to state approximately the quantity of heat required in the formation of steam the relation of latent" heat to ' sensible" heat, how much steam can be raised by the combustion of one pound of coal what horse-power measure is what indicated horse power is what is the action of the slide valve the course of the steam through the engine the advantage of working expansively and how the expansive action is shown by the indicator diagram

He should know the uses of the various parts of the engines and dynamos used for electric lighting and how they and the cables are fitted in the hull how wires are joined insulated and cased why it is desirable that they should be led along places which are dry and accessible what ' short circuiting is and what are the causes which produce it, what is its danger in coal bunkers and petroleum carrying steamers what are the uses of switches and cut-outs, and why it is so important to prevent short circuiting taking place

Candidates will be required to give written answers to sixteen out of twenty questions taken from the Elementary Questions printed in Appendix B and given on the sheets marked Steam, or questions similar to these These questions will be altered from time to time without notice The twenty questions will not be difficult theoretical, or book questions but such as any man of ordinary capacity who has a fair amount of practical knowledge of the use of working of the steam-engine ought to answer

Examiners will require all candidates to fill up a form Exn 15b (see Appendix A) and they will forward it to the Port Officer with the report of the examination

Masters and Mates may cancel questions A B and C but they should fill up the form for questions D, E F and G, as evidence of their practical knowledge

If a candidate refers to any book, paper or memorandum, or obtains information from another candidate or any other person during the examination, he will be treated as having failed will forfeit his fee and will not be allowed to be re-examined for a period of six months

The Examiners will report, in the case of failure, the nature of the question or questions that decided the failure or the point in the management of the engines or boilers in which the candidate was deficient

Applicants for the voluntary examination need not necessarily have served on board steamships, all that is required is that they shall have a practical knowledge of the use and working of the steam-engine.

Practical knowledge is best gained in the engine room, and the examination of an officer who does not produce official evidence of service in steamships and of experience of engines must necessarily be more searching than in the case of one who produces evidence of such service and experience.

The answers to the Elementary Questions are frequently given by candidates as learned by rote from a book. Candidates should, therefore, be asked such *vivâ voce* questions as will necessitate answers in different words, so as to discover whether they have the root of the matter in them.

A large part of the *vivâ voce* examination should be conducted on board a steamer, preferably one with which the candidate is unacquainted. He should be told to look about and try to find out the arrangement of the machinery without assistance and the Examiner should be in the engine-room to see that this independent examination is properly carried out. When the candidate reports that he thinks he knows the arrangement the Examiner will question him on the uses of the parts, get him to point out the different cylinders, pumps, valves, condenser, etc., also the dynamo, its field magnets, armature, commutators, brushes, cables, etc. The candidate must show that he understands the run of the pipes in the bilges, not necessarily that he has gone over every one of them, but he ought to be directed to trace at least one important range of pipes, and to thoroughly satisfy the Examiner that he could be safely trusted to manipulate the valves or cocks in connection therewith. It will not often be practicable for the candidate actually to work engines under steam but he must satisfy the Examiner that he knows how to do so and that he is aware of the precautions to be taken in regard to water in the cylinders, etc. It is most important that a candidate should show that in the event of an accident depriving him of the assistance of Engineers he knows what to do to safely take his vessel to an anchorage, or to stop the engines and proceed under sail alone.

The examination of a Mate in steam is the same as that of a Master. The knowledge required has no reference to the Mate's position.

A mate may be examined but such examination implies that the Mate may one day be a Master, when the possession of the knowledge will be an advantage to him in the discharge of his duties.

[1] Time to count in full up to three years or in the case of students who were in training in or before September 1908, up to four years under the following conditions —

(a) A certificate of practical workmanship and good conduct must be produced
(b) A student must have been at least 20 on completion of his training
( ) Any deficiency in workshop service to be made good by service as engine fitter in shops where steam engines are made or repaired

[2] One third of time to count with a maximum of one year
[3] Two thirds to count with maximum of two years eight months
[4] One sixth of the time only to be counted
A complete session to count as six months
[6] One-third of the time only to be counted
Half the time only to be counted
[8] Two thirds of time to count with a maximum of two years for three year students, and two years and eight months for four year students who have spent three summer sessions in the works of a maker of steam engines, for which no separate allowance is claimed
[9] A complete session to count as four months
[10] Time to count only in the case of students who have passed through the Mechanical Engineering courses

(II) EVENING CLASSES

Time spent in attending Evening Classes in Engineering at approved Technical Schools is accepted as equivalent to workshop service five hours in the classes being reckoned as equivalent to one day, and two-thirds of the number of days so obtained counting as workshop service subject to the provisions laid down in rule 42

No 33Marine—Notification—In exercise of the powers conferred by section 4 of the Bengal Steam-boilers and Prime-movers Act, 1879 (Bengal Act III of 1879) the Governor in Council is pleased to make the following amendments in the rules published under Notification No 52Marine dated the 31st May 1910 —

Amendments

1 In rule XII—

(*a*) *after* the words will be ready for inspection *add* the following words —

and the prescribed fee for inspection must be paid, with the application to the office of the Commissioner of Police Calcutta, and

(*b*) *after* the words on receipt of such application, *insert* the following —

with the receipt by the Police office cashier showing that the fee for inspection and the extra fee, if any, chargeable for inspection on a Sunday or other holidays as laid down in rule XXI have been paid '

2 *Omit* the last sentence of rule XIV namely, the sentence beginning with the words 'the declaration shall then' and ending with the words prime mover concerned '

3 *For* rule XV *substitute* the following rule —

XV Upon receipt of the declaration in the office a certificate shall be prepared in the form prescribed by the Act (Form No 3 appended hereto) Such certificate shall be signed by the Inspector and the Vice-President and shall be delivered to the owner manager or agent of the steam-boiler inspected

If owing to the defective condition of a steam-boiler or for any other reason a certificate in the prescribed form cannot be granted but the Inspector considers that the steam boiler can only be worked at a reduced pressure or that it has been rendered unfit for further use a certificate to that effect may be granted to the applicant '

4 In rule XVI—

(*a*) *for* the words certificate of inspection granted under the Act ' *substitute* the words inspection of a boiler to be made

(*b*) *delete* the word 'inspected' *after* the words manager or agent of the steam boiler," and

(*c*) *insert* the words in advance with the application *after* the words shall pay '

5 In rule XVII *for* the words and figure ' Form No 4" *substitute* Form No 3"

6 *For* the last sentence of rule XXI *substitute* the following —

An additional fee of Rs 25 shall be charged for the inspection of a boiler on a Sunday, Xmas Day, New Year's Day, Good Friday and King-Emperor's Birth Day"

NOTIFICATIONS

24-Parganas

No 957S R—The 30th March 1918—Babu Kshetra Mohan Bose, Superintendent of the Jorehat distillery, Assam, is appointed, with effect from 1st April 1918, to be an Inspector of Excise and Salt of the second grade and is posted to the 24-Parganas

No 961S R—*The 30th March 1918*—In exercise of the powers conferred by section 86 of the Bengal Excise Act, 1909 (Bengal Act V of 1909), as amended by the Bengal Excise (Amendment) Act, 1914 (Bengal Act VII of 1914) read with section 22 of the Bengal General Clauses Act, 1899 (Bengal Act I of 1899), the Governor in Council is pleased to make the following amendments in the rules published under Notification No 601S R, dated the 30th March 1915, in the *Calcutta Gazette Extraordinary* of the 1st April 1915 (as subsequently amended), namely —

I In rule 134 sub rule (*1*) *delete* the words "and a ticket separately"

II In rule 143, after the words "the quantity of *ganja* required," *insert* the words "and, in the case of export

III In rule 147, sub rule (*3*), *for* the words "the warehouse clerk concerned and of the jimadar of the guard" *substitute* the words an officer not below the rank of Sub-Inspector

IV In rule 148, *delete* the words "or a licensed vendor of the Presidency of Bengal holding a pass for the transport of *ganja* from Naogaon"

V *For* rules 150 and 151 *substitute* the following rules —

150 (*1*) Where there is a warehouse provided by Government all *ganja* and *bhang* shall be stored therein

(*2*) Where there is no warehouse provided by Government the Naogaon Ganja Cultivators' Co-operative Society, Ltd, shall store *ganja* or *bhang* in a private warehouse in a situation convenient of access to Excise Officers and so constructed that any *ganja* or *bhang* stored therein shall be perfectly secured against fraud or depredation

151 A warehouse shall be under the joint lock and key of the officer in charge thereof and of the authorised representative of the Naogaon Ganja Cultivators Co-operative Society Ltd The lock affixed by the officer in charge shall be supplied by Government and the key shall remain in the personal custody of the officer in charge

VI *Delete* rule 152

VII *For* rules 153 and 154 *substitute* the following rules —

"153 (*1*) Immediately on arrival of a consignment of *ganja* or *bhang* at a warehouse the Superintendent of Excise, or such other officer as may be authorized by the Collector in this behalf, shall ascertain by personal inspection of the consignment and by weighment that the seals of the bags or chests are not broken and that the gross weight of each bag or chest corresponds with that noted in the pass He shall open each bag or chest examine the condition of the *ganja* or *bhang* and ascertain if it has in any way been tampered with

(*2*) If the weight should disclose a deficiency in the gross weight of the consignment the officer conducting the weighment shall weigh the *ganja* or *bhang* and the bags or chests separately He must then re-seal the bags or chests

(*3*) If the covering of any bag or chest appears to have been tampered with, or if any bag or chest be received without the original seal, or if the gross weight as ascertained by actual weighment be less than that given in the invoice by one seer the officer in charge of the warehouse shall examine the *ganja* or *bhang* in such bag or chest with special care and, if there is reason to believe that the bag or chest has been tampered with, shall immediately report the case to the Collector with a view to the institution of proceedings for its confiscation should the Collector so see fit. The full duty must at once be levied on any deficiency in weight

(*4*) Such deficiency shall ordinarily be calculated on the total weight of *ganja* or *bhang* in each consignment, and not on the weight in each bag or chest, compared with the entries in the pass But it shall be open to the Collector to order that any bag or chest which appears to have been tampered with shall be separately dealt with and that any dust or foreign matter which may appear to have been fraudulently introduced shall be separated from the *ganja* or *bhang* before the weighment of the latter with a view to ascertaining the deficiency

(*5*) If there be any increase of weight, the full quantity delivered, including such increase shall be entered in the stock registers

(6) No allowance shall be made on account of wastage or dryage in transit from the public warehouse to district warehouses or from one district warehouse to another

154 (1) Stock shall be taken by the Collector, or, in a subdivision, by the Subdivisional Officer, or by the gazetted officer, deputed by the Collector or Subdivisional Officer in each warehouse between 25th and 31st March and to avoid complication of accounts no *ganja* or *bhang* shall be issued from any warehouse from the day of weighment to 31st March.

(2) All the bags or chests shall be opened and the *ganja* and *bhang* taken out, and the *ganja* or *bhang* classified as unfit for use, if any shall be separated The *ganja* and *bhang* fit for use, that unfit for use and refuse, respectively, shall be separately weighed and the *ganja* and *bhang* fit for use replaced in sealed bags or chests The *ganja* or *bhang* classified as unfit for use and the refuse, if any must be destroyed on or before 31st March with the approval of the Collector in the presence of the Superintendent of Excise or Subdivisional Officer or other gazetted officer deputed to take stock, and written off the account on or before the 31st March The officer in whose presence *ganja* or *bhang* unfit for use and refuse is destroyed shall record a certificate that this has been done

(3) The Society shall be responsible for any deficiency in excess of 2½ per cent and duty at the rate imposed under section 27 of the Act shall be realized on such deficiency on or before the 31st March *Ganja* or *bhang* transported to another warehouse within one month of the date on which it was stored shall be excluded when calculating the allowance for wastage to be made in the warehouse from which such *ganja* or *bhang* was transported

BILL

to supplement, and in certain matters to supersede, the Royal Charter of Incorporation and the Statutes and Regulations of the Serampore College

Preamble

WHEREAS, on the 23rd day of February, 1827, the institution established in Serampore, Bengal, and known as the Serampore College, was incorporated by Royal Charter granted by his late Danish Majesty, King Frederick the Sixth, with the powers and privileges in the said Royal Charter set forth, including the power of conferring upon the students of the said College degrees of rank and honour according to their proficiency in science,

And whereas by Article VI of the Treaty of Purchase, dated the 22nd February, 1845, transferring Serampore to the British Government, it was provided that the rights and immunities granted to the Serampore College by the said Royal Charter, as translated and contained in Schedule I to this Act, should not be interfered with, but should continue in force in the same manner as if they had been obtained by a Charter from the British Government, subject to the general law of British India,

And whereas Statutes and Regulations for the better government of the said College and management of its concerns, as contained in Schedule II to this Act, were, on the 12th day of June, 1833, made and established under the powers conferred by Article 4 of the said Royal Charter,

And whereas, under the provisions of the said Royal Charter, the Council of the College consists of a Master or President and two or four members elected as provided in the said Statutes and Regulations, and the management of the College and its general order and government is vested in the Master and Council and the said power of conferring degrees of rank and honour is vested in the first Council and their successors for ever,

And whereas it is considered that in order to give effect, under the conditions now existing, to the intentions of his late Danish Majesty and of the founders of the said College, that is to say, to promote piety and learning, particularly among the native Christian population of India, the amendment of the constitution of the College, by the enlargement of the Council on an interdenominational basis, with power to delegate some of its functions, in manner hereinafter appearing, is required,

And whereas the present Council of the said College consists of the Reverend George Pearce Gould, M.A., D.D., Master and President George Barclay Leechman, Esq., Sir George Watson Macalpine, LL.D., the Reverend Robert Forman Horton, M.A., D.D., and the Reverend George Howells, M.A., PH.D., Principal of the College,

And whereas it is deemed expedient by the Governor in Council, with the consent of the said

The Serampore College Bill, 1918

(Clauses 1—6)

Council of the Serampore College, that a Faculty and Senate be constituted for the said College in manner hereinafter appearing and that suitable standards be imposed in regard to any secular degrees that may hereafter be conferred by the said Council under the terms of the said Royal Charter,

And whereas it is necessary to make provision for the above purposes by subjecting the said Royal Charter, Statutes and Regulations to an Act of the legislature under the general law of British India in accordance with the terms of the aforesaid Treaty,

And whereas the previous sanction of the Governor General in Council has been obtained to the passing of this Act,

It is hereby enacted as follows —

Charter of Incorporation of the Serampore College

WE Frederick the Sixth, by the Grace of God King of Denmark, the Venders and Gothers Duke of Slesvig Holsten, Stormarn, Ditmarsken, Limessborg and Oldenborg, by these writings make known and publicly declare, that whereas William Carey and Joshua Marshman, Doctors of Divinity, and John Clark Marshman, Esq, inhabitants of our town of Fredericksnagore (or Serampore) in Bengal, being desirous of founding a College to promote piety and learning particularly among the native Christian population of India, have to secure this object erected suitable buildings and purchased and collected suitable books maps, etc, and have humbly besought us to grant unto them and such persons as shall be elected by them and their successors, to form the Council of the College in the manner to be hereafter named, our Royal Charter of Incorporation that they may the more effectually carry into execution the purposes above-mentioned —We being desirous to encourage so laudable an undertaking, have of our special grace and free motion ordained, constituted, granted and declared, and by these presents We do for ourselves our heirs and successors ordain, constitute, grant and declare

1. That the said William Carey, Joshua Marshman and John Clark Marshman, and such other person or persons as shall successively be elected and appointed the Council of the said College, in the manner hereafter mentioned, shall by virtue of these presents be for ever hereafter one body politic and incorporate by the name of the Serampore College for the purposes aforesaid to have perpetual succession and to have a common seal, and by the said name to sue and to be sued, to implead and be impleaded, and to answer and be answered unto in every court and place belonging to us, our heirs and successors

2. And We do hereby ordain, constitute and declare that the persons hereby incorporated and their successors shall for ever be competent in law to purchase, hold and enjoy for them and their successors any goods and chattels whatsoever and to receive, purchase, hold and enjoy, they and their successors, any lands, tenements or hereditaments whatever and that they shall have full power and authority to sell, exchange or otherwise dispose of any real or personal property to be by them acquired as aforesaid, unless the sale or alienation of such property be specially prohibited by the donor or donors thereof, and to do all things relating to the said College or Corporation in as ample a manner or form as any of our liege subjects, or any other body politic or corporate in our said kingdom or its dependencies may or can do

3. And We do hereby ordain, grant and declare that the number of Professors Fellows or Student Tutors and Students shall be indefinite and that the said William Carey, Joshua Marshman and John Clark

(Schedule I—Charter of Incorporation of the Serampore College.)

Marshman shall be the first Council of the said College, and that in the event of its appearing to them necessary during their lifetime or in the case of the death of any one of the three members of the said first Council, the survivors or survivor shall and may under their respective hands and seals appoint such other person or persons to be members of the Council of the College, and to succeed each other so as to become members of the said Council in the order in which they shall be appointed, to the intent that the Council of the said College shall for ever consist of at least three persons

4 And We do hereby further ordain, grant and declare, that for the better government of the said College and the better management of its concerns, the said William Carey, Joshua Marshman and John Clark Marshman, the members of the first Council, shall have full power and authority for the space of ten years from the date of these presents, to make and establish such Statutes as shall appear to them useful and necessary for the government of the said College, in which Statutes they shall define the powers to be entrusted to their successors, to the Professors, the Fellows or Student Tutors and the other officers thereof, and the duties to be performed by these respectively for the management of the estates, lands, revenues and goods—and of the business of the said College, and the manner of proposing, electing, admitting and removing all and every one of the Council, the Professors, the Fellows or Tutors, the officers, the students and the servants thereof, and shall make and establish generally all such other Statutes as may appear to them necessary for the future good government and prosperity of the said College, provided that these Statutes be not contrary to the laws and Statutes of our realm

5 And We do hereby further ordain, grant and declare that the Statutes thus made and established by the said three members of the first Council and given or left in writing under their respective hands, shall be valid and in full force at the expiration of ten years from the date of these presents, so that no future Council of the College shall have power to alter change or vary them in any manner whatever, and that the Statutes shall for ever be considered the constitution of the said College And We do hereby appoint and declare that these Statutes shall be made and established by the said William Carey, Joshua Marshman and John Clark Marshman alone, so that in case either of them should die before the expiration of ten years, the power of completing or perfecting these Statutes shall devolve wholly on the survivors or survivor, and that in case all three of them should die before the expiration of ten years, the Statutes which they have left in writing under their hands, or under the hand of the last survivor among them, shall be considered "The Fundamental Statutes and Constitution of Serampore College", incapable of receiving either addition or alteration, and shall and may be registered in our Royal Court of Chancery as "The Statutes and Constitution of Serampore College"

The Serampore College Bill, 1918

(Schedule I—Charter of Incorporation of the Serampore College)

6 And We do hereby further appoint, grant and declare that from and after the completion of the Statutes of the said College in the above said time of ten years, the said Council of the College shall be deemed to consist of a Master or President and two or four members who may be Professors or otherwise as the Statutes may direct so that the said Council shall not contain less than three, nor more than five persons, as shall be defined in the Statutes The Council shall ever be elected as the Statutes of the College may direct, yet the said Master or President shall always previously have been a member of the College, and upon the decease of the said Master or President, the Council of the said College shall be unable to do any act or deed until the appointment of a new Master or President, save and except the appointment of such a Master

7 And We further appoint, grant and declare that the said William Carey, Joshua Marshman and John Clark Marshman the members of the first Council, and their successors for ever, shall have the power of conferring upon the students of the said College, native Christians as well as others, degrees of rank and honour according to their proficiency in as ample a manner as any other such College yet the said Serampore College shall only have the power of conferring such degrees on the students that testify their proficiency in Science, and no rank or other special right shall be connected therewith in our dominions And We do hereby further appoint grant, and declare, that after the expiration of the said ten years the said Council of the College and their successors for ever shall have power to make and establish such orders and bye-laws as shall appear to them useful and necessary for the government of the said College and to alter, suspend or repeal those already made, and from time to time make such new ones in their room as shall appear to them most proper and expedient provided the same be not repugnant to the Statutes of the College or the laws of our realm, and that after the expiration of these ten years any member of the Council shall have power to move the enactment of any new bye-law, or the alteration, suspension or repeal of any existing one provided notice of such motion shall have been delivered in writing to the Master and read from the Chair at one previous meeting of the Council of the said College but that no such motion shall be deemed to have passed in the affirmative until the same shall have been discussed and decided by ballot at another meeting summoned especially for that purpose a majority of the members then present having voted in the affirmative, and in this as in all other cases, if the votes be equal, the Master or President shall have the casting vote

SCHEDULE II

[*See* Preamble and sections 10 (*1*) 14 and 15]

Statutes and Regulations of the Serampore College

June 12th, 1833

1 Article the Third of the Charter granted by His Danish Majesty, having authorized the first Council of Serampore College in their life-time to nominate under their hand and seal such other person or persons for colleagues or successors as may to them appear most proper so that the Council shall always consist of at least three persons, their successors in the Council shall be competent in like manner to nominate in their life-time under their separate hand and seal such person or persons as they may deem most proper to fill vacancies then existing or which may occur on their demise, members thus nominated and chosen shall succeed to the Council in order of their nomination

2 It being fixed in the Charter that the Council must consist of the Master or President and at least two, but not more than four members and that on the demise of the Master no act shall be done until another be elected, the Master and Council for the time being shall appoint the next Master under their separate hand and seal If on the demise of a Master no one be found thus appointed under the hand and seal of a majority of the Council, the senior member of the Council shall succeed as Master

3 The Charter having given the casting vote to the Master, in all cases when the votes are equal the casting vote shall lie with the Master, and if there be no Master, it shall lie with the Senior Member of the Council

4 Learning and piety being peculiar to no denomination of Christians, one member of the Council may at all times be of any other denomination besides the Baptist to preserve the original design of the Institution However if on the election of a Master a number of the Council be equally divided that part which is entirely of the Baptist denomination shall have the casting vote, whether it includes the Master or not

5. The management of the College, including its revenues and property, the choice of the Professor and Tutors, the admission of students, the appointment of all functionaries and servants and the general order and government of the College, shall ever be vested in the Master and the Council The Master shall see that the Statutes and Regulations of the Council be duly carried into effect, and take order for the good government of the College in all things His signature is necessary to the validity of all deeds, instruments, documents and proceedings

6 "The first Council and their successors for ever" being authorized by the Charter ' to confer such degrees of rank and honour as shall encourage learning"

The Serampore College Bill, 1918

(Schedule II —Statutes and Regulations of the Serampore College)

in the same manner as other Colleges and Universities they shall from time to time confer degrees in such branches of Knowledge and Science as may be studied there, in the same manner as the Universities in Denmark, Germany and Great Britain In doing this the Master and Council shall *ad libitum* call in the aid of any or all the Professors of Serampore College All such degrees shall be perfectly free of expense to the person on whom they may be conferred, whether he be in India, Europe or America

7 No oaths shall be administered in Serampore College either to the Members of the Council, the Professors and Tutors, or the students In all cases a solemn promise, duly recorded and signed by the party, shall be accepted instead of an oath

8 Marriage shall be no bar to any office or situation in Serampore College from that of the Master to that of the lowest student

9 The salaries of the Professors and Tutors in Serampore College shall be appointed and the means of support for all functionaries students and servants be regulated by the Council in such manner as shall best promote the objects of the Institution

10. It is intended that neither the Master nor any Member of the Council in general shall receive any salary But any Master who may not previously reside in the College shall have a residence there free of rent for himself and his family And if the Council shall elect any one in Europe or in America, whom they deem eminent for learning and piety, a member of the Council, with a view to choosing him Master should they on trial deem him worthy, the Council shall be competent to appoint him such salary as they may deem necessary, not exceeding, however, the highest given to a Professor

11 As the founders of the College deem the belief of Christ's Divinity and Atonement essential to vital Christianity, the promotion of which is the grand object of this Institution, no one shall be eligible to the College Council or to any Professorship who is known to oppose these doctrines, and should any one of the Professors or any member of the Council unhappily change his views after his election as to oppose these fundamental doctrines of Christianity, on this being clearly and decidedly proved from his teaching or his writings, he shall vacate the office he previously held But every proceeding of this nature on the part of the College Council shall be published to the Christian world, with the proofs on which it may rest, as an Appendix to the succeeding Report

12. Members of the Council are eligible from among the Professors of the College, or from among any in India, Europe, or America whom the College Council may deem suitable in point of learning, piety, and talent

The Serampore College Bill, 1918

(Schedule II—Statutes and Regulations of the Serampore College)

13 Students are admissible at the discretion of the Council from any body of Christians, whether Protestant, Roman Catholic, the Greek, or the Armenian Church, and for the purpose of study, from the Musalman and Hindu youth, whose habits forbid their living in the College No caste, colour, or country shall bar any man from admission into Serampore College

14 Expulsion shall be awarded in cases of open immorality, incorrigible idleness, neglect of the College Statutes and Regulations, or repeated disobedience to the officers of the College

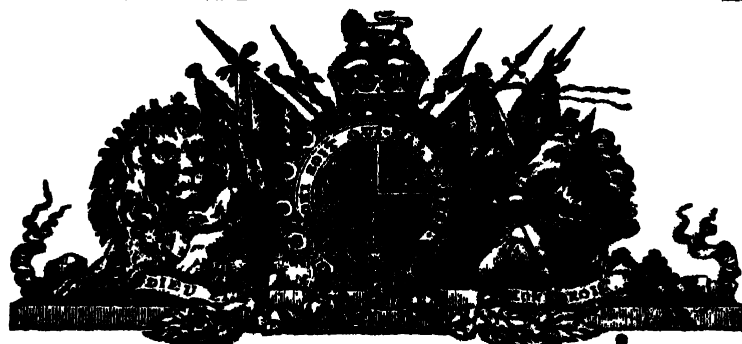

15 Any person in India, Europe or America shall be at liberty to found any Professorship, or to attach to Serampore College any annual exhibition or prize for the encouragement of learning in the same manner as in Universities of Great Britain, regulating such endowment according to their own will, and it shall be the duty of the College Council to carry such benefactions into effect in strict consonance with the will of the donors as far as shall be consistent with the Statutes of the College

16 It shall be lawful for the first Council of the College or their successors to make and rescind any bye-laws whatever, provided they be not contrary to these Statutes

17 The Charter having declared that the number of the Professors and Students in Serampore College remains unlimited they shall be left thus unlimited, the number to be regulated only by the gracious providence of God and the generosity of the public in India, Europe and America

APPORTIONMENT ORDER

No 3359L R—The 5th April 1918—Under section 114 of the Bengal Tenancy Act (Act VIII of 1885) the Governor in Council is pleased to direct that the cost of the survey and the preparation of a record-of-rights in respect of the lands comprised in the tenure known as Bel Pabla appertaining to Syedpur Trust Estate bearing touzi No 188 of the Khulna Collectorate undertaken under Government Notification No 904T R dated the 30th May 1916, published in the *Calcutta Gazette* of the 14th June 1916, shall be borne by the landlords and tenants in the manner specified below

Khulna

The balance of the total cost remaining after recovery has been made in the said manner shall be borne by the applicant at whose instance the proceedings were undertaken in addition to what may be payable by him according to this apportionment order as landlord

(1) A rate of annas twelve per acre shall be levied on all lands in the said tenure of which the raiyats shall pay annas six per acre and their landlords of all grades together annas six

(2) Landlords shall pay the raiyat's share for lands in their khas possession and the raiyats shall pay the full raiyati share for lands sub-let as well as for those in their khas possession

(3) As between the different grades of landlords the landlord's share shall be apportioned thus—

(a) Permanent tenure holders whose rent or rate of rent is fixed in perpetuity shall pay the whole of the landlord's share

(b) Other permanent tenure-holders shall pay three-fourths of the landlord's share (the calculation being made from the lowest grade of landlords immediately above the raiyats)

(4) Rent-free holders, whether of the degree of raiyat or landlord, shall pay the whole of the landlord's share for their lands

(5) The following minimum charges shall be adopted —

(a) The minimum charge shall be the charge for one acre

(b) There shall be no charge for broken portions of less than half an acre but if the broken portion be half an acre or over it shall be taken as a full acre

(v) the place or places district or districts where the income accrues

Rules for the determination of the taxable income of Insurance Companies

21 The taxable income of Life Assurance Companies shall be determined by taking the annual average of the total profit disclosed by the last preceding valuation but if the tax deducted at the source from interest on investments exceeds the tax on profits thus calculated, a refund may be made of the amount by which the deductions from interest on investments exceed the tax payable on profits

22 The taxable income derived from the Annuity and Capital Redemption business of companies the profits of which may equitably be ascertained from the results of an actuarial valuation shall also be determined in accordance with the method applicable to the determination of the taxable income of Life Assurance Companies

23 Amounts *actually credited* by an Insurance Company other than a Life Assurance Company in the ordinary accounts of its business for the year of assessment to any fund established for the *sole purpose* of forming a reserve to meet outstanding or unexpired liabilities to *policy-holders* (including therein risk of exceptional losses) shall be treated as expenditure incurred solely for the purpose of earning the profits of the business in determining the taxable income of the Insurance Company in that year

24 Amounts actually credited by an Insurance Company of any kind in the ordinary accounts of its business for the year of assessment to its Investment Reserve Fund for the purpose of meeting depreciation in the value of its securities shall be treated as expenditure incurred for the purpose of earning the profits of the business in determining the taxable income of the Insurance Company in that year

25 The taxable income of companies carrying on Dividing Society or Assessment business shall be assessed at 15 per cent of the premium income

in the year of assessment. In cases of non-resident companies carrying on Dividing Society or Assessment business in India, the assessment shall be 15 per cent of the Indian premium income.

26. The actual assessment of the taxable income of an Insurance Company carrying on more than one class of business shall, in accordance with the provisions of the Act, be determined as to its rate and amount by its aggregate taxable income from all the classes of business which it carries on.

Rules for the composition of assessments.

27. If an assessee desires to compound for his income chargeable to income-tax other than salaries and interest on securities, the Collector may enter into an agreement with him for a composition for the income for a term not exceeding three years.

28. An application for the composition shall be made before the 30th November in each year, and may be admitted on the average income of not less than three next preceding years as the Collector may direct.

29. The agreement for the composition shall be in Form XXI contained in the Appendix and shall be executed in duplicate, each copy being signed by the Collector and the person compounding. One copy shall be delivered to the person compounding and the other copy shall remain with the Collector.

30. The agreement shall provide for the payment in each year of the period comprised in the agreement of the tax payable in respect of the composition and the amount of the tax shall be recoverable in the same manner and by the same means as provided for in the Act for any annual assessment made for the source of income mentioned in the agreement.

31. The contract in respect of an agreement for composition of income shall be a personal one and shall be discharged with the death or insolvency of the person compounding or with the entire closure of business or source of income for which the composition has been made. It shall not however be discharged with only a partial closure of business or source of income.

Rules relating to refund of income-tax.

I.—DIVIDENDS PAID TO SHARE-HOLDERS OUT OF THE PROFITS OF COMPANIES.

32. A person claiming a refund in respect of a dividend paid to him out of the profits of a company shall present to the Collector an application in Form XXII, contained in the Appendix truly stating therein his income from all sources during the year in which the dividend has been received. He shall also submit particulars regarding his shares and dividends in Form XXIII together with the counterpart of the dividend warrant issued by the managing agent of the company or other proof by way of a certificate issued by the managing agent showing the number of shares he holds in the company and the total amount of dividend paid to him and the period for which such dividend has been paid. The Collector may after making necessary enquiries as to the total income of the applicant issue a certificate of refund on the treasury in Form XXVI if he is satisfied that the applicant is liable to tax at less than one anna in the rupee.

33. Refunds shall be admissible only in respect of dividends paid out of the profits of a company on which tax has been realized.

II.—SHARE OF PROFITS OF FIRMS ON WHICH INCOME TAX HAS BEEN LEVIED IN ACCORDANCE WITH THE PROVISO TO SECTION 14 OF THE ACT PAID TO PARTNERS.

34. Any person claiming a refund in respect of his share of the profits of a firm on which income-tax has been levied at the maximum rate under proviso to section 14 of the Act, shall present to the Collector an application in Form XXII, showing all particulars regarding his shares in Form XXIII with a certificate from the head of the firm showing the share of profits paid to him and the period for which the same have been paid. The Collector

may after making necessary enquiries as to the total income of the applicant, issue a certificate of refund on the treasury in Form XXVI if he is satisfied that the applicant is liable to tax at less than one anna in the rupee

III.—PROMISSORY NOTES, DEBENTURES, STOCK OR OTHER SECURITIES OF THE GOVERNMENT OF INDIA

35. (1) In the case of a promissory note, debenture, stock or other security of the Government of India, the owner of the security claiming total exemption from taxation, abatement or a refund shall present to the Collector an application in Form XXII, truly stating therein his income from all sources during the twelve months ending on the 31st day of March next preceding that in which the interest is to be drawn or during the twelve months in which such interest has been drawn as the case may be and the declaration contained in the form duly signed by him before the Collector or any officer appointed in this behalf or attested by a Justice of the Peace or a Magistrate

(2) The securities of the Government of India held by him shall also be shown in detail in Form XXIII

36. On receipt of the application the Collector may, after making such enquiries as he may deem necessary in order to ascertain the total income of the applicant, issue a certificate in Form XXV, if he is satisfied that the applicant is liable to tax at less than one anna in the rupee or entitled to exemption, as the case may be

37. The applicant or a person duly authorized by him in this behalf shall receive the certificate from the Collector, which may then be presented to the Bank or Government Treasury for the purpose of drawing interest and obtaining the abatement or refund due (if any)

38. The owner of any such securities who is entitled to a refund under these rules may, at his option instead of taking the refund obtain credit from the Collector for any tax deducted from the interest on his securities in his next adjustment under section 19

39. Subject to the provisions of section 37 of the Act, applications for refunds may be made annually or half-yearly according to the convenience of security holders No claim to refund will be allowed unless it is made within one year from the last day of the year to which the claim relates

IV.—DEBENTURES OR OTHER SECURITIES FOR MONEY ISSUED BY OR ON BEHALF OF A LOCAL AUTHORITY OR A COMPANY

40. (1) In the case of a debenture or other security for money issued by or on behalf of a local authority or Company, the owner of the security claiming a refund shall present to the Collector an application in Form XXII, together with details of his securities shown in Form XXIII The Collector may, after making the necessary enquiries regarding the applicant's sources of income and after verifying from his own records that the tax has been paid into the treasury, issue a refund order in Form XXVI if he is satisfied that the applicant is entitled to a refund

(2) The applicant or a person duly authorized by him to receive the refund on his behalf may present the certificate (order of refund) at the treasury and obtain the amount due

(3) The Treasury Officer shall show the amounts so refunded in his daily advice list sent to the Collector

(4) The owner of any such securities who is entitled to a refund under these rules may, at his option, instead of taking the refund obtain credit from the Collector for any tax deducted from the interest on his securities in his adjustment under section 19

41. Subject to the provisions of section 37 of the Act, applications for refunds may be made annually according to the convenience of security-holders No claim to refund will be allowed unless it is made within one year from the last day of the year to which the claim relates

V.—GENERAL RULES APPLICABLE TO ALL REFUNDS

42. (1) A refund shall not be paid, except at the place where the tax in respect of which the refund is claimed has been received

(2) If any person claiming a refund is not a resident of the place where the tax has been received he may apply to the Collector of the place where he resides or carries on his business for a certificate in Form XXIV, showing

his income from all sources and send it, together with a declaration in Form XXII and a statement of all particulars regarding his securities and shares in Form XXIII, to the Collector of the place where the tax has been received and who is empowered to grant the refund, and on receipt of such certificate and application the latter officer shall proceed as prescribed in the foregoing rules

43 When a declaration of income in Form XXII has been received the Collector may issue certificates in Form XXVI at any time during the financial year in which such declaration has been received without requiring a fresh declaration of income

44 The Collector shall keep on record all applications in Form XXII received by him and copies of certificates of refund in Form XXVI issued by him for a period of five years from the end of the financial year in which such applications have been received

45 Refunds due from the Collector may, if so desired by an applicant be remitted by post at his cost

46 Applications for refunds due to modification of assessments on objections or review may be made free of stamp duty to the Collector who will grant such refunds as may be admissible on certificates in Form XXVI on the treasury

Miscellaneous rules

47 Any claim under section 3 sub section (2), clause (2) to exemption from the levy of the tax on the interest of securities held under trust or other legal obligation must be supported by a certificate from the Collector which shall be in Form XXVII contained in the Appendix

48 A claim to exemption preferred under section 12, sub-section (2) of the Act on that portion of income which is paid as a premium to an Insurance Company or as a contribution to a Provident Fund shall not be entertained if the claim is made after the expiration of one year from the last day of the financial year during which the premium or contribution was paid

49 When a deduction is made from the amount of salary, pension or annuity liable to assessment on account of payment made to a Life Insurance Company the sum deducted shall if the premium is payable in sterling be the actual cost of remittance as stated by the assessee or if the assessee is unable to state such actual cost the equivalent in rupees of the sterling payment calculated at the official rate of exchange for the year in which the deduction is made

50 A claim to exemption must be supported either—

(1) by the original receipt granted by the Insurance Company or the Manager or Secretary of the Provident Fund, or

(2) (in the case of a deduction claimed by a servant of the Government or of a Local Authority) by a copy of the same presented together with the original to the officer who pays the salary pension or annuity and attested by that officer, who should after such attestation, return the original or

(3) by a duplicate receipt given by the Insurance Company or the Manager or Secretary of the Provident Fund or

(4) by a certificate of payment given by the Insurance Company or the Manager or Secretary of the Provident Fund

51 In cases (1) (3) and (4) of the preceding rule, the receipt or certificate should be returned as soon as the fact of payment is admitted in due course of audit

52 When the Collector is satisfied that none of the above prescribed documents can be produced without an amount of delay expense or inconvenience, which under the circumstances of the case would be unreasonable he may accept such other proof of payment of the premium as he may deem sufficient

53 In calculating the amount of tax payable the amount due on a fraction of rupee shall be neglected Thus the tax to be realized on a monthly salary of Rs 166 10-8 is Rs 4 5 2 only

54 After the close of the year of assessment the Accountant-General Bengal shall submit to Government returns Nos I and II in Forms XXVIII and XXIX, respectively contained in the Appendix

55 The forms of registers to be maintained by Collectors and others for the purpose of showing the demand and collections of the tax the various classes of incomes assessed, and the working of the several provisions of the Act will be prescribed by Government

NOTIFICATION

WHEREAS the Governor General in Council is of the opinion that the following articles can be utilized in connection with the prosecution of the present war, namely —

Spring steel of the following size —

1½"×½"

Now therefore, in pursuance of rule 11A of the Defence of India (Consolidation) Rules 1915, I being an officer of Government authorized by the Governor-General in Council in this behalf by an order in writing hereby require all persons within the presidency of Bengal, who in the course of business, whether on their own behalf or on behalf of others, hold or have control over any such spring steel to send to the Controller Bengal Circle Indian Munitions Board, 1, Kyd Street, Calcutta, the following particulars of all such spring steel, namely —

(*a*) the quantity held of each size

(*b*) the place or places at which held,

(*c*) the price (if known) at which the owner or person entitled to sell such spring steel is willing to sell the same by agreement,

and I further require that every person shall refrain from disposing of the said spring steel from the date of this notification until the said particulars have been furnished as prescribed above and for a further period thereafter not exceeding fourteen days, after the expiry of which period the whole or any part of the said spring steel may be disposed of as if this notification had not been issued, unless, before the expiry of such period, a notice of

requisition under rule 11AA of the Defence of India (Consolidation) Rules, 1915, has been issued in respect of the whole or part of the said spring steel by me

Provided that this order shall only be held to apply to stocks held in the ordinary course of business for sale Provided also that notwithstanding this order permits for the sale of such spring steel required for any essential industry may be obtained on application to me either by the buyer or seller at my office

LONDON GAZETTE

No 665—The following is published for general information —

Fourth Supplement dated the 10th January 1918 to the London Gazette of the 8th January 1918

War Office,
10th January 1918

The Secretary of State for War has received the following Despatch addressed to the Chief of the General Staff, India by Lieutenant-General Sir Stanley Maude K C B, late Commanding-in-Chief Mesopotamian Expeditionary Force —

General Headquarters,
Mesopotamian Expeditionary Force,
October 15th, 1917

SIR,

1 I have the honour to submit herewith a report on the operations carried out by the Mesopotamian Expeditionary Force during the period extending from April 1st to September 30th

2 My previous despatch included a narrative of the operations subsequent to the fall of Baghdad up to March 31st, by which date our Columns had driven the enemy north-east, north and west in divergent directions along the Dialah, Tigris and Euphrates, respectively, and our advanced troops had established a screen covering Baghdad being disposed approximately on the line Shahraban Dogameh-Mushaidie-Feluja In order however to provide for the security of Baghdad, which is an open city devoid of means of defence it seemed desirable to prosecute our operations against the shattered but reinforced Columns of the 18th Turkish Corps, with which we had been so recently engaged whilst keeping careful watch on the movements of the 13th Turkish Corps which was falling back before our Russian Allies lest the enemy should detach troops from his direction against the right flank and rear of our movement towards Samariah The pressure applied by the Russian Columns which had already reached Karind with advanced troops at Khanikin assisted by our troops operating in the Jebel Hamrin as described in my last despatch, now forced the enemy to cross the Dialah and continue his retreat on Kifri

3 On April 2nd we effected a junction with General Baratoff's troops about Kizil Robat and as soon as these were well established on the line of the Dialah our Column in this vicinity—having served the double purpose of harassing the retreat of the Turks and joining hands with the Russians—was withdrawn This enabled us to resume our operations along both banks of the Tigris, which had been temporarily suspended

4 On the 6th our Cavalry moved forward to the vicinity of Deli Abbas with instructions to cover our right flank, and by delaying action to draw on gradually any movement initiated by the 13th Turkish Corps towards the Tigris On the left bank of the Tigris it seemed wiser not to commit our troops to definite action until such time as the intentions of this Turkish Corps became clearer On the right bank of the Tigris the enemy's force was estimated at 4 000 rifles with 200 sabres and 16 guns, and these were holding Harbe with advanced troops about Beled Station On the 8th our troops moved forward to attack the enemy's position covering Beled Station and good progress was made until they came under close machine gun and rifle fire from some rising ground in that vicinity The 51st Sikhs were ordered to secure this point and making good use of the broken ground and well supported by artillery, they established themselves there without difficulty and pressed forward beyond The enemy holding the station now found his position untenable, and soon his whole line was in retreat Our losses were slight but the enemy in addition to his battle casualties, lost 200 prisoners including nine officers as well as three machine guns and some rolling stock On the 9th Harbe was occupied and here a pause was ordered in order to allow for further operations on the left bank of the Tigris

5 Our troops on the left bank had driven several parties of the enemy across the Shatt El Adhaim on the 7th and on the following day a close reconnaissance of this river was carried out with a view to bridging it It now became evident, however, that the 13th Turkish Corps from Jebel Hamrin and the 52nd Division of the 18th Turkish Corps on the line of the Shatt El Adhaim were contemplating a converging movement against our troops on the left bank of the Tigris The 2nd and 14th Turkish Divisions, some 6 000 rifles strong, with 250 sabres and 32 guns moving down the right bank of the Nahr Khalis Canal towards Deltawa, had by the evening of the 9th reached a point some seven miles south-west of Deli Abbas On the following day our Cavalry, falling back under instructions, continued to draw them on whilst our Horse Artillery inflicted substantial casualties on their marching Columns and by the evening they had reached Arab Bu Abin, but the 52nd Division remained stationary on the line of the Shatt El Adhaim On the 10th the enemy was reported to be entrenching, but on the 11th he continued his advance, moving in dense columns with his left on the Nahr Khalis To meet this movement and to support our Cavalry we had detached troops from Deltawa up the right bank of the Nahr Khalis Canal towards Deli Abbas, whilst another Column, leaving sufficient troops to contain the enemy on the Shatt El Adhaim, fell upon his right flank after a night march from Dogameh This attack, resolutely pressed by two Welsh battalions and the Wiltshires, was a complete surprise, and before the enemy could recover

himself heavy casualties were inflicted on his Columns by our well handled artillery and by rifle fire Low visibility owing to mirage, heat and the absence of water hindered our operations, but the enemy was soon in retreat, and by 7 P M he had regained Ar[illegible] Bu Abin

During the early hours of the 12th the enemy continued his retreat followed by our infantry patrols and in the darkness touch with him was lost At 7 A M the Cavalry was ordered in pursuit, and at midday located him 6 miles west-south-west of Deli Abbas, covered by an entrenched rear-guard The Turks were now fighting a stubborn rearguard action, and this continued throughout the 13th and 14th, our progress being continuous but slow Our Cavalry essayed a wide enveloping movement round the enemy's right flank so as to gain the Kifri Road ahead of him but his right flank refused to the foot of the Jebel Hamrin and lack of water prevented them from reaching their objective During the night of the 14th-15th the enemy continued his retreat on Kifri and by midday on the 15th our patrols had entered Deli Abbas, where the pursuit was stopped, as it was not intended to follow the enemy into the Jebel Hamrin since the advantage of position would there have rested entirely with the defence Over 300 of the enemy's dead were buried and 1 gun and 80 prisoners were captured by us

Having disposed of the 13th Turkish Corps temporarily it was now decided to force the passage of the Shatt El Adhaim and deal with the detachment of the 18th Turkish Crops still holding it These operations commenced early on the 18th and by 6 30 A M our troops were sufficiently established on the right bank to allow of a bridge being thrown across the river The channel was narrow but full of quicksands and these caused delay but at 11-40 A M the bridge was completed, and by 2 P M our infantry had cleared the loop of the river and were moving towards the Bituri peninsula The Turkish opposition had collapsed prisoners were coming in and a composite Cavalry Brigade moved forward in pursuit This Brigade skilfully handled, pushed on resolutely and, in spite of heat and want of water, succeeded in turning the enemy's retreat into a rout His casualties in killed and wounded were heavy, and 1 300 prisoners—of which 26 were officers—and 6 machine guns were captured Indeed only a small fraction of the troops opposed to us that day effected their escape In this action an Indian Cavalry Regiment the Horse and Field Artillery Batteries and four Lancashire Battalions specially distinguished themselves

6 On the 19th the Tigris was bridged at Sinijah and riverhead was moved up to that place The enemy's opposition on the left bank having been completely destroyed, a further advance was now ordered on the right bank The Turks were holding a position about Istabulat, facing south-east, with their left resting on the river and extending over a frontage of about of 2½ miles across the Dujail Canal to the Baghdad Samarrah railway After crossing that railway their line bent back sharply, and continued more or less parallel with the railway track to a point west of Istabulat Ruins, a distance of over 3 miles The Dujail Canal diagonally situated to our advance, was a considerable obstacle, with banks 40 feet high in some places and containing water 6 feet deep and 20 to 25 feet broad and its banks had been prepared in places so as to bring enfilade fire to bear upon the ground south of it Two redoubts north of the Canal were prominent features in this section of the defence and immediately in rear of the Turkish left centre was a group of mounds affording good positions for machine guns The position was a strong one and was held by some 6,700 rifles with 200 sabres and 31 guns whilst in the vicinity of Samarrah were reserves consisting of some 1 000 rifles with 500 sabres and 15 guns The enemy's left and left centre were selected as the point of attack, and on the 20th his covering troops were driven in and an advanced line established to render it possible for our artillery to be brought forward and for the Canal to be bridged At 5 A M on the 21st his position on the north side of the Canal was resolutely attacked by the Black Watch and 8th Gurkhas, under a creeping barrage, and both battalions made steady progress In spite of a hot rifle and machine gun fire from the main position the redoubt near the river was captured, and the garrison made prisoners The other redoubt on this side of the Canal was assaulted, recaptured by the enemy, and finally secured by us, thus giving our troops a good foothold in this part of the enemy's defences At 6 30 A M, an attack by the Seaforths and 28th and 92nd

Punjabis was launched south of the Canal This advance was carried out with fine dash and gallantry across 2,000 yards of ground devoid of cover, and by 7-25 A M the enemy's front line, some 700 yards long, was in our hands Consolidation proceeded, and in spite of several counter attacks all gains were held Reconnaissances were made with a view to a further advance, but they indicated that further progress without reorganisation and careful preparation, which would only be possible under cover of darkness, would be needlessly costly It was decided therefore to devote the remainder of the day and night to establishing ourselves securely and preparing for a simultaneous attack on both sides of the Canal to be carried out next morning A counter-attack by the enemy during the afternoon was dispersed by gun and rifle fire, and his artillery was active through the afternoon

Early on the 22nd our patrols reported that the enemy opposite our right was beginning to withdraw and by 4-30 A M, the whole of the position had been evacuated, and was then occupied by us The natural and artificial strength of the position now became apparent, and the number of enemy dead testified to the tenacity with which it had been held. Our troops moved forward in pursuit at daybreak and were in contact with the enemy's main body in the vicinity of Istabulat Police Post by noon, where his defensive system consisted of detached groups of trenches partially completed The heat was great and the attack was postponed till the evening, when the assault, aided by concentrated artillery fire, was delivered in dashing style by the Leicesters supported by the 51st Sikhs and 56th Rifles, and the defence was easily penetrated The attacking troops pressed on relentlessly and rapidly some 1,200 yards further and the enemy's guns were only withdrawn just in time to avoid capture The Turks rallied and put in a series of counter-attacks with which our supporting troops dealt, but the enemy maintained a heavy fire until 8 P.M when he retreated on Samarrah This attack had been considerably aided by artillery fire from a Column detached along the left bank of the Tigris to co-operate During the day a regiment of Indian Lancers made a spirited attempt to break through the line of trenches and supported by artillery fire it captured the front Turkish trench but its advance was finally checked by fire from other trenches in rear Our captures on the 21st and 22nd amounted to 20 officers and 667 other ranks taken prisoners 14 Krupp guns, 1 59 m gun damaged 2 machine guns 16 engines and 240 trucks, 2 barges, many rifles and much ammunition and equipment

At 10 A M on the 23rd Samarrah Station was secured, the enemy offering no further resistance and retreating on Takrit, and on the 24th Samarrah Town, on the left bank, was occupied and a post established there

7 Whilst these operations were in progress on the right bank, it became evident that the 13th Turkish Corps was once more moving forward from the Jebel Hamrin but this time down the Shatt El Adhaim, against our forces on the left bank of the Tigris, and the latter were accordingly readjusted to deal with the new situation At 5 P M on the 23rd his leading echelon estimated at 2,000 rifles, with 9 guns had reached Duhaba, with his second group 17 miles in rear The chance of defeating him in detail was thus offered, and orders were issued for a night march culminating in an attack at dawn next day on his advanced troops The infantry were to attack Duhaba whilst to the Cavalry moving wide to the north, was assigned the mission of intercepting any Turkish forces moving up in support Our right came in touch with the Turks soon after daybreak, and the action developed rapidly As the pressure from our left began to be felt the Turks gave way, crossed the river, and retired rapidly up the left bank towards the remainder of their force, and in doing so presented good targets for artillery and machine-gun fire to our Cavalry This attack had been gallantly delivered by several Lancashire battalions, and as a result about 100 Turks were buried by us and 150 prisoners fell into our hands

On the morning of the 25th aeroplanes reported the Turks as retiring up both banks of the river, and our troops moved forward in pursuit By the evening of the 27th they had reached Satha Ruins, being in touch with the Turkish rearguard covering withdrawal to and occupation of a selected position in the foothills of the Jebel Hamrin, and on the morning of the 28th we occupied a line within 2 miles of the enemy's position Heat, low

visibility and engine trouble had all combined to handicap reconnaissance by land and air, so that the situation still remained somewhat obscure, and during the night of the 28th-29th a violent dust storm arose which continued intermittently for 48 hours.

Briefly put, the plan adopted was to throw our weight on the 30th up the left bank of the Shatt El Adhaim against the enemy's weaker flank and more shattered division, and then turning north and west to drive him away from water and his line of retreat. From dawn till 7 A.M. the dust storm abated and our attack on the left bank, developing at 5 A.M., was brilliantly carried out by the Cheshires and South Wales Borderers over 1,000 yards of level plain and was immediately successful. By 8 A.M. all objectives had been reached including the village of Adaim, and the retreating Turks were being engaged at long range, whilst a number of prisoners were already in our hands. Two of our Companies, however, which had lost nearly all their officers advanced too far in pursuit. For a moment they captured two batteries, a section of machine guns and many prisoners, but whilst still out of touch with the remainder of our force they were counter-attacked and isolated. They maintained a gallant hand-to-hand fight for some time, but few of them survived. This counter attack, assisted by the configuration of the ground, and the dust storm which was now raging, enabled the enemy temporarily to regain the village of Adaim but, checked here by artillery and machine gun fire, he was unable to debouch, and was ultimately driven out again by 11 A.M. and our infantry firmly re-established themselves in the village. The Turks, aided by a continuance of the dust storm, strengthened their left and secured their line of retreat to the north-east but towards evening the dust storm died down, and the enemy's second line trenches, his transport, his horse lines and his artillery north-east of the village of Adaim were shelled with good effect. Our troops bivouacked on the ground won and pushed forward patrols to maintain touch with the enemy but during the night he withdrew and at 6-15 A.M. on May 1st our aeroplanes reported him in retreat 7 miles away. In the action on the 30th the enemy suffered heavily in casualties, and our captures included 365 prisoners, 1 Hotchkiss gun, 1 machine gun, and rifles, equipment and all kinds of ammunition whilst 214 enemy dead were buried by us. During this period of hard marching and heavy fighting the Buffs specially distinguished themselves on several occasions.

8. As a result of the fighting during the month of April the enemy's 13th and 18th Corps had been driven back on divergent lines, the former into the Jebel Hamrin and the latter to Tekrit. The 13th Corps had twice taken the offensive with results disastrous to itself and the 18th Corps had been defeated and driven from its selected positions on four occasions. Our total captures for the month amounted to some 3,000 prisoners and 17 guns, besides a considerable quantity of rolling stock and booty of all kinds. The objectives which we had set out to reach had been secured, and the spirit of the enemy's troops was broken. The fighting carried out during this month had imposed a severe strain upon the troops, for the heat, the constant dust storms, and the absence of water on occasions, tested their stamina very highly. But as conditions became more trying the spirit of the troops seemed to rise, and to the end of this period they maintained the same high standard of discipline, gallantry in action, and endurance which had been so noticeable throughout the Army during the operations which led up to the fall of Baghdad and subsequently.

9. The increasing heat now rendered it necessary that the troops should be redistributed for the hot weather, and that every provision possible under existing conditions should be made with a view to guarding against the trying period which was rapidly approaching. Whilst it was necessary to hold the positions which had been so bravely won and to strengthen them defensively, the bulk of the troops were withdrawn into reserve and distributed in suitable camps along the river banks, where they could obtain the benefit of such breezes as were available and where a liberal supply of water for drinking, bathing and washing was obtainable.

For the remaining five months of the period under review the heat was considerable and during the latter part of June, July and beginning of August it was intense. Consequently movements could not be undertaken by either side without grave risk of incurring substantial casualties from

heat stroke and heat exhaustion The troops enjoyed a well-earned respite from the continuous fighting in which they had been engaged during the five months terminating in April, but they were by no means idle Our hold over the area was made secure defensive positions and pivots were prepared, and training was carried on in the early mornings, and late evenings as the temperature permitted Manly sports, too, which are so essential to the well-being of the soldier, especially when temporarily inactive in the military sense, were freely indulged in with beneficial results to the health and future fitness of the Army for service in the field Arrangements had been made for a proportion of the troops to proceed to India on leave during the summer months, and those who had been on service for a considerable time derived much benefit from the change and rest thus obtained

10 Early in June a communication was received from our Russian Allies to the effect that in consequence of the increasing heat they had found it necessary to evacuate the line of the Dialah River and they subsequently withdrew beyond Karind towards Kermanshah This rendered the occupation of Beled Ruz by us necessary, and this was carried out on the 23rd

For some time after our occupation of Baghdad tribesmen on the upper reaches of the Dialah, Tigris and Euphrates, above Baghdad were restless and it was found necessary to take punitive measures against them Columns for this purpose operated on the Euphrates from May 3rd to 10th on the Tigris from May 16th to 24th and on the Dialah from June 2nd to 8th and June 28th to July 3rd In each case salutary punishment was meted out to the delinquents Consequent upon these measures the situation became quiet on each river line and the tribesmen have generally speaking remained peacefully disposed except in the case of the operations against Ramadie referred to below, when the refractory elements were again severely dealt with

It now seemed desirable to increase our hold on the Euphrates line still further, and it was consequently decided early in July to occupy Sinn El Zibban, some commanding ground on the right bank of the Euphrates about twelve miles up stream of Feluja, which dominates the left bank of that river at its junction with the Saklawie Canal As this advance on our part would bring our right bank detachment within striking distance of Ramadie where the enemy was located the opportunity seemed favourable for attacking him with a view to covering our movement The enemy's troops at Ramadie who occupied an entrenched position covering Ramadie from the east and south east were estimated at 1,000 rifles with 100 sabres and six guns, besides some 2 000 Arabs of the Delaim tribe

On the 8th Sinn El Zibban was occupied and by the 10th the Column destined to attack Ramadie was concentrated there Careful reconnaissances of the approaches to Ramadie had already been carried out and motor vans and lorries were allotted to carry a proportion of the troops as necessary and thus minimise the amount of marching to be done in view of the heat then existing Special provisions were also made for water and for ice After a night march the Column was in touch with the Turks east of Ramadie by 4 A M on the 11th and by 8-15 A M after considerable opposition our troops had driven in the enemy's advanced troops and were preparing for the final assault against his main position But a blinding dust storm now sprang up and this added to the fact that this day marked the commencement of an abnormal heat wave rendered the position of the troops more and more difficult as time went on Observation became almost impossible and the interruption of our communications—both wireless and land line—by unlucky circumstances rendered co-ordination of measures for the attack impracticable It was therefore decided to cancel the order for the attack but the troops remained in their advanced positions throughout the day and were withdrawn during the night of the 11th-12th to the river bank about Mushaid, where shade was available, but whence they still continued to contain the Ramadie position On the 12th the heat wave was still increasing and consequently further operations against Ramadie were deemed impracticable, but the troops remained confronting the Turks as there were indications that the latter were meditating retreat As these indications did not materialise the forces withdrew to Sinn-El-Zibban on the 14th, this

movement being methodically and well carried out, and some 1,500 tribesmen who followed up the rearguard were severely handled by our Artillery and Light Armoured Motor Batteries The troops throughout the operation evinced a soldierly spirit and inflicted on their opponents severe battle casualties which considerably exceeded their own

On the Dialah front our aeroplanes reported early in August that the Turks were entrenching a position south-west of Shahraban and this was confirmed by reports received locally It was therefore decided to occupy Shahraban without further delay and for this purpose converging columns were despatched from Beled Ruz and Baqubah on the night of the 18th-19th On the 19th Misdad was seized at dawn, and on the 20th Shahraban was occupied with slight opposition the enemy retiring hastily into the Jebel Hamrin A new line was at once established and consolidated without interference on the part of the enemy

11 Plans were now maturing for the capture of Ramadie, the garrison of which had been reinforced as a result of the operations in July but the distance from Baghdad and the bad state of the communications between these two places rendered this matter one of considerable difficulty Very careful preparations were necessary before these operations could be carried out, and it was September 26th before a column of adequate size could be concentrated within striking distance of Ramadie for this purpose

The enemy held an advanced position four miles east of Ramadie on Mushaid Ridge which runs north and south and rises some 60 feet above the plain To the north of the ridge lies the Euphrates River and to the south the salt Habbaniyeh Lake The Turkish main position was semi circular in outline and was sited about one mile to the east and to the south of Ramadie The eastern front ran along but behind the Euphrates Valley Canal and the southern front across bare sandy downs extending from the Euphrates Valley Canal to the Aziziyeh Canal, which leaves the Euphrates one mile west of Ramadie and flows southwards The plan of operations was to turn the southern flank of the Mushaid Ridge secure a crossing over the Euphrates Valley Canal, and attack Ramadie from the south with the bulk of the column, whilst the cavalry operating west of the Aziziyeh Canal threw themselves across the enemy's communications with Hit by blocking the Aleppo road Steps were taken to induce the enemy to expect the main attack against his left on the Euphrates, and with this intent the river was bridged at Madhij and a road was constructed thence up the left bank whilst supplies were also collected there The distribution of the troops until the night of the 27th-28th was also designed to give colour to such a movement

At 6 P M on the 27th two infantry columns with the cavalry moved from Madhij to the position of assembly some 5 miles in front of our outposts and the infantry subsequently made a night advance some 2 miles in a westerly direction to a position of deployment, whence an attack on Mushaid could be delivered at dawn An infantry detachment also skirted the northern edge of Lake Habbaniyeh, and before daybreak on the 28th had secured important tactical features on and behind the southern flank of the Mushaid position including a dam across the Euphrates Valley Canal passable by all arms This action compelled the enemy to withdraw from Mushaid Ridge, which he shelled heavily subsequently in expectation of its occupation by our troops, but in this he was disappointed as our infantry moved south of the ridge and crossed the dam At 7 A M the cavalry were transferred from our right to our left flank, their march being screened from the enemy by Mushaid Ridge They crossed the Euphrates Valley Canal by the dam and pushed westwards across the Aziziyeh Canal to a position astride the Aleppo Road, so as to cut off the enemy's retreat Meanwhile, to the west of the Euphrates Valley Canal, our left infantry column advanced against the enemy's southern front and occupied and consolidated a position under considerable opposition In this attack the Dorsets and 5th Gurkhas especially distinguished themselves Under cover of the attack our right infantry column was withdrawn, and passing in rear of the left column was subsequently launched to an attack which secured a firm footing on Aziziyeh Ridge Thus by nightfall the enemy was hemmed in on the south-east and south by our Infantry and on the west by the cavalry whilst to the north ran the River Euphrates

At 3 A M on the 29th the enemy made a determined effort to break through our cavalry and retreat by the Aleppo Road but after an action

On other fronts at Nasariyeh and Ahwaz and on the Lines of Communication Defences quiet has reigned throughout the period under review, a state of affairs largely due to the firm control exercised by local Commanders over their districts and to the capable manner in which the troops serving under them have carried out their somewhat monotonous duties

A very high standard of efficiency, too has been reached by the Imperial Service troops serving with this Army The excellent spirit, zeal and keenness that has permeated them has proved a valuable asset and our thanks are due to the ruling Chiefs of India by whose generosity and patriotism these Units have been provided and kept in the field

17 Since my last despatch several units have come into prominence which were at that time not fully developed The Light Armoured Motor Batteries began to make their mark during the advance on Baghdad and since that time they have continued to render valuable services in reconnaissance work in patrolling and in co operating with other arms The cars have been capably handled and the personnel are resolute and determined fighters

The Field Force Canteen originally on a small basis has increased in size at a rapid rate in order to cope with the ever growing demands of this Army Branch canteens have been opened in larger numbers month by month at all suitable stations, and these canteens have contributed in no inconsiderable way to the health and well being of the troops at the present time

The Military Police organisation has, owing to the development of the Force and the extension of our communications been considerably increased and the personnel have carried out their responsible duties satisfactorily often under trying conditions of heat

18 I wish to acknowledge once again on behalf of this Army the services rendered by those who have worked so zealously at home and in India to supply our needs The difficulties with which they have had to contend are well recognised here and for this reason our gratitude is the more spontaneous

19 In closing this despatch I would bring to notice the names of Lieutenant General Sir W R Marshall KCB, and Lieutenant-General Sir A S Cobbe VC KCB DSO, who have continued to render me every assistance and have commanded their respective Corps with competency throughout the period under review During the month of April the fighting was severe but these formations were handled throughout with vigour and judgment To Major General Sir H T Brooking KCB, KCMG my thanks are due for his resolute and able handling of the troops during the operations at Ramadie The practical result of having secured the surrender of the whole force opposed to him is probably the best indication of his tactical skill and ability

20 The occupation of Baghdad the consequent extension of our Lines of Communication the increase in the size of the Force the development of our resources and the need for looking well ahead into the future have thrown heavy work upon my Staff both at General Headquarters and on the Lines of Communication In spite of the great heat and occasional shortage of numbers in consequence they have responded wholeheartedly to every call made upon them and I wish to take this opportunity of expressing my appreciation of the unvarying support which they have rendered me and of the efficient manner in which they have carried out their duties

Major-General Sir George MacMunn KCB, DSO, deserves my thanks for the capable manner in which he has carried out his duties as I G C His watchwords have been progress and efficiency, and the development of the Port and City of Basrah under difficult conditions arising from an insalubrious climate is a tribute to his energy and perseverance His efforts have been ably seconded by the Base, Advance Base and Administrative Commandants and those working under their orders

21 With our advent into Baghdad the duties and responsibilities of the Civil Commissioner Major-General The Hon Sir Percy Cox, GCIE, KCSI, already of an exceedingly heavy nature, have increased substantially

I wish to express my gratitude to him officially for the assistance which he has rendered me and for the advice which has so readily been placed by him at my disposal from time to time With his name I should like to associate the personnel of the Political Service working under his orders Their duties have been responsible and at times dangerous, and they have not hesitated at all times to give of their best and have been the means of seconding the successful efforts of the Army in no small measure

22 A list giving the names of those Officers Ladies Warrant and Non-Commissioned Officers and men whose services are deemed deserving of reward and special mention accompanies this despatch

I have the honour to be,

A H LEY,

Secy to the Govt of India

lasting for one and a half hours they were driven back into Ramadie the Hussars and part of a regiment of Indian Cavalry with some Horse Artillery and Hotchkiss guns, being mainly instrumental in heading the enemy off At 6-15 A M the infantry attack was renewed from the south-east and south, and our left Infantry column captured successive positions along Aziziyeh Ridge The 39th Garhwalis seized the bridge where the Aleppo Road crosses the Canal and captured three guns and many prisoners by 7-30 A M whilst the 90th Punjabis pushed eastwards through Ramadie and secured the Turkish Commander (Ahmed Bey) at his headquarters near the eastern front of the position Both these units displayed commendable dash and initiative, and by 11 A M the whole of the Turkish force had surrendered

Throughout the operations which were continuous, the endurance and fine fighting spirit of the troops was conspicuous, whilst the night operations so successfully carried out testified to the excellence of their discipline and training During the daytime the heat was considerable, and these operations which were conducted at some distance from the river were only rendered possible by the excellence of the arrangements for water supply A salient factor in these successful operations was the part played by the cavalry First by their rapid movement round the enemy's rear and subsequently by the tactical disposition of their machine guns they prevented the enemy's columns from breaking out, and so drove them back into the arms of the infantry Very useful work was also done by the transport and especially the motor transport whilst the medical arrangements for the evacuation of the wounded over some bad ground were most satisfactory Amongst our captures were included 3 454 prisoners of whom 145 were officers and 192 wounded 13 guns 12 machine guns, 2 armed launches 2 barges and large quantities of arms, ammunition, equipment, engineering stores railway material and supplies

Simultaneously with the above operations on our left flank, our cavalry operating wide on the right flank of the Army, marched during the night of the 28th-29th and occupied Mendali early on the 29th The Turkish detachment holding that town fled into the hills leaving 300 baggage camels in our hands and suffering some casualties from our guns whilst retreating Mendali had for some time been used by the Turks as a source of supply and its occupation, whilst supplementing our own needs denied it for this purpose to the enemy

12 In my former despatch I had occasion to bring to notice the capable handling of the troops by the higher Commanders, assisted by their staffs and the gallantry endurance and devotion to duty displayed by the Regimental Officers, Non Commissioned Officers and men To this I can only add that the fine record then established has been fully maintained under very trying climatic conditions, and that the fighting spirit discipline and efficiency of this Army have never stood at a higher level than they do at the present moment The further training which it has been possible to give the troops will tend to develop still further that close co-operation between all arms which was so noticeable throughout the operation last winter and which is so essential a factor to success in war

13 Similarly the valuable services rendered to this Army by the Directors and the Administrative Services and Departments were previously dealt with by me in detail In their case there has been no partial respite from their labours such as has been enjoyed by the fighting troops for their work at the front on the lines of Communication and at the Base has continued at the highest pressure Reorganization development of our resources and preparation for the future have needed careful thought and unrelaxed efforts on the part of all and the progress made in these directions has been very gratifying More than a passing word of recognition is therefore due to these individuals, who in spite of the intense heat during the summer months, have continued to work so assiduously in the interests of the Army

14 Our communications by water and by land have been thoroughly overhauled to meet the new situation, additional ships and barges have been placed on the river and our railway system has been developed as rapidly as existing conditions have permitted The ever-increasing needs of this Army have rendered expansion as regards port facilities at Basrah necessary

and this has been successfully met by the opening of a subsidiary port in its vicinity, which is being still further developed as the result of the recommendations of a Committee assembled to report upon the matter

An abnormally low river during the flood season gave rise to some anxiety that this might be followed by a correspondingly low river during the summer months, and, though the river did not fall below its lowest record, it reached as low a gauge as it has touched within reasonable recollection The work of the Inland Water Transport was therefore from June onwards one of considerable difficulty and it was due to the skill and energy of the personnel of the I W T and to the admirable buoying of the channels, that the number of serious groundings was almost negligible, and that the service of maintenance in front of the Base was carried on unimpaired

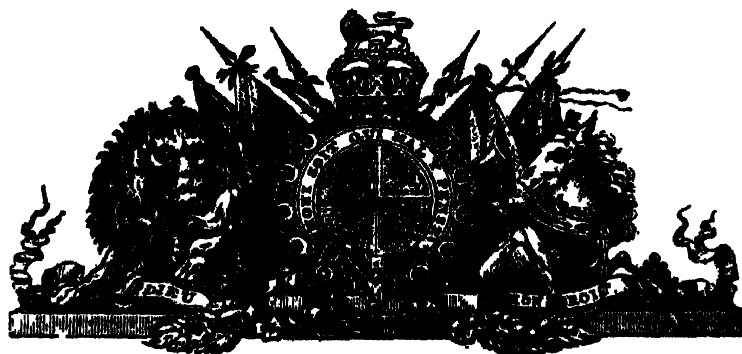

The work of transportation by the I W T was ably seconded by the development of our railways and the way in which in spite of a limited personnel, construction progressed and the railways were worked at constant high pressure is deserving of high commendation

The health of the troops during the summer months has been uniformly satisfactory and many of the diseases from which we suffered in previous years—such as cholera, enteric fever and scurvy—were either non-existent or negligible in their extent This successful result was partly attributable to the untiring work of the officers employed in the bacteriological laboratories without whose valuable assistance the difficulty of dealing with the epidemic diseases would have been considerably increased But although better conditions as regards accommodation and increased facilities for combating the heat resulted generally in a far lower sick rate an abnormal heat wave which swept over the area in July was responsible for a heavy casualty list During this time the personnel of the Medical Services were severely taxed, but they resolutely and successfully responded to the calls made upon them All ranks redoubled their exertions as the situation became more difficult and the unremitting labours of the Nursing Sisters many of whom suffered in health themselves were worthy of the high record for devotion to duty which the Nursing Service has always maintained The very practical assistance rendered by the British Red Cross Society and Order of St John during this trying period was typical of the valuable services so consistently rendered by that organization

The growing needs of this army and the necessity for marshalling all the available resources of this country have necessitated the formation of a special directorate to deal with this matter, and consequently the department of Local Resources which had been in process of construction during the advance on Baghdad took definite shape from the date of our arrival in that City It will be realised that in a country such as Mesopotamia where supplies though available in large quantities in certain districts are organized under no system the work of placing this matter on a sound footing is one calling for considerable business capacity and energy It is sufficient then in order to show how successful this comparatively youthful organization has been to record that all districts within reasonable distance of our troops have now been tapped and that the ramifications of the department have extended very wide beyond the districts which are actually held

15 The cordial co-operation of the Royal Navy, which yielded such valuable results during the advance on Baghdad, has since then been maintained uninterruptedly The gun-boat flotilla participated in the fighting during April, rendering substantial assistance to the land forces and during the summer months when active operations were temporarily suspended much useful patrol work on the Lines of Communication has been performed by it in spite of the low water conditions then existing I was fortunate in receiving visits in turn from Vice Admiral E A Gaunt, C B, C M G, Naval Commander-in-Chief East Indies, and Rear-Admiral D St A Wake, C B, C I E Rear-Admiral in the Persian Gulf and Mesopotamia, and these visits provided an opportunity for the discussion of topics of interest to both services

16 To the Signal Service and Telegraph Department much credit is due for the rapidity with which they have constructed the extended communications rendered necessary as a result of the operations carried out during last winter The vast network of lines which has been so quickly erected has been of very real value to the army at large

appended to these rules a brief statement of the grounds of his recommendation in each case. Form I should be accompanied by a certificate of character and conduct from the Principal of the institution at which the candidate last studied for not less than one year or from some responsible officer of Government, a medical certificate in Form II appended to these rules and evidence of the candidate's age and educational qualifications.

(b) The Commissioner and the District Registrars in his division will meet on a date to be fixed by the Commissioner and will consider the claims of all the candidates nominated. They will also call the candidates before them and see and converse with them so as to form an opinion regarding their suitability. The Commissioner will then select two names for each of the appointments to be made on his nomination and submit them in order of preference to Government by a date not later than the 1st October stating his reasons for the preference given. With his report submitting these names the Commissioner will submit Forms I and II for all candidates entering in each case in the last column of Form I his own opinion as to the suitability of the candidate.

(c) In making nominations special attention should be paid to social qualifications and family status and influence, to services rendered by the candidate's father or his family, to the claims of backward communities and to the possession of a robust constitution.

7. The Inspector General of Registration will submit to Government in Form I on or before the 1st October in each year, two names for each appointment to be made on his nomination.

8. Each probationer will get an allowance of Rs. 30 per month. Appointments in grade V of Sub-Registrars will be given to approved probationers as vacancies in the cadre occur. Probationers will as far as possible be posted to offices in the division to which they belong but after confirmation they will be liable to transfer at any time to any office in the province at the discretion of Government.

9. The Governor in Council may, in special cases, declare the period of probation to be unnecessary and may also make direct appointments to the higher grades of Sub-Registrars.

AN

ORDINANCE

TO

Provide that silver held on behalf of the Secretary of State for India in Council or the Governor General in Council may if so held in the United States of America or in course of transmission therefrom be deemed to be part of the reserve referred to in section 19 of the Indian Paper Currency Act, 1910

WHEREAS an emergency has arisen which makes it necessary to provide that silver held on behalf of the Secretary of State for India in Council or the Governor General in Council may if so held in the United States of America or in course of transmission therefrom be deemed to be part of the reserve referred to in section 19 of the Indian Paper Currency Act 1910

Now, therefore, in exercise of the power conferred by section 72 of the Government of India Act 1915 the Governor General is pleased to make and promulgate the following Ordinance —

ORDINANCE No I of 1918

Short title

1 This Ordinance may be called the Indian Paper Currency Ordinance 1918

Definition

2 In this Ordinance—

'Silver' means silver coin or silver bullion

Power to direct that silver held in the United States of America or in transmission therefrom may be deemed to be part of the Paper Currency Reserve

3 Notwithstanding anything contained in the Indian Paper Currency Act, 1910, (II of 1910) the Governor General in Council may, by order in writing, direct—

(a) that silver held in the United States of America on behalf of the Secretary of State for India in Council or the Governor General in Council shall be deemed to be part of the reserve referred to in section 19 of the said Act or

(b) that silver in course of transmission from the United States of America, which is at the commencement of such transmission or at any period thereafter held on behalf of the Secretary of State for India in Council or the Governor General in Council for transmission to India, shall during the period it is so held be deemed to be a part of the reserve referred to in section 19 of the said Act

MILITARY SERVICE ACT 1918

[7 AND 8 GEO 5 CH 6]

An Act to repeal sub-section (3) of section 3 of the Military Service Act 1916, and to provide for the cancellation of certificates of exemption from military service granted on occupational grounds.

6th February 1918

BE IT ENACTED by the King's Most Excellent Majesty by and with the advice and consent of the Lords Spiritual and Temporal and Commons in this present Parliament assembled and by the authority of the same as follows —

Repeal of s 3 (3) of & 6 Geo 5 c 104

1 Sub-section (*3*) of section three of the Military Service Act 1916 as amended by section six of the Military Service Act 1916 (Session 2) is hereby repealed, and accordingly the Military Service Acts 1916 and 1917 shall, as respects any man whose certificate of exemption for any reason ceases or has ceased (whether before or after the passing of this Act) to be in force, have effect as though the provisions repealed by this section were not included in those Acts

Power of Director General of National Service to withdraw exemptions

2 (*1*) The Director-General of National Service may at any time by order withdraw any certificate of exemption from military service to which this section applies as from such date, not being less than fourteen days after the date of the order, as may be specified in the order, and as from that date any certificate to which the order applies shall cease to be in force

(*2*) This section applies to any certificate of exemption from the provisions of the Military Service Acts, 1916 and 1917 whether granted before or after the passing of this Act and whether granted by a tribunal or by or under the authority of a Government department, where the certificate was granted or renewed on occupational grounds, and also applies to any certificate so granted or renewed on such grounds to a man who has voluntarily attested notwithstanding that the certificate has not statutory force

(3) An order under this section may be made applicable either to individual certificates granted by Government departments, or to certificates granted to any class or body of men specified in the order (whether or not dependent on the obtaining by those men of individual certificates) or to certificates granted to men of any class or description specified in the order and as respects any class or body of men or men of any class or description, may be made applicable only to men falling within such limits of age or fulfilling such other conditions as may be specified in the order and may contain such exceptions and supplemental provisions as the Director-General thinks fit including giving the right of making an application to a tribunal in exceptional cases

An order under this section may be revoked extended or varied, by a further order of the Director-General, as occasion requires

(4) Where and so long as an order under this section is in force, then except as otherwise expressly provided by the order—

(a) no application shall be entertained for the grant or renewal of a certificate and no certificate shall be granted or renewed where the certificate if it had been operative at the time at which the order was made, would have come within the terms of the order and

(b) no application shall be made by or in respect of a man whose certificate comes within the terms of the order for the renewal of the certificate except on grounds which are not occupational or for the grant of any certificate on occupational grounds, and no such application if already made shall be proceeded with and no certificate shall be renewed or granted on any such application

and any certificate granted or renewed in contravention of the foregoing provisions shall be invalid but save as aforesaid nothing in this section shall affect any right of a man whether unattested or attested, whose certificate has been withdrawn under this Act to apply for a renewal of his certificate which he would have had if this Act had not been passed

(5) An order under this section (other than an order applicable to an individual certificate) shall be laid on the table of both Houses of Parliament as soon as may be after it is made and if either of those Houses within fourteen days after the order has been so laid presents an address to His Majesty praying that the order, or any part thereof should be made annulled, His Majesty in Council may annul the order or such part thereof and it shall thenceforth be void without prejudice to the validity of anything done in pursuance thereof Provided that section one of the Rules Publication Act 1893 shall not apply to an order made under this section 56 & 57 Vict

(6) Where an order under this section applicable to an individual certificate is made notice thereof shall be served on the man effected thereby and may be served by sending it to him by registered post to his last known address

(7) For the purposes of this section a certificate shall be deemed to have been granted or renewed on occupational grounds which was granted or renewed wholly or partly on any of the grounds specified in paragraph (a) of sub-section (1) of section two of the Military Service Act, 1916 or (in the case of voluntarily attested men) on any similar grounds or which, in either case was granted or renewed by or under the authority of any Government department and if any question arises whether a certificate was granted or renewed on occupational grounds the question shall be referred to the Director-General, whose decision thereon shall be final

3 This Act may be cited as the Military Service Act, 1918, and the Military Service Acts 1916 and 1917 and this Act shall be construed together and may be cited together as the Military Service Acts, 1916 to 1918

31 When the entry of the marriage or divorce has been made in the proper register it shall be read over by the Muhammadan Registrar to the persons who, by section 11 of the Act, are required to sign such entry If they admit its correctness, the entry shall then be signed by them

Entry to be read over

32 When a person who cannot write signs his name by means of a mark his name shall be recorded at length and the writer shall also sign his name in attestation that the mark was affixed in his presence

Mark

33 (*1*) The parties to a marriage or divorce appearing before the Muhammadan Registrar, or the lawful guardian or *vakil* as the case may be appearing respectively on behalf of a minor or *pardah-nashin* woman shall, in addition to signing their names or making their marks if they are unable to write, imprint the mark of the left thumb in the Registers A, B or C on the right or left as may be convenient, of the space provided for the signature

Thumb impression

Provided that if the left thumb of any person be defective or injured, the right thumb or any other digit may be used But in that case a note shall be made in the Register mentioning the particular digit used

(*2*) The said mark shall be made by a slightly rolled impression of the person's left thumb (or other digit, as the case may be) taken in printer's ink off a flat piece of tin properly prepared for the purpose

(*3*) To prevent confusion, the signatures of the persons to each ceremony registered whose thumb marks are thus taken should be marked 1, 2 3 and the same numbers shall also be put against the corresponding thumb mark in the Register

(*4*) Notwithstanding anything hereinbefore contained, a Muhammadan Registrar may, in his discretion, dispense with the taking of thumb impressions in the case of persons of position regarding whose identification there can be no doubt or room for suspicion

34 (*1*) If a Muhammadan Registrar discovers any error in the form or substance of any entry of a marriage or divorce made by him, he may within one month next after the discovery of such error, in the presence of the persons married or in case of their death or absence, in the presence of two other credible witnesses correct the error by entry in the margin without any alteration of the original entry and shall sign the marginal entry and add thereto the date of such correction, and he shall also make the like marginal entry in the copies thereof

Correction of error

(*2*) Every entry made under this rule shall be attested by the witnesses in whose presence it was made

(*3*) In case a copy has been already sent to the Registrar, the Muhammadan Registrar shall make and send another copy thereof, containing both the original erroneous entry and the marginal correction therein made

35 No erasures shall be made in any register, book or record but mistakes shall be corrected, when necessary, with the pen, and shall be invariably attested by the registering officer Corrections shall not be obliterated or blotted out so as to be illegible, but a line shall be drawn through erroneous words with the pen so that they may remain legible

Erasures

36 The circumstances under which registration of a marriage or divorce shall be refused shall be as follows —

Refusal to register

(1) If the marriage or divorce was not effected within the jurisdiction of the Muhammadan Registrar to whom application for registration is made

(2) If the application is not made by the persons specified in section 8 of the Act

(3) If application has been made after the expiry of one month from the date on which the marriage or divorce was effected

(4) If all the persons required by section 11 of the Act to sign the entry in the proper register fail to appear within the time limited for such appearance by the Muhammadan Registrar under rule 25

(5) If the Muhammadan Registrar is not satisfied that the marriage or divorce was effected by the person or persons by whom it is represented to have been effected

(6) If the Muhammadan Registrar is not satisfied as to the identity of the persons appearing before him and alleging that the marriage has been effected

(7) In the case of any person appearing as the representative of the man or woman (whether he appears as guardian or as *vakil*), if the Muhammadan Registrar is not satisfied as to the right of such person to appear

(8) If one of the parties applying for registration of marriage, or if the man applying for the divorce, appear to be of unsound mind

Refusal deferred

37 In the case referred to in clause (2) of rule 36 the order of refusal shall ordinarily be deferred till one month has elapsed from the date on which the marriage or divorce was effected but if the parties declare their inability to comply with the requirements of the law, or for any other reason wish that registration should at once be refused, this may be done

Grounds of refusal to be recorded

38 The reasons for refusal to register to be recorded under section 20 of the Act shall be concisely and clearly stated in each particular case When registration is refused under clause 5 6 or 7 of rule 36 the Muhammadan Registrar shall record the grounds of his decision

In what cases fees may be refunded

39 Fees paid under section 9 of the Act shall not be refunded unless registration is refused under clause (1) (2) (3) or (8) of rule 36 Fees and travelling allowances paid for the attendance of Muhammadan Registrars at the celebration of marriages shall be refunded only in cases where the Muhammadan Registrar does not attend Fees paid for searches in the registers and indexes or for copies of entries, shall be refunded only when the searches are not made for the copies not given

Manner of refund

40 The refund of fees paid to a Muhammadan Registrar shall be made by him at once on application, and he shall take and file a receipt for the amount of such re-payment from the person to whom it is made

Certificate of closure of volume

41 When a register is closed, a certificate to that effect shall be appended at the close of the written portion, and a certificate showing the number of pages written upon shall be entered on the first page

Language to be used

42 The registers and indexes shall be kept in Bengali, and copies under sections 12 15 and 22 of the Act shall also be prepared in Bengali

Meaning of Year

43 The "year" referred to in section 7 of the Act shall be a year of the Christian era commencing on the 1st January and ending on the 31st December

Indexes

44 The index to marriages and divorces shall be prepared from Registers A, B and C, and shall contain the following particulars —

1 Name of party
2 Father's name
3 Residence *
4 Place of registration
5 Date of registration
6 Serial number for the year
7 Book

HARDWARE LIST

Hardware is taken to include all articles of base metal which are not —

(1) Materials used for constructional purposes such as plates, bars angles rods etc, which are not sold in the retail trade

(2) Articles highly manufactured of a special character, such as complex machines, scientific instruments, etc

The following articles which will be found in their alphabetical order in the preceding list, are here grouped for convenience under the heading of Hardware

*The General Licenses permitting the importation of these goods are now revoked Goods in transit direct to the importer before the 31st January 1918, will be admitted under the General Licenses now withdrawn

Adaptors for electric lamp holders

Addressograph machines, parts of, such as metal drawers, wooden stands with metal attachments and iron stands

Advertising signs—complete with letters, figures and frames
Agricultural implements and parts thereof
Air fittings (used by dentists)
"Alaska" handles for boiler doors
Anvils
Apple paring and coring machines (hand and power driven)
Apple peelers, (household appliances)
Armature magnets for use in electric motors or dynamos
Armatures for electric motors
Ash trays, base metal
Auto kot variant of hand ambulances
*Awl blades
Awls, stitching
Axes, safety, pocket

Bag tyers, wire ties
Balances sash
*Bale ties, wire for hay and paper
Baling or strapping machines (hand)
*Ball bearing bolts
*Ball bearings
*Ball retainers
Band saw setting machines (hand driven)
Band saws steel
Band steel
Banquet candle castings and fittings
Barbed wire
Barber's pole Parker's revolving
Bar folders (tinsmith's machines)
Bathroom accessories *i.e.* —
Metal baskets
Metal racks
Metal soap and sponge holders
Metal towel racks
Metal tumbler holders, etc
Bath showers, brass or copper
Battery pressing machines (hand driven)
Bayonets
Beading machines (tinsmith's machines)
*Bearings, ball
Bee smokers base metal
Bellows and sprayers for powders (hand)
Bells and buzzers, all sorts
Belt couplings steel
*Belt hooks (for use on belts of sewing machines)
*Belt hooks steel (for binding machinery belting)
Bending machines for chain
Bending machines for wood hoops (hand driven)
Bicycle accessories
Bicycle forgings
Bins and balers steel, for waste paper
Bits, auger
Bits expansion
Bit snaps
Bits, wood boring
*Blades, awl
Blades, circular, for paper slitting machines
Blades, for boring belting
*Blades, hack saw
Blanks steel, for safety razor blades
Block fasteners, spring, for shoe lasts.
Blowers and forges, portable
Blow lamps and parts thereof
Bolt croppers
Bolt headed screws or coach screws
*Bolts and nuts of all kinds
Bolts, door

Boot button fasteners
Boot protectors (made of wood and metal)
Bottle closing device (brass, nickelled)
Bottle corking machines (hand)
Bottle corking and crowning machines (hand or treadle driven)
Bottle wiring machines
Box catch fastening and punching machines (hand power)
Boxes, metal of all kinds
Brackets implement
Bracket lamp or bulb holders, nickelled (electrical accessories and appliances)
Braid, wire
Brass component parts for electric lighting
Brass or metal leaf (imitation gold leaf)
Brass or phosphor bronze cloth
*Brass strip
*Brass tape
Brazing lamps
Bread crumbing machine (hand and power)
Bread making machines (hand driven)
Bricklayers and plasterers' trowels, as Mason's tools
Bronze leaf
Bronze powder
Brooch joints, pins and catches (base metal)
Brushes laminated
Brush holders, carbon (not for motor cars)
Brush holder spring
Buckles and tie fasteners
Buckles, brass
Buckles for braces
Buckles, metal for ladies' belts
Buckles, papier mâche, with metal bar prong
Bullet moulds (G L)
Bull rings, copper
Bunion springs
Burners, gas or oil
Burning outfits, "Hauck" blow lamp
Burnishers, chain
Burring machines (tinsmiths' machines)
Bushings, bronze
Button covering machines (hand)
Button sewing on, machines
Button moulds metal, fillings and backs
Butts steel
By passes, brass

Cabinets, seed, steel lined
Cable cash carriers, parts of
Cables, insulated
Calendar frames
*Callipers
Can cleaning machines.
Canisters, tin
Can keys, and can openers
Caps, brass
Caps, made of tinsel, with wads and discs, for bottles
Caps, metal, for electric lamps
Caps, metal, for milk bottles or toilet powder tins
Capsules lead foil
Card fasteners, with brass sockets attached for screwing blocks to wood lasts
Carriage heaters
Carriage wiring machines
"Cary's" fasteners, seals and clasps,

Casters, furniture and truck
Castings, machine bronze
Castings, phosphor bronze
Catches, joints and pins for brooches
Catches, plated (for drawers)
Catches tin (used in the manufacture of radiator boiler castings)
Cattle dehorners
Cattle leaders
Ceiling shades, enamelled iron
Cellar drainers
Chafing dishes
Chain, iron, weldless
Chains, chronometer fusee
Chains, elevator
Chains, sherardized steel for hanging sashes
Chaplet plugs, taper
Chaplets (copper) used in manufacturing radiator boiler sections
Chaplets, perforated tin
Chart discs, steel
*Chasers (screwing tackle)
Cheese presses ("Gang")
Cheque protectors
Chiropodists' appliances —

Cabinet instrument steriliser
Chair metal and leather
Instrument stands
Wash bowl and accessories

*Choppers and hatchets
Choppers, food
Chromel resistance wire
Chronometer fusee chains
Cigar cutting machines (hand driven)
Cigarette cases (base metal)
Circuit breakers
Circular blades (for paper slitting machines)
Circular knives
Clamp for use with stitching awl
Clamps brass, with steel screw and nut (for connecting rubber and canvas hose to couplings)
*Clamps iron or steel as engineers' tools
Clasps, Cary's"
Clippers, hair
Clippers, horse
Clips, copper, test (for use in testing electrical instruments)
Clips, fountain pen
Clips or clamps for wire rope
Clips, paper
Clips, spring, for bottle caps
Closing machines (see Tinsmiths' machines)
Cloth, brass metal or phosphor bronze
Clothes line reels, metal cases.
Cloth, woven galvanised iron wire
Coach screws or bolt-headed screws
Cocktail mixers, electro plate
Coffee grinding machines (hand driven)
Coffee making machines
Coffee roasting machines (hand driven)
Coil holders, metal
Coil lacing, wire
Coke forks for gasworkers' use
Combination tool 'Austral"
Combs, curry
Commutator copper segments
Commutators for electric motors
Containers or founts (oil used for ordinary oil lighting or heating lamps)

Contractors for electric meters
Controller parts, gas, brass
Coolers, cylindrical, for dairies
Copper blanks for electric cranes
Copper foil
Copper plates or sheets, cut to shape and size for engraving
Copper rollers
Cork pressers, roller
Cork pullers
Corks sprinkler
Corset busk cutting and tipping machines (hand driven)
Cotter pins
Counters for marine indicators
Counter weights, suspension, pulley, and rings
Couplings belt, steel
Covers, oil hole
Covers spring lubricating
Crank, shaft forgings
Crown cork openers
Cuecutters
Cups grease
Cups metal, collapsible
Cups oil
Curling tongs for waving hair
Curry combs
Curtain rings, brass
Curtain rods, metal
Curvimeters (map measures)
Cutters, bench metal (hand driven)
Cutters, cue
Cutters, for card and lead
Cutters, glass
Cutters pipe
Cutters, rod
Cutters, rule
Cutters, white metal and brass, pattern makers
Cutters, steel for grooving wood
Cycle alarms "Root-a tooter'
Cyclometers
Cylinders, steel, for oxygen
Cylinders for acetylene gas
Cylindrical coolers for dairies

Damper knobs, nickel plated, for use on boilers
Damper regulators, for water and steam boilers
Dating and numbering machines (hand) all kinds manufactured largely of metal.
Dating or name stamps, i e, metal or wood with rubber type
*Deacon's welt ploughs (shoemaker s tool)
Dentists' accessories (G L)
Diamond dies for wire drawing
Dictating machines, parts and accessories (G L)
Die heads
*Dies and die stocks
Dilver rods
Discs metal, for centre of rubbers
Discs, steel, for manufacture of adaptors
Discs, valve
Door bolts
Door catches (stove fittings)
Door hangers, sliding
Double seaming machines (tinsmith's machines)
Dovetail bits
Dovetail (stove fittings)

Drafting machines
Drainers, cellar
Drawing pins
Draw plates for wire drawing
Drift forgings.
Drill sleeves
Drilling machines, railway track (hand driven)
Drills, all sorts
Drinking fountain
Drums, driving, iron and steel
Duplicator steel file plates

Earmarkers, tin
Egg beaters
Egg timers, automatic
Electrical accessories and appliances, as follows —

- Adaptors for lamp holders
- Armature magnets for use in electric motors or dynamos
- Armatures for electric motors
- Bells and buzzers of all kinds

- Copper blanks for cranes
- Counter weights suspension pulley and rings
- Fans and parts thereof
- Fitting connector (brass fitment on earthenware base)
- Flat iron (as laundry iron)
- Fuse plugs screw
- Fuses, cartridge, refillable
- Fuse wire, tested
- Grill
- Heater or radiator, portable
- Hot plate
- Insulators complete (porcelain with metal contact parts)
- Insulators made from mica and asbestos, with steel or malleable iron centres.
- Lamp cases, hand and pocket made of soft iron scrap, with or without lenses and bulbs
- Lamp holders, brass or ebonite, with or without switch or key
- Laundry irons
- Magnet boxes
- Metallic filament for lamps
- Meters, parts of
- Plugs, flush (consisting of brass fitment mounted on earthenware base)
- Plugs, wall (consisting of brass fitment mounted on earthenware base)
- Screw parts, brass, for use on telephones (G L)
- Soldering irons
- Sounders and keys
- "Spiralite" advertising device
- Splicing sleeves
- Spraying apparatus
- Standard for portable lamp with ink stand
- Switches
- Terminals, brass, for fuse boards (G.L.)
- Toaster, for table use
- Torch cases, made of soft iron scrap, with or without lenses and bulbs
- Trolley pole catchers
- Water heaters
- Wiring sockets (consisting of brass and porcelain)
- Wire fuse, tested

Electrolytic wire
Electrotype printing blocks
Elevator chains
Emeralite desk lamps
Emery wheel dressers and cutters
Emulsifiers, machines
Embossing stamp or press monogram
Engraved plates, music pewter
Envelope fasteners, steel
Envelope sealer (not a machine)
Etch o lite dipping machines
Eyeglass chain holder
Eyeglass frames, steel and xylonite or steel and rubber
Eyeguards, engineer s (consisting of wire gauze faced with glass enclosed in sheet iron frame)
Eyelets, boot metal
Eyeletting machines for boots and shoes (hand driven)

Fans and parts thereof
Fasteners and buckles for ties
Fasteners and press studs for wearing apparel, etc.
Fasteners, boot, button
Fasteners, card, with brass sockets attached for screwing blocks to wood lasts
Fasteners, 'Cary's"
Fasteners, corrugated, saw edge
Fasteners, envelope, steel
Fasteners, paper, of all kinds
Fasteners, spring block, for shoe lasts
Faucet, molasses, suction and measuring
Ferrules, german silver
Ferrules, or nipples, steel, for gas radiators
Ferrules, tin, for banding brushes
Fibre, steel, polishing
Filament metallic, for electric lamps
File clip
*Files
Files, surgical
Files, watchmakers' (G L)
Filing cabinets, metal accessories for
Filing cabinets, steel
Filters, oil
Filters water, cast iron
Filters, whiskey
Fishing reels, brass
Fitting connector (brass fitment on earthen ware base)
Fittings, stove, such as dovetails, door catches, hinged tubes
Flat iron, electric, as laundry iron
Flour sifters
Fluting machine (used for the crimping or fluting of cloth)
Foghorn, Norwegian machine
Food choppers
Foot arch supports
Foot powers
Forges and blowers, portable

Forgings, crank shaft
Forgings for bicycles
Forgings, rough, for sewing machines
Forks, coke for gasworkers' use
*Forks, garden and agricultural, with or without handles
Forks, hay
Foundry ladles or bowls—iron
Foundry vibrators
Fountain pen clips
Fountains, lawn, revolving
Founts or containers (oil) for ordinary oil lighting or heating lamps
Founts, overhead washing, for carriages and motor cars
Frames, bag and pouch
Frames, collapsible, steel, for opera hats
Frames complete or in parts, metal, for ladies' hand bag
Frames and fittings, umbrella
Frames, metal, loose leaf, for perpetual ledger
Freezers, ice cream
Fret machines (treadle)
Fruit slicing machines (hand)
Fumigators, formaldehyde (metal)
Furnace, gas, forced draught
Fuse plugs, screw
Fuses, cartridge refillable
Fuse wire, tested

Galvanised iron wire cloth woven
Gas burner castings, iron, for stoves
Gas controller parts, brass
Gas furnaces (forced draught)
Gas lamps and parts thereof
Gas lighter "Round File"
Gas mantle holders, metal
Gas meters, brass, parts of
Gas meters, cast iron and parts of
Gas regulators iron and parts of
Gates or taps for oil or molasses
Gauges of all kinds execept recording gauges
Gauze, brass wire
Glass cutters
Glow covers
Gold foil imitation
Gold leaf imitation (brass or metal leaf)
Gong shells, steel
Grease cups
Grill electric heating
Grinding attachment for use on horse clippers
Grinding machine (hand power)
Grinding plates for coffee grinding mill
Grindstone in frame (hand driven)
Grindstone frames and fixtures, metal
Groovers, thin, oval, machines (tinsmiths machines)
Guides, metal, for textile machines
Guillery testing apparatus
Guillotine, rubber (hand power)
Gumming or glueing machine (hand driven)

*Hack saw blades
Hack saw machines portable for rail cutting
Hair clippers
Hairsprings

---

No W -4171, dated Murree, the 20th September 1917

From—LIEUTENANT-GENERAL SIR A A BARRETT, K C B, K C S I, K C V O, Commanding, Northern Army,

To—The Chief of the General Staff, Army Headquarters, Simla

I have the honour to furnish, for the information of His Excellency the Commander-in-Chief, the following report on the operations undertaken against the Mahsuds during the period March to August 1917

2 On 26th February, news was received at Wana that a large Mahsud *lashkar* was moving against Sarwakai, one of the posts garrisoned by the South Waziristan Militia The Commandant of the Corps at once strengthened the garrison, which, by operating outside the post on 2nd March successfully kept the Mahsuds at bay On the following day, however, after inflicting considerable losses on the enemy, it had to withdraw into the post, having suffered many casualties, including the loss of its British officer, killed

On learning of this attack, Brigadier-General G M Baldwin, D S O, Commanding the Derajat Brigade, ordered the concentration of the Derajat Movable Column at Murtaza

3 On 4th March, I received orders from the Chief of the General Staff to assume control of the operations necessary to deal with the Mahsud outbreak, and directed the General Officer Commanding, Derajat Brigade, to proceed at once with the Movable Column to the relief of Sarwakai I also ordered the despatch to Tank of the 44th Infantry Brigade, which had already been warned to stand ready to support the Movable Column, and of the 23rd Indian Mountain Battery

4 In accordance with these orders the Derajat Movable Column advanced up the Gomal and relieved Sarwakai on 9th March Some 3,000 to 4 000 Mahsuds had remained in the vicinity of the post with the apparent intention of opposing the column, but on its approach the *lashkar* withdrew On 10th March General Baldwin, whose column had been augmented by a detachment of 250 South Waziristan Militia under Major G E Davis, the Commandant of the Corps, advanced to Barwand, a village in the Shahur Valley, where punitive measures were carried out in face of some opposition The column retired to Sarwakai the same day and on the 11th proceeded to Khajuri Kach, where it remained for the rest of the month With the exception of an attack on a piquet on the Gwaleri Pass, no further hostile acts were committed by the Mahsuds during March

Meanwhile, the 44th Infantry Brigade with the 23rd Indian Mountain Battery had been concentrated at Tank by 11th March and on 12th it marched to Jatta, at which place it was well situated to support the Moveable Column up the Gomal Valley or the garrison of Jandola

5 Representatives of certain sections of the tribe were interviewed towards the end of March by Mr J A O Fitzpatrick, C I E, the Political Agent, Wana, and, as it appeared that there was little likelihood of further trouble orders were issued for the return of the Derajat Movable Column to Tank, which place was reached on 3rd April, and for the dispersal to their stations of the units of the 44th Infantry Brigade

The hope that the Mahsuds would remain quiet was, however, quickly dis elled, as on 9th April the piqueting troops of a convoy proceeding over the Gwaleri Pass towards Nili Kach were attacked Consequently the Derajat Moveable Column was directed to proceed again up the Gomal, and one section of the 23rd Indian Mountain Battery and the 1-4th Gurkha Rifles of the 44th Infantry Brigade were ordered to return to Tank The Moveable Column arrived at Khajuri Kach on 17th April, and on 21st, whilst proceeding from Tanai to Wana, it was opposed by a considerable body of tribesmen in the defile near Karabkot The passage of the defile was successfully forced, the casualties suffered by the column not being heavy, and on 24th April the column returned from Wana to Tanai, where it was suitably placed to operate in the direction of either Sarwakai or Wana

6 On 1st May, another attack was made by a strong party of the enemy on a convoy proceeding from Nili Kach to Khajuri Kach The convoy escort was taken at a disadvantage and the losses suffered by it were severe On hearing of this attack, Brigadier-General Baldwin at once despatched 500 rifles from Tanai to Sarwakai with a view to intercepting the Mahsuds returning to their country, and, on the following day, a party of Militia from Sarwakai, supported by some of the above detachment, succeeded in coming up with the raiders and inflicting casualties upon them On 2nd May, Brigadier-General Baldwin's column moved to Khajuri Kach and arrived the following day at Nili Kach

It will be observed that the Mahsuds, in all their attacks on convoys proceeding along the Golam route, selected for the purpose the stage between Nili Kach and Khajuri Kach The country in this stage, in which the Gwaleri Pass has to be crossed is extremely difficult and peculiarly favourable to the tribesmen's tactics No movement of troops can be hidden from Mahsuds on the hill tops, the track in many places follows deep *nalas* with precipitous sides, and the very broken and intricate nature of the country affords every advantage to the enemy for concealment, and for subsequent withdrawal

7 The attack made by the enemy on 1st May, combined with the increased raiding by large gangs into the Derajat district, showed that the Mahsuds were becoming emboldened and it became necessary to increase the strength of the garrison of the Derajat Three additional infantry battalions which with the 1-4th Gurkha Rifles, formed the 43rd Infantry Brigade, under the command of Brigadier-General W M Southey, C M G, and two sections of mountain artillery were therefore ordered to Tank, the 107th Pioneers and No 7 Field Company, Sappers and Miners, having been previously sent into

the area to improve communications On 6th May, the force in the Derajat was constituted the Derajat Field Force, and Major-General W G L Beynon, C B, C I E, D.S.O, was appointed to command with Sir John Donald, K.C.I.E, C S I, as his Chief Political Officer On the 12th May, the Bannu Brigade under the command of Brigadier-General the Hon'ble C G Bruce, M V O, was placed under General Beynon's orders and the troops in the Derajat and Bannu Brigades were designated the Waziristan Field Force

8 Whilst these reinforcements were moving into the Derajat, an action was fought on 10th May in the vicinity of Sarwakai The Officer commanding the post, Major L P Collins, D S O, 1-4th Gurkha Rifles, hearing that a body of the enemy was retiring from the vicinity of Tormandu, moved out during the night of 9th-10th with a force of 450 rifles, comprising 1-4th Gurkha Rifles, 11th Rajputs, and South Waziristan Militia, with the object of intercepting the enemy's retreat At dawn, the Mahsuds were successfully surprised, but large enemy reinforcements arriving, very fierce hand to hand fighting took place As there was danger of being surrounded the Officer Commanding the detachment rightly decided to withdraw to Sarwakai Although our losses in this engagement were severe, those inflicted on the enemy were also heavy and included the leader of the *lashkar* Great praise is, I consider, due to the troops, who were largely composed of young soldiers, for the steadiness and gallantry with which they fought

9 Hitherto only certain sections of the Mahsuds had been hostile and it had been hoped that the operations could be confined to those necessary for the security of the Gomal, and the protection of the Derajat border. It was most desirable to avoid, if possible, undertaking offensive operations during the hot weather when the climatic conditions in the Derajat are of the worst description Also, as soon as the rains commence, the railway and road communications are very liable to interruption The confidence of the hostile sections of the Mahsuds in their immunity from punishment had however resulted in bringing in other sections of the tribe against us, and, on the 19th May, Government sanctioned the taking of punitive measures, with the Khaisara Valley as the objective

10 To carry out these offensive operations the force in the Derajat was reinforced by the 45th Infantry Brigade, under the command of Brigadier-General C C Luard, two battalions of the 44th Infantry Brigade, one section No 1 British Mountain Battery, and No 11 Field Company Sappers and Miners

In order to protect the Bannu district, four additional battalions, two of which belonged to the 44th Brigade commanded by Brigadier-General G D Crocker were added to the garrison

11 Meanwhile, on 16th May, a Mahsud *lashkar*, believed to have been of a strength of some 2,000 men, attacked, on the Gwaleri Pass, the second echelon of a convoy proceeding up the Gomal to ration Sarwakai and Wana The convoy was unable to get through, and returned to Nili Kach Major General Beynon, therefore, directed Brigadier General Southey to march from Murtaza to Nili Kach with two battalions. This General Southey was unable to do until 20th owing to the Gomal river being in flood The convoy then proceeded to Wana without further incident

12 The accumulation of supplies preparatory to carrying out of punitive measures in the Khaisara Valley from Wana had now to be undertaken The Gomal river, however, again came down in flood and the disadvantage of utilizing, as a line of communication a route traversing the long and dangerous defile of the Gomal and liable to be interrupted for long periods by floods in the river, made it desirable to consider the possibility of utilizing an alternative line into the Khaisara. Major-General Beynon therefore, submitted proposals, which had my full approval, for operations *via* Jandola and the Shahur Valley. On 26th May, these proposals were sanctioned by Government In order to facilitate the passage of Major-General Beynon's main force through the Shahur *tangi* between Jandola and Haidari Kach, at which defile it was probable that the Mahsuds would endeavour seriously to oppose the advance of the force, it was decided that a detachment of two battalions and a section of mountain guns should be located at Sarwakai, from which place it could operate against the rear of any enemy holding the defile

Steps were taken at once for the formation of an advanced base and for the accumulation of supplies at Jandola, also for the completion of the garrison of Sarwakai up to the strength decided upon

13 Up to the end of May no hostile acts had been committed by the Mahsuds in the Tochi On 31st, however, Tut Narai, a small post, garrisoned by the North Waziristan Militia was captured by a ruse the *lashkar* taking part being estimated to be some 600 strong Owing to the fire brought to bear on the attackers by men holding the two outlying towers and to the rapidity with which the local village pursuit parties were turned out by Major F H Humphrys, the Political Agent, Tochi the enemy were unable to damage the post. Brigadier-General Bruce, who was at Miramshah with the Moveable Column, ordered Tut Narai to be at once regarrisoned and a small column under the command of Major G B Scott, D S O, Commandant, North Waziristan Militia, was despatched the same evening and effected its object without incident

14 By the 9th June, Major-General Beynon s striking force and the line of communication troops destined for Jandola and the posts beyond were concentrated at Jandola During this concentration the only aggressive action taken by the enemy was a determined attack on 7th June by a party of 300 men against a piqueting detachment consisting of two British officers and 89 men of 2 1st Gurkha Rifles, near the Zam Post The enemy was driven off with heavy loss our losses, as a result of the close fighting in scrub jungle, also being severe

15 As Major-General Beynon was now about to proceed in command of this striking force up the Shahur Valley, it became apparent that he would not be in a position effectively to control any operations which might become necessary on the Tochi side Consequently His Excellency the Commander-in-Chief decided that the troops in the Bannu and Derajat areas should again become separate forces, being designated the North and South Waziristan Field Forces, respectively, under the general control of the General Officer Commanding Northern Army Orders giving effect to this decision were issued on 14th June

16 On 13th June sufficient supplies had been collected at Jandola to admit of Major-General Beynon advancing up the Shahur Valley Prior to this, he had, on 12th, moved out to attack a considerable body of the enemy near the junction of the Shahur and Takhi Zam, the enemy did not, however make a stand On 13th a reconnaissance was carried out to the eastern end of the Shahur *tangi* and a double camel track was cleared up the river bed The following day the 45th Brigade proceeded to the Chagmalai at the eastern entrance of the defile and on the 15th seized the heights commanding it, under cover of which the 43rd Brigade advanced to Haidari Kach, whilst the force at Sarwakai demonstrated in the direction of Turan China The passage of the Shahur *tangi* was unopposed and the Sarwakai column was successful in killing and capturing a few of the enemy in Kamardun village

17 On 16th June, the 45th Brigade joined the main body of the force at Haidari Kach The three following days were occupied in carrying out punitive measures in the vicinity, in improving the road through the defile and in reconnoitring the route to Burwand Reports were now received that the Mahsuds intended strongly to oppose the further advance of Major-General Beynon's force and, on 19th June, when the force moved to Burwand, considerable opposition was met with. During the whole of the ensuing night several hundred of the enemy made determined efforts to capture a piquet of the 54th Sikhs (F F) under the command of an Indian officer This piquet, although sustaining heavy losses, was successful in maintaining its position Major General Beynon describes the defence as a most gallant one, which not only worthily upheld the fine traditions of the battalion and of the Punjab Frontier Force, but, as was admitted by the Mahsuds at the final *jirga*, contributed in no small measure to inspiring the tribe with respect for His Majesty's troops and a general desire for peace

On 20th, for reasons of water-supply, the force moved forward a short distance to Ispana Raghza The enemy made a determined attempt to check the advance, but the 43rd Brigade overcame the opposition, the work of the 1-25th London Regiment and the 1-4th Gurkha Rifles being specially noticeable

On 21st Major-General Beynon ordered the 45th Brigade to destroy the village of Nanu at the head of the Splitoi Valley, whilst the 43rd Brigade dealt with the settlements in the vicinity of Ispana Raghza The enemy had evidently determined to make a stand on this occasion, and aeroplanes reported considerable bodies of the enemy on the ridge, dividing the Splitoi and Shahur valleys through which ran the pass to Nanu The 45th Brigade attacked the pass with great spirit and dash, the 2-6th Sussex Regiment

moving against the pass itself whilst the 2-1st (King George's Own) Gurkha Rifles, and the Mahindradal Regiment, Nepalese contingent, seized the heights to the south and north of the pass, respectively The enemy was driven off, Nanu village destroyed and the retirement of the troops to camp effected with only slight molestation Major-General Beynon brings to notice the most creditable manner in which the Mahindradal Regiment carried the heights forming its objective and also the valuable work performed by the aeroplanes of the 31st Squadron, Royal Flying Corps, both in reconnaissance and in bombing the enemy The defeat of the enemy on this occasion appears to have brought home to the enemy the futility of attempts to oppose the British *Raj* and messages asking for terms of peace begun from now to be sent in

On 22nd June, the 43rd Brigade destroyed the large village of Shah Salim Mela in the Waspas Valley The enemy had made careful preparations for opposing the advance, but, owing to the good dispositions made by Lieutenant-Colonel C O O Tanner Commanding the Brigade, the whole of the enemy's defence was turned and our casualties were slight

18 Sufficient supplies having now been collected to enable the advance to be resumed the striking force moved on 23rd to Narai Raghza A very difficult defile had to be negotiated in the face of opposition which was cleared away by the 45th Brigade During the following night the camp was heavily sniped and several piquets were attacked, one of the 1-4th Gurkha Rifles coming in for a particular share of the enemy's attention The possession of bombs assisted considerably in the defence of these piquets

On 24th Major General Beynon directed the 43rd Brigade to capture the Shrawani Pass to cover the passage through it of the 45th Brigade which was to carry out punitive measures in the Khaisara The heights leading to and commanding this Pass were seized by the 1st Rifles, Nepalese Contingent, 54th Sikhs (F F) and the 1-4th Gurkha Rifles The enemy was forestalled and the 45th Brigade was rapidly pushed through into Khaisara Valley Under cover of the right flank guard, which was continuously engaged with the enemy the destruction of all the villages within reach was proceeded with, the villages in the Nana Khel-Ghazi Kot area and the Machi Khel settlements being thoroughly dealt with, practically all the towers of these villages being blown up The retirement was then ordered This movement was hotly followed up and a piquet of the 55th Cokes' Rifles (F F) was charged, but the enemy was driven back with loss Major-General Beynon brings to notice the skilful manner in which the retirement of the 45th Brigade was carried out by Brigadier-General Luard Major General Beynon's intentions were to visit the Khaisara again on the following day but messengers had arrived from Kaniguram asking for terms of peace and the Chief Political Officer considered that the damage already effected was sufficient Accordingly on 25th, after destroying a village in the vicinity of the camp the force returned with slight molestation to Ispana Raghza

19 Whilst these operations were taking place several raids were carried out by aeroplanes of the 31st Squadron Royal Flying Corps Shingai villages in the Tikhi Zam and others in the Badda Toi were bombed and in a particularly successful raid on 26th June nine hits were scored on Makin and six on Marobi, the home of Mulla Fazl Din, the titular chief of the tribe These raids involved considerable risks Engines were very liable to failure in the high temperature prevailing, distances from the base at Tank were long and hills up to 8 000 feet had to be crossed These risks were however cheerfully taken by the flying officers and were well repaid by the results obtained, which undoubtedly contributed largely to the general desire for peace displayed by all sections of the tribe

20 A letter had now been received from a *jirga* at Kaniguram asking for Government terms of peace These were communicated verbally and the messengers were informed that military operations would be suspended until 2nd July on which date representative *maliks* were ordered to come in

On this date the *maliks* from Kaniguram arrived at Boji Khel, to which place General Beynon had transferred his force on 28th and 29th June owing to the water-supply at Ispana Raghza being unsatisfactory The *maliks* accepted the terms imposed and hostages were given for their due fulfilment

On 9th July the first instalment of the rifles demanded from the tribe was handed in and fresh hostages were given pending final settlement The attitude of the tribe being now very satisfactory, Major-General Beynon's force moved back, on the 11th and 12th July, to Manzal at the junction of the

Shahur and Danawat Valleys, the post at Haidari Katch being at the same time transferred to Chagmalai.

Owing to the difficulty experienced by the *maliks* in collecting the rifles which had to be surrendered, the final *jirga* could not be held as early as had been hoped, but on the 10th August a full representative *jirga* of 3,000 Mahsuds ratified the settlement, peace was declared and British territory opened to them for trade. By 12th August all troops had been withdrawn to Jandola and the dispersal of the forces in the Derajat and Bannu areas commenced.

21. Whilst these operations had been taking place, the troops under Brigadier-General Bruce in the Bannu area were not called upon to undertake any offensive measures. The presence of strong forces at Bannu and Miramshah deterred the Mahsuds from raiding into the Bannu district and Tochi Valley and kept them in a state of uncertainty as to whether an advance from Miramshah might not be contemplated. On one occasion only was it necessary for Brigadier-General Bruce to act against a body of the enemy. This was on the 14th June when a body of Mahsuds approached the Sudgi defile in the Tochi Valley with the object of attacking the 1-1st Kent Regiment marching to Miramshah. The prompt concentration of troops both from Miramshah and Bannu to effect which mechanical transport was largely employed, successfully prevented the enemy from carrying out his design.

22. The physical and climatic conditions of this portion of the North-West Frontier are peculiarly trying and the period during which the recent offensive operations had to be undertaken was the hottest time of the year. Nothing, however, could have exceeded the cheerfulness and determination with which all difficulties and hardships were faced and overcome by the troops, not only by those actively engaged against the enemy but by those on the lines of communication who at first in the Gomal and later in the Shahur Valley, were continuously employed on piqueting duties in difficult and dangerous country.

23. At the time when it was decided to take the offensive the most unfavourable season of the year was just commencing. It was necessary that operations should be undertaken with the least possible delay and with a force of adequate size to ensure rapid success. This entailed the immediate expansion of the force already available which threw a great strain on the communications leading into the area. The Kalabagh-Bannu-Tank narrow gauge line was inadequately equipped for the movement of large bodies of troops and was liable to interruption in the event of heavy rain. The unbridged passages of the Indus at Kalabagh and Darya Khan added greatly to the difficulties to be overcome. Consequently the work of those responsible for the communications was very arduous and the manner in which these duties were carried out is worthy of great praise. The administrative services and departments had also to work under high pressure and adverse conditions and their untiring efforts contributed greatly to the success of the operations. The Supply and Transport and Ordnance Services successfully met all the demands made upon them. The Medical Services under the direction of Colonel P. Hehir, C.B., C.M.G., I.M.S., by the timely use of precautionary measures, were able to prevent the outbreak of epidemics and the arrangements made for the reception and evacuation of the large numbers of sick which it was anticipated would have to be dealt with as a result of the great heat and unhealthy theatre in which the operations took place were fully adequate to deal with the casualties which occurred. The provision and equipment of base hospitals and convalescent depôts at Rawalpindi and in the Murree Hills was quickly carried out under the orders of the General Officer Commanding, 2nd (Rawalpindi) Division, and amply sufficed to meet all requirements.

The Royal Engineers had to carry through much work especially in connection with hospital accommodation, which was expeditiously and satisfactorily executed.

Whilst Major-General Beynon's striking force was in the Shahur Valley, sections of No. 3 Wireless Signal Squadron had to be relied on almost entirely for maintaining communications with it, and great credit is due to these sections for the way in which they coped with the heavy traffic.

24. I wish to express my thanks to the North-Western Railway authorities for the manner in which the transport of troops and supplies was carried out, especially over the narrow gauge railway in the Trans-Indus area. The congestion on this line was very great and it was only

owing to the unceasing exertions of the personnel of this line that the heavy traffic was successfully dealt with, in spite of inadequate rolling-stock and frequent interruptions due to damage to the permanent-way caused by floods

The operations threw a heavy amount of work on the Posts and Telegraph Department, for the successful coping with which I desire to express my gratitude and thanks I also wish to thank the Red Cross Society and those who contributed to sending comforts to the troops for their gifts, which were most acceptable to the recipients

25 I am greatly indebted to the advice and assistance I have received from the Hon'ble Lieutenant-Colonel Sir George Roos-Keppel G C I E, K C S I, Chief Commissioner North-West Frontier Province and to the manner in which the Political Officers attached to the North and South Waziristan Field Forces carried out their duties. Also for the assistance rendered by the North and South Waziristan Militias and Frontier Constabulary

NOTIFICATIONS

Midnapore

No. 404T.R.—The 22nd May 1918.—Whereas the Governor in Council by an order, No. 5928L.R., dated the 11th August 1917, which was published at page 1217, Part I of the *Calcutta Gazette* of the 15th idem, notified, for general information, that the estimate of the probable expenses to be incurred in respect of the repairs, maintenance and works connected therewith of certain Takavi embankments in the district of Midnapore for a period of fifteen years commencing from the 1st April 1919, amounts at the rate of Rs. 59,275 per annum to Rs. 8,89,125;

And whereas, as required by section 63 of the Bengal Act, II of 1882, this estimate was locally published on dates from the 22nd October 1917 to the 22nd December 1917, with general notices calling on all persons interested to prefer to the Collector of Midnapore any objection they might think proper against such amount being fixed as the total sum payable;

And whereas the objection preferred to the Collector of Midnapore has been duly considered by the Governor in Council and has been disallowed, the Governor in Council is pleased under section 63 of the Bengal Act II of 1882 to fix the estimated amount of Rs. 8,89,125 as the sum payable during the period of fifteen years commencing from the 1st April 1919, by the zamindars of the estates benefited by such repairs, maintenance and works.
